Remote Assessment of AWP

Teacher Technology Needs:
- Know how to **split your screen** to see two windows simultaneously
- Know how to use the platform you will use for communicating with your students online (Teams, Zoom, etc.) and **how to share your screen with students**
- Ability to locate, download and open PPTs or PDFs of student stimulus materials

How to: Split Your Screen

For PCs:

1. Take your cursor to the center of the topmost part of the open window on your screen. It doesn't matter if you start with the AIMSWEBPLUS+ window or the Microsoft Teams window.

2. Snap (drag and drop) the window all the way to the right half of your screen.

3. Grab the other window and *snap* it to the left half of your screen.

Voila! You should be able to see both the Teams and your AWP+ window.

Please note: this should work on any Windows 7, 8, or 10 computer, but if your computer resolution / monitor is particularly old or low, you may encounter difficulties; I recommend the computer shortcut "Alt+tab" to quickly change windows in these scenarios.

How to: Share Your Screen

In Microsoft Teams:

Video: https://www.youtube.com/watch?v=DoJqHnpytUU

1. During a Teams meeting or call, move your mouse to the bottom-middle corner of the screen.

2. Choose the chat control options and click the icon with the square box and arrow.

3. You can then choose any one of your screens, desktop, a window, or program to share.
