

# PARKER HANNIFIN CORPORATION

## Scholarship Application

Parker Hannifin Corporation's products control motion in a broad spectrum of essential uses for hundreds of industrial and aerospace markets. Our product lines cover hydraulic, pneumatic, and electromechanical applications, which include seals, pumps, motors, hoses, connectors, cylinders, valves, filters, and aerospace systems. We are a Fortune 300 corporation and we employ over 55,000 people worldwide. Parker is a long time member of the Cleveland business community and continues its partnership with area high schools, colleges, and universities.

The Parker Hannifin Corporation wishes to grant a scholarship to a student from the class of 2016 who will pursue a career in engineering, engineering technology, and/or computer science. Preferred engineering majors are mechanical, chemical, and industrial engineering. By completing this application, the student will also be considered for an internship with Parker beginning the summer of 2017.

- Winner will be announced at the Senior Awards Assembly.
- Scholarship check will be made payable to the recipient **by the high school** upon verification of college admission by the high school.

**Criteria:** Parker Scholarship: Must have a GPA of at least 2.8 and intend to pursue a degree in engineering or computer science/information technology at an accredited 4-yr college or university. (Consideration for other degrees not listed must be cleared by the corporation.)

**Applicants will be evaluated taking all parts of the application into consideration.**

\*\*\*\*\*

Applications must be returned to Parker Hannifin (ATTN: Carolyn Rogers), 6035 Parkland Boulevard, Cleveland, OH 44124 by:

**April 4, 2016**

Please type or print legibly and complete in detail. Have the guidance office attach an official transcript to your application. Written recommendations from principals and/or staff are appreciated. Incomplete applications will not be considered. All decisions made by the committee are final. All information provided would remain confidential.
