

CHARLES  DICKENS

# WELCOME TO FIFTH GRADE!

SCIENCE AND SOCIAL STUDIES  
ROOM 209

# MEET THE TEACHER

Welcome to the fifth grade at Charles Dickens School! We have a fantastic year planned. My name is **Jordan Seigler**, and this is my 6th year of teaching. I enjoy making learning fun and helping students improve!

This year we have many amazing things happening! We will be going on **MANY** field trips, including to Put-In-Bay to visit the Stone Laboratory! We will have a fifth grade parent meeting to talk more about this and give parents a chance to sign permission slips and learn more about fifth grade very soon.

This year students will be learning about space, the planets, ancient civilizations, geography, food webs, fractions and decimals, and much more! We will be expecting students to show greater responsibility and social skills as they begin the transition to middle school.
