

CMSD intends to contract with a qualified vendor to provide Internet Service in support of the needs of the Cleveland Metropolitan School District’s Internet access. The service must be highly reliable and scalable, offering to the greatest practical degree physical resiliency, dynamic switching, web filtering and caching. CMSD’s primary Data Center is currently located at 1111 Superior Avenue. CMSD is planning for a secondary Data Center at a location to be named.

The Respondent shall furnish all labor, materials, software, hardware and other equipment necessary to provide implementation and on-going maintenance of the service. The successful respondent will include a detail implementation plan to include timelines, and other milestones. The purpose of the Internet Service Provider Service is to provide:

**Requirements:**

- Minimum of 20 Gbps throughput up to a Maximum of 40 Gbps
- Burstable service up to the next Gbps for a 1-to-3-day period without additional cost
- Service to include scalable bandwidth in increments of 100 Mbps
- Industry standard/ Best Practices for Security
- Provide DDOS services
- 24/7 reporting availability
