Preschool children ages 3-4
Kindergarten children age 5

To ensure community safety, the Cleveland Metropolitan School District will operate in a virtual environment for the first nine weeks of the school year. While we know this presents challenges for our staff, students and families, we are putting numerous supports in place to ensure every child in grades PreK-12, experiences excellence learning and teaching.

Ensuring Success for CMSD's Youngest Learners

CMSD has invested in an engaging and inspiring online learning platform that provides resources and supports for students, families and staff who must connect remotely for school.

- Seesaw, one of the online platforms for student engagement this year, enables PreK-5 students to easily access their teachers and lessons from home with a single sign-on to their school account.
- PreK-5 teachers empower students to create, reflect, share and collaborate using digital devices and Internet access provided by the District.
- Students “show what they know” in lessons that use photos, videos, drawings, text, PDFs and links.
- Seesaw, with a simple sign-on, makes it easy to find and to store student work in one place, and for teachers to share work with families.
- Excellent resources are available now for parents, including student-friendly videos to introduce and guide you through the fun and engaging learning management system we will use this year.
