2012-2013 Report Card for John Adams High School

SCHOOL GRADE

Coming ir	1
2015	

District results under review by the Ohio Department of Education based upon 2011 findings by the Auditor of State.

IRN: 018325

Achievement

This grade combines two results for students who took the state tests. The first result answers the question – How many students passed the state test? The second result answers the question – How well did students do on the state test?

GRADE

Performance Index

The Performance Index measures the test results of every student, not just those who score proficient or higher. There are six levels on the index and districts receive points for every student in each of these levels. The higher the achievement level the more the points awarded in the district's index. This rewards schools and districts for improving performance.

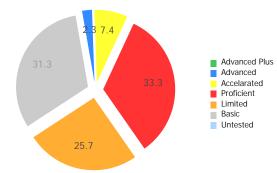

Performance Index

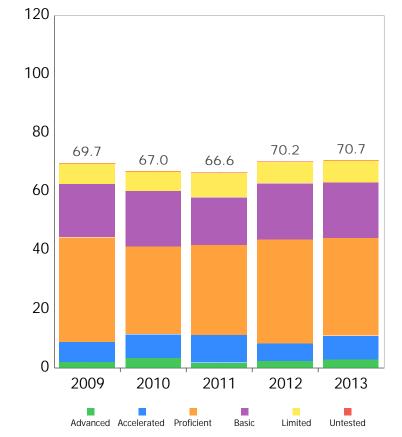

Achievement Level	Pct of Students	-	oints for his Level	R	Points eceived
Advanced Plus	0.0	х	1.3	=	0.0
Advanced	2.3	х	1.2	=	2.8
Accelerated	7.4	х	1.1	=	8.1
Proficient	33.3	х	1.0	=	33.3
Basic	31.3	х	0.6	=	18.8
Limited	25.7	х	0.3	=	7.7
Untested	0.0	х	0.0	=	0.0
					70.7

58.9% 70.7 of a possible 120.0

A =	90.0 - 100.0%
B =	80.0 - 89.9%
C =	70.0 - 79.9%
D =	50.0 - 69.9%
F =	0.0 - 49.9%

Performance Index Trend

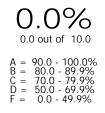

2012-2013 Report Card for John Adams High School

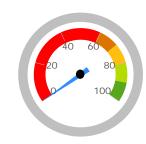

Indicators Met

Indicators Met measures how many students have passed the state tests at a minimum level, called proficient, or higher. Test results are reported for each student in a grade and subject. At least 75 percent of students must pass to get credit for the indicator. Starting in the 2013-14 school year, a district or school needs to have 80 percent of their students pass at a minimum level or higher in order to "meet" an indicator.

Indicators Met %

Grades 3-5

This school does not have enough test results in 3rd, 4th, or 5th grade to display this table. This school does not have enough test results in 6th, 7th, or 8th grade to display this table.

Progress

This is your school's average progress for its students in math and reading, grades 4-8. It looks at how much each student learns in a year. It answers the question – Did the students get a year's worth of growth? Did they get more? Did they get less?

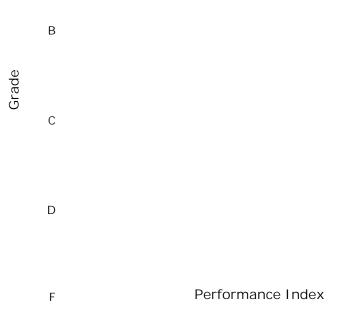

GRADE	Overall This measures the progress for all students in math and reading, grades 4-8.	Progress Details
GRADE	Gifted Students This measures the progress for students identified as gifted in reading, math, and/or superior cognitive ability.	This table shows the Progress scores by test grade and subject. No data returned for this view. This might be because the applied filter excludes all data.
NR ^{grade}	Students in the Lowest 20% in Achievement This measures the progress for students identified as the lowest 20% statewide in reading and math achievement.	
grade	Students with Disabilities This measures the progress for students with disabilities.	
grade Coming in 2016	High School A High School measure of progress will be implemented in the 2015-16 school year.	Although Progress scores are not $A = 2.0$ and upassigned letter grades at this level of $B = 1.0$ to 1.9 detail, the grading scale applied at the $D = -2.0$ to -1.1 Overall (All Students, All Tests) level is: $F = $ below -2.0

Progress vs. Performance Index

This bubble chart shows the relationship between each subgroup's performance index results (horizontal axis) to the Value-Added letter grade (vertical axis). The size of the bubble represents the size of the student subgroup.

Gap Closing

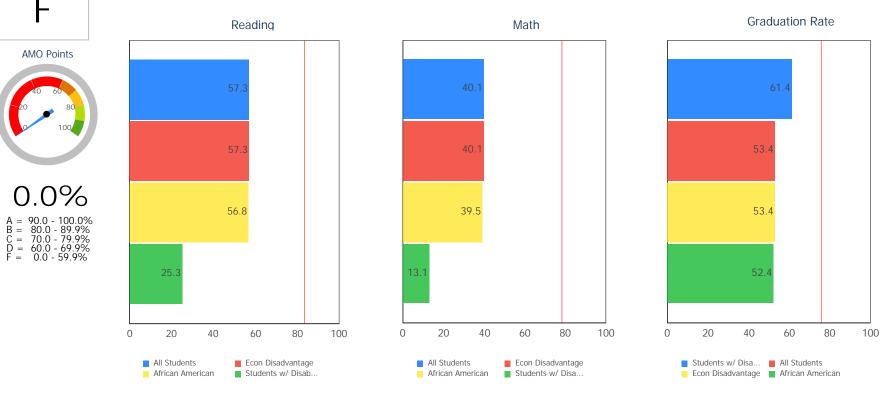

This grade shows how well all students are doing in your district in reading, math, and graduation. It answers the question – Is every student succeeding, regardless of income, race, culture or disability?

GRADE Annual Measurable Objectives

Annual Measurable Objectives (AMOs) compare the performance of all students to a state goal which is displayed as the red line in the following charts. These charts show how well each group achieves that goal in reading, math and graduation – and emphasize any achievement gaps that exist between groups. The ultimate goal is for all groups to achieve at high levels.

The red line on each graph identifies the Annual Measurable Objective. The 2013 AMO for Reading is 83.4%, for Math is 78.5%, and for Graduation Rate is 75.9%. Subgroups with fewer than 30 students are not rated and do not appear on the graphs.

Graduation Rate

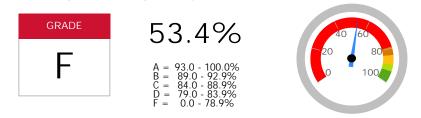

This grade represents the percentage of students whom entered the 9th grade and graduated 4 and 5 years later.

4-Year Graduation Rate

The 4-year graduation rate applies to the Class of 2012 who graduated within four years, i.e. students who entered the 9th grade in 2009 and graduated by 2012.

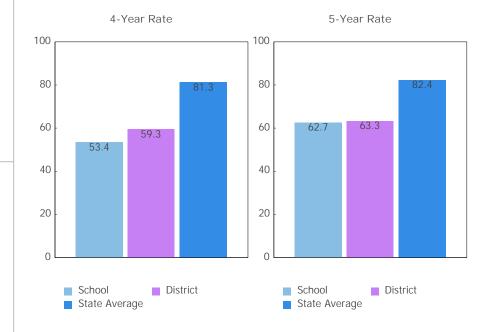

5-Year Graduation Rate

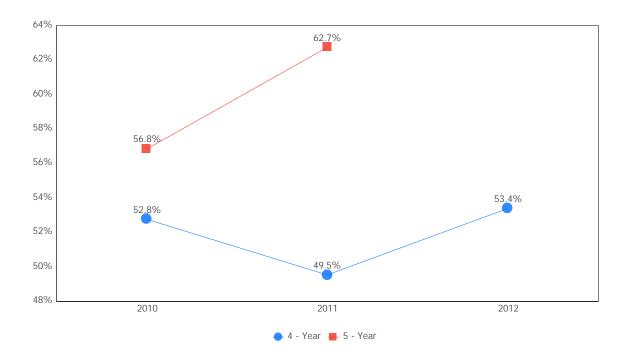

The 5-year graduation rate applies to the Class of 2011 who graduated within five years, i.e. students who entered the 9th grade in 2008 and graduated by 2012.

Graduation Rate Trend

Note: The 5-year graduation rate does not appear in the final year of this graph because the necessary data is not yet available to calculate the 5-year rate for that school year.

NC = Not Calculated because there are fewer than 10 in the group

This chart shows the percentage of students who, because they moved into or out of the district, did not spend a majority of the school year within the district.

Your School's Teachers

Your School's Poverty Status: High	Your School	Your District
Percentage of teachers with at least a Bachelor's Degree	100.0	
Percentage of teachers with at least a Master's Degree	89.1	
Percentage of core academic subject and elementary classes not taught by Highly Qualified Teachers	8.3	
Percentage of core academic subject and elementary classes taught by properly certified teachers	91.2	
Percentage of core academic subject elementary and secondary classes taught by teachers with temporary, conditional or long-term substitute certification/licensure	0	

High-poverty schools are those ranked in the top quartile based on the percentage of economically disadvantaged students. Low-poverty schools are those ranked in the bottom quartile based on the percentage of economically disadvantaged students. A district may have buildings in both quartiles, in just one quartile or in neither quartile.

NC = Not Calculated because there are fewer than 10 in the group

Wellness and Physical Education

The extent to which students are successful in meeting the benchmarks contained in Ohio's physical education standards
