

CLEVELAND METROPOLITAN SCHOOL DISTRICT

High School Choices 2014-2015

CLEVELAND
METROPOLITAN
SCHOOL DISTRICT

To CMSD Students and their Families/Caregivers:

Our newly designed High School Choice Book is the first step in helping CMSD students and families to select the right school to prepare students for a successful high school journey and, ultimately, to prepare students for the colleges, workforce and careers that await you.

As part of *The Cleveland Plan* strategy, and in keeping with our levy promises to the citizens of Cleveland, CMSD continues to expand the number of quality schools we offer in neighborhoods across the city. Our “portfolio strategy” is part of a growing national trend in education that is based on the belief that offering diverse school choices is the most effective way to help students succeed.

Parents and caregivers—you play a critical role in helping your child succeed. It is important that you take an active role in reviewing the school choices available to your child. Assisting in the selection of the right high school will ensure that your child’s skills and interests are nurtured and developed in the academic environment that suits him best.

Students—you know better than anyone which school is right for you. Now is the time to think carefully about your unique talents, keen interests in certain subjects, your developing skills and special academic needs. With those personal characteristics in mind, look carefully at the descriptions and program offerings at each high school in the district and find the best school to prepare you for the future.

If you are artistic, if you love computers, if you are fascinated by robotics or plant and animal science, if you are interested in a career in food service, medicine or engineering, there is a CMSD high school that is right for you.

As you explore your options, I want to congratulate you on the hard work that brought you to this important turning point in your life. Now is the time to imagine your future in the world that awaits you. Best wishes as you prepare for your high school journey, when anything you dream of becoming is possible.

Sincerely,

Eric S. Gordon
Chief Executive Officer

The Cleveland Plan

In 2012, leaders and citizens from across Cleveland pulled together to develop The Plan for Transforming Cleveland’s Schools, establishing a common goal to ensure that children will no longer leave Cleveland’s schools without the knowledge and skills they need to succeed in a modern workforce.

Although the Cleveland Metropolitan School District had celebrated pockets of success and had seen significant improvements in some schools and programs over the years, passage of *The Cleveland Plan* legislation has positioned CMSD to accelerate that success in schools across the District.

The premise was simple: Cleveland’s schools had, for too long, been stuck in a rigid and outdated system designed for an industrial society. It was no longer enough to simply move forward; instead, citizens called for a completely redesigned school system that would ensure every student has access to the high-tech, 21st Century education needed to succeed in life.

With *The Cleveland Plan* fully in place, and with passage of the first school levy in 16 years and a ground-breaking bargaining agreement with its teachers, CMSD has the tools and resources it needs to fully implement The Plan for Transforming Cleveland’s schools.

THE PORTFOLIO STRATEGY

At the heart of *The Cleveland Plan* is CMSD’s portfolio strategy—a commitment to providing high-quality school choices across the city and giving schools greater autonomy over their curricula, staff and resources, based on their students’ needs.

Cleveland’s portfolio strategy has garnered national attention as one of the most extraordinary local efforts to modernize a large urban district.

Visit our new website at ClevelandMetroSchools.org to learn more about *The Cleveland Plan* and what CMSD is doing to alter its course and to earn its reputation as one of the nation’s top urban school districts.

Common Core Standards

Ohio is one of 45 states, along with the District of Columbia, that are implementing the new Common Core State Standards. The Common Core curriculum establishes more rigorous expectations for student learning in English language arts and mathematics from kindergarten through high school in order to prepare all graduates for college and career success.

In a 21st Century global economy, today’s students must achieve a deeper mastery of core subjects to compete globally for the jobs that await them. Because the common core standards are tougher, students will have to work harder to reach proficiency. These higher standards mean that test results released in the fall will be lower than previous assessments. As students adjust to this shift, scores will improve and students will have the necessary skills to be successful after graduation. Additionally, our community will have the highly skilled work force needed to be stronger.

COMMON CORE RESOURCES FOR PARENTS

Visit ClevelandMetroSchools.org to find content- and grade-specific Parent Roadmaps that provide detailed information for families about the expectations of the Common Core standards.

Roadmaps in each content area include tips for parents on how to communicate with teachers about their children’s work and how to support their children’s learning at home.

Closing the Achievement Gap (CTAG)

Since its inception, the Closing the Achievement Gap (CTAG) initiative has succeeded in increasing the number of participants promoted to 10th grade.

The CTAG initiative provides targeted intervention for ninth-grade minority males who run the risk of dropping out of school, as statistics show that these students are more likely to drop out if they repeat ninth grade. The goal is to partner these young men with Linkage Coordinators in schools who act as mentors, life coaches and advocates. They motivate the students and address social and emotional issues so young men will succeed academically and graduate from high school.

Exposure trips have significant impact on those who seldom leave their neighborhoods. Students travel to cultural and higher-education institutions where each young man can see his potential, change his outlook and dream of a brighter future.

# Graduation Requirements

here are testing and curriculum requirements a student must meet to earn an Ohio diploma. Students must pass the Ohio Graduation Tests in Reading, Writing, Math, Science and Citizenship and complete at least 22 curriculum units, which are listed below.

## ALTERNATIVE WAY TO MEET THE TESTING REQUIREMENTS

A student may meet the testing requirements if he/she meets **ALL** of the following criteria:

- Passes four of the five tests and misses passing the fifth test by no more than 10 points
- Has a 97 percent attendance rate (excluding any excused absences) through all four years of high school and does not have an expulsion in high school
- Has at least a grade point average of 2.5 out of 4.0 in the courses of the subject area not yet passed
- Has participated in intervention programs offered by the school and has a 97 percent attendance rate in these programs
- Has letters recommending graduation from the high school principal and each high school teacher in the subject area not yet passed
- Has completed the high school curriculum requirement

## CURRICULUM REQUIREMENT DISTRICT/STATE MINIMUM

|                      |                                                                                                                                                                                                                                                                                                      |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| English              | 4.5 units (includes 0.5 unit of senior seminar)                                                                                                                                                                                                                                                      |
| Mathematics          | 4 units (must include Algebra II or equivalent)                                                                                                                                                                                                                                                      |
| Science              | 3 units (must include 1 unit of physical sciences, 1 unit of life sciences and 1 unit of advanced study in one or more of the following sciences: chemistry, physics or other physical science; advanced biology or other life science; astronomy, physical geology or other earth or space science) |
| Social Studies       | 3 units (must include 0.5 unit of American History and 0.5 unit of American Government)                                                                                                                                                                                                              |
| Physical Education   | 0.5 unit (must complete 120 hours of Physical Education to earn 0.5 credit)                                                                                                                                                                                                                          |
| Health Education     | 0.5 unit                                                                                                                                                                                                                                                                                             |
| Fine Arts            | 1 unit (must receive instruction in economics and financial literacy during grades 9-12 and must complete at least two semesters of fine arts taken any time in grades 7-12. Students following a Career-Technical Education (CTE) pathway are exempted from the fine arts requirement.)             |
| Foreign Language     | 1 unit                                                                                                                                                                                                                                                                                               |
| Financial Literacy   | Students may take Financial Literacy through a variety of courses (embedded 2nd semester American Government; elective Financial Literacy I or II; Business Course – Financial Literacy)                                                                                                             |
| Electives            | 4.5 units                                                                                                                                                                                                                                                                                            |
| <b>Total Credits</b> | <b>22 units</b>                                                                                                                                                                                                                                                                                      |

# High School Choices Admission guidelines

The Cleveland Metropolitan School District allows students to attend the high schools of their choice, regardless of location.

Generally, students who apply to a school will be chosen at random for admission and placed on a waiting list if seats are filled. If demand is high at some schools, priority may be given to students who live in the area.

Students seeking to attend the three high schools at the John Hay Campus, Cleveland-Bard Early College High School, Cleveland School of the Arts @Harry E. Davis and Whitney M. Young Leadership Academy must meet selective-admission requirements.

## Free transportation across the District

To help students reach high schools across the District, the Board of Education provides free transportation through the Greater Cleveland Regional Transit Authority (RTA).

Students who live at least a half-mile from school can ride RTA with an identification card issued by the District. The cards may be used from 5:30 a.m. to 8 p.m. on school days.

Protect your ID card — If you lose your card, the first replacement is free; a \$10 fee will be charged if lost again.

Community service  
Sports  
Student publications

## COMMUNITY PARTNERS

The school will seek to establish partnerships with local higher education institutions

## Bard High School Early College (BHSEC) Cleveland –

Imagine a school operated in partnership with a college, one where in four years you can earn both a high school diploma and a two-year college degree – tuition free. Bard High School Early College Cleveland will combine high school with a college course of study in the liberal arts and sciences. Every day, the school will strive to live up to the Bard College motto, “A Place to Think,” by emphasizing the critical thinking skills and habits of mind that help students succeed academically and gain a better understanding of themselves and their places in the world.

### Cleveland School of the Arts @ Harry E. Davis

Imagine a school where you can dance, sing, act, write, create works of art and begin turning your artistic passion into a career:

At CSA, you can:

- Attend a school with a 100 percent college acceptance rate
- Join clubs in areas ranging from jazz and gardening to math and photography
- Be among the first students in a new building expected to open in University Circle in the 2015-16 school year
- Enjoy access to Cleveland's outstanding museums and arts institutions

The Cleveland School of the Arts offers a college-preparatory curriculum focused on literary and visual arts, dance, music and theater. You can earn college credits while in high school.

### Collinwood High School and College Board Academy

**Academy** – Imagine attending a high school wholly focused on college and career readiness, a school proud to be among the first selected Investment Schools in the District, a school where the focus is on supporting your academic and non-academic needs and where one social service agency, OhioGuidestone, manages “wraparound” services.

Each student at Collinwood High School is placed into a gender-based mentor group, each named after a university in the College Board Academy or Fortune 500 companies in the New Tech Academy. The mentor groups compete in the year-long Mentor Challenge, from which the winner will go on to an out-of-state overnight college tour.

If you choose Collinwood, you’ll have numerous academic choices, including:

- AP classes in statistics, art history and environmental science
- Interior design and fashion design
- Journalism
- Robotics
- Choir
- Extracurricular activities like athletics, an anti-bullying student group, yearbook, JROTC and Drum Line
- Support services such as credit recovery, peer mediation, Project Love and Closing the Achievement Gap

### New Tech @ Collinwood

– Imagine a school – one among a growing number in the District under the national New Tech model – where you’ll learn and present your projects to a team of other students, faculty and staff.

New Tech Academies are places where you’ll have:

- Computer access every day
- Tablet computers replacing printed textbooks
- Project-based work in a personalized learning community
- An academic environment that promotes creativity and independent thinking
- Highly skilled teachers, trained and dedicated to the New Tech curriculum
- A focus on accountability, trust, respect and responsibility

**East Tech** – Imagine a school with two academies – the Community Wraparound Academy and the Engineering, Science and Technology Academy – that prepare you for lifelong success through our unique combination of college-prep curriculum and technical education.

East Tech is focused on student growth, demonstrated by our sharply rising test scores (up 10 percent on the OGT, the largest gain in the city of Cleveland), but also on the whole student. We provide a full range of wraparound services as one of 17 schools in a program overseen by the United Way and have a range of services, including on-site counseling, dental clinics and staff advisors for every student. Additional support comes from City Year staff members in every 9th- and 10th-grade classroom.

At East Tech,

- We use the SpringBoard curriculum that is approved by the College Board and aligned with the Common Core.
- Honors students can take AP classes in biology and U.S. government, and go on monthly trips to experience Cleveland's rich cultural assets.
- You can specialize in culinary arts, JROTC, child care, engineering and AutoCad, and next year you can work in our newly renovated greenhouse when we become the first high school in Cleveland to feature an agriculture business program.
- You can explore your creative side in the arts and foreign language offerings or get involved in our brand-new band program, featuring the Scarab Drum Line and Chorus.
- You can explore our nationally renowned robotics program and our award-winning Chess Club, or join a storied athletic history that has included 21 state champions, four Olympians and the greatest athlete in Cleveland history, Jesse Owens.

## Facing History New Tech High School @ Charles A. Mooney

– Imagine a school so unique that it is the first of its kind in America, a place where you'll not only work on specific projects, but work collaboratively with other students and where your work will be graded by an audience of peers and staff.

Facing History New Tech combines a curriculum called "Facing History and Ourselves" with a project-based approach. Ultimately, your work will be assessed on a combination of content, oral and written communication, teamwork, reflection and work ethic, not traditional grading methods.

At Facing History New Tech, every student has a computer and access to real-time grades, assignments and teachers online.

It is also a school where a diverse student population studies racism, prejudice and anti-Semitism to develop more informed citizens who connect history and their own moral choices.

Facing History New Tech is also a school with strong business partnerships, linking students with role models and a community where they can practice and strengthen their skills.

## Garrett Morgan School of Science

– Imagine a high-performing school with a science-based, college-preparatory curriculum that uses distance-learning technology to connect with respected professionals worldwide, an educational center focused on preparing you for a successful future.

At Garrett Morgan, you can:

- Enroll simultaneously in high school and college courses
- Get tutoring by members of the U.S. Coast Guard
- Experience Science 360, in which science-based learning extends into all other subjects such as language, math, and social sciences
- Drop in on weekly career webinars to jump-start your job plans
- Enroll in Upward Bound, take courses at Cuyahoga Community College and apply to High Tech Academy
- Join extracurricular groups to take part in the concert band, prom, homecoming, groups against bullying, Science Fair and Mock Trial
- Volunteer as ambassadors for younger students from the Near West Intergenerational School

That's Garrett Morgan School of Science, a place where you can explore the vast reaches of science, at a school where our small size lends itself to a supportive, family-like atmosphere.

**Ginn Academy** – Imagine attending Ohio's only all-male public academy, a high school where you start each day in a morning session of encouragement and accountability and where each student has his own mentor, on call 24-7.

This is a progressive, but disciplined, academy with dual enrollment at Cuyahoga Community College and Cleveland State University, where a partnership with HealthCorps provides nutritional support for each student and where renowned speakers such as educator and author Stedman Graham appear monthly.

At Ginn Academy, you can choose one of three academic pathways:

- Education and human service
- Law and global policy
- International business and communications

Ginn Academy focuses on both higher education, beginning college tours as early as the freshman year, and career, with the Career Center providing advice and lining up jobs for up to 50 students each summer at the Northeast Ohio Regional Sewer District.

**John F. Kennedy** – Imagine attending one of two new schools launched with a \$3 million grant from the Carnegie Corp., schools that provide small, personalized settings but with the advantages of the large campus that the two will share.

Each of the schools will open with 100 to 125 ninth-graders and grow by one level each year until reaching a maximum of 400 to 500 students.

For the 2014-15 year only, the schools will be based at the former Miles @ Cranwood, 13604 Christine Ave., Garfield Heights. That will provide time to solidify the culture and new practices.

The schools are open to students of all achievement levels. At each, you will find:

- Caring, consistent student-adult relationships
- High expectations for learning and behavior
- Opportunities to contribute to the school environment and have a voice in decisions
- Encouragement of family participation
- Linkage to academic and career pathways
- Partnerships with organizations that enrich student learning
- Access to community resources and supports
- Use of time, people and technology to optimize teaching and learning
- Flexible, customizable scheduling
- Instruction to fit a variety of learning styles linked to students' strengths and learning goals
- Effective use of technology for anytime, anywhere learning

**J**ohn Marshall Ninth Grade Academy @ Nathaniel Hawthorne  
Imagine one of CMSD's high-performing school choices where we understand that positive performance in ninth grade is the most critical predictor in overall high school success.

Our school is based on the Talent Development High School Model and we'll place you in smaller groups, each working with its own interdisciplinary team of teachers.

The goal is to provide a safe, nurturing, structured, academic environment where you'll make a successful transition to high school and follow a demanding curriculum, and by which you'll be prepared to pass state graduation assessments and be placed on the path to graduation.

The school collaborates with community agencies to support student social/emotional needs and participates in Closing the Achievement Gap — a program that supports and advocates for at-risk male students.

**Lincoln-West** – Imagine yourself at a high school that is home to a dynamic Ninth Grade Academy, an International Studies Academy and a New Tech Academy. Lincoln-West is a place where you'll not only thrive academically in rigorous classes, but where personal, social, emotional and other needs will be met in a caring, family-like environment.

The 2013-14 school year marked the first year of the Lincoln-West Campus as an Investment School and the merging of three academies.

In the Ninth Grade Academy, you'll benefit from veteran instructors who often use team teaching, as well as small-group learning and individual instruction.

You'll have access to courses in French, Spanish and Chinese.

In the International Studies Academy, you will find yourself immersed in an environment where your instructors are always mindful of what globally competent students are more able to do by investigating the world, recognizing perspectives, communicating ideas and taking action.

Lincoln-West is committed to ongoing performance monitoring against school and classroom goals. We will conduct regular, responsive interactions with families and community stakeholders. We will empower every member of the Lincoln-West community to create an intensively student-centered mindset. Lastly, we will develop a meaningful, effective, relevant instructional model that will empower all students to achieve at high levels.

### New Tech @ Lincoln-West

Imagine a school that features project-based learning, a school that stresses collaboration between students and critical thinking and presentation skills, a school where student engagement reaches new levels and produces better educational outcomes.

New Tech at Lincoln-West maintains a culture that promotes trust, respect and responsibility. Students and teachers have ownership of the learning experience and school environment.

**MC<sup>2</sup>STEM** – Imagine a school that is revolutionizing education, a place where you'll begin your high school career inside a hands-on science museum, move to the campus of a Fortune 500 company for your sophomore year and spend your final two years on a downtown college campus.

All of that is reality at MC<sup>2</sup>STEM, where you'll be immersed in science, technology, engineering and math courses in dynamic learning environments.

MC<sup>2</sup>STEM looks like this:

- Freshman year you'll be at the Great Lakes Science Center in downtown Cleveland, where you'll study in a building that looks out to the North Coast Harbor, Rock and Roll Hall of Fame and Museum and Lake Erie, but also looks in to the dynamic and informative museum.
- Sophomore year you'll move to GE Lighting @ Nela Park in East Cleveland, where you'll work alongside knowledgeable professionals who will mentor and tutor you on their job site and in the classroom.
- Junior and senior years you'll be at the new KeyBank Classrooms in STEM Education at Rhodes Tower on the downtown campus of Cleveland State University, where you can work alongside college students in a higher-education environment with high-tech equipment, including lasers and robotics.

1111 Superior Avenue E • Cleveland, OH 44114 • 216.838.ENRL (3675)

**To Cleveland Students and their Parents/Caregivers:**

Deciding which school to attend in the fall can't wait until school starts in August. That's because choosing the right school today can make all the difference in your future success in college, careers and life.

**Whether you're looking for a PreK, STEM, Montessori, career-tech, early college high school, New Tech Academy or other high school program, CMSD enrollment specialists are ready to help you find the Right School, Right Now.**

This **School Choice Book** is your first step toward finding the perfect school to take your skills, interests and talents to the highest level. Whether you love science, computer technology, robotics, performing arts, plant and animal science, culinary arts, medicine or automotive technology, **there is a CMSD school that's right for YOU.**

**IN THE SCHOOL CHOICE BOOK:**

**EXPLORE** the growing number of school choices across the city, visit schools to talk with teachers and principals and learn from other students what it's like to be part of their school experience.

**IMAGINE** a school setting with the technology, the tools and the staff that will bring classes to life each day. Consider the school climate, post-secondary options, before-school care and after-school activities, wraparound services and school-based support systems available.

**CHOOSE** the right school to keep you engaged, challenged and excited about learning as you prepare for graduation and the jobs and careers that await you.

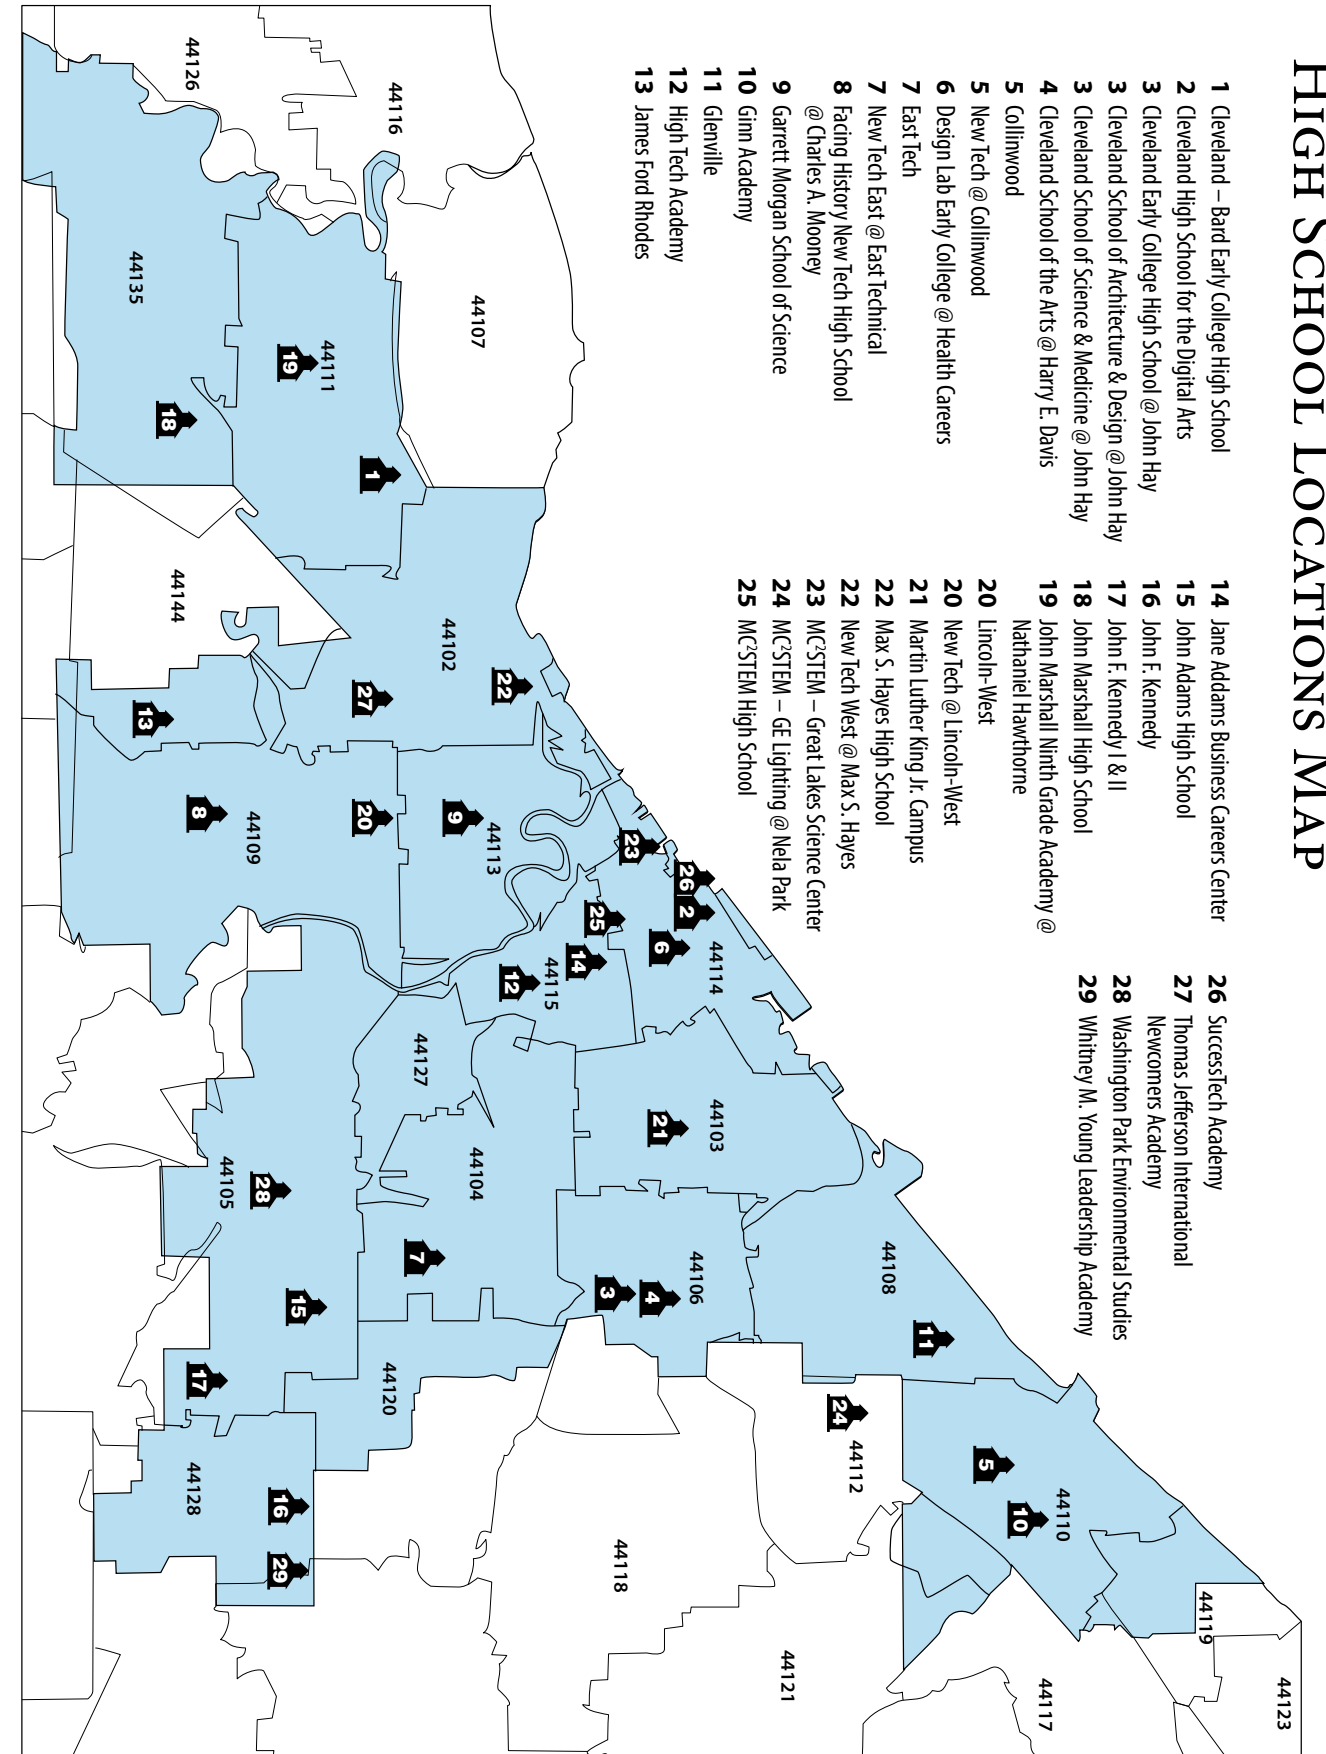

**Enroll NOW!**

Visit our Student Enrollment Office – 1111 Superior Ave. E  
Work with an enrollment specialist to find the right school for you,
