

Notice of Demolition and Construction

Marion C. Seltzer

Congratulations on your new school!

With August quickly approaching, we wanted to inform you of the timeline for the demolition and construction of your community's new school. The construction site will be fenced off in August. This includes the existing school, designated portions of the surrounding park and the Tamir Rice Memorial. **We recognize the significance of the Memorial and will take all steps necessary to assure its protection during demolition and construction.** Once the fencing and protective measures are installed, the abatement and demolition of the existing school building will begin.
