Re: Addendum to Internet Service for Cleveland Metropolitan School District

***This addendum supplements and amends the original specifications. Receipt of this addendum must be noted in the proposal submittal***

Addendum includes the following:

- Response to submitted questions

***End of Addendum***

## Questions and Answers

	Question	Answer
1	Many School Districts utilize multiple internet providers for diversity and redundancy and often use BGP for routing. Please let me know if the multicarrier version is of interest to the school district.	The district currently has multiple ISP carriers.
2	What is the service address for this circuit? Is it the same as the billing address?	The data center is located in the same building as the billing address.
3	Per the RFP, <i>“Service to include scalable bandwidth in increments of 100 Mbps.”</i> However, the Pricing Sheet asks for 20, 30, and 40 Gbps. Please confirm or clarify that the speeds on the Pricing Sheet are the only ones being requested?	As stated: The requirements are minimum 20Gbps up to a Maximum of 40Gbps. CMSD wants to be able to scale up increments of 100Mbps if possible. We are requesting the monthly rates at 20Gbps, 30Gbps, and 40Gbps.
