

# Paint It Black

## Activity Sheet

Name: \_\_\_\_\_ Class: \_\_\_\_\_

Sten and Chip are mixing paint.  
Help them keep track of how much paint they have of each color.  
Write and solve an equation for each question.

- 1** Chip mixed  $\frac{1}{4}$  cup of red paint and  $\frac{1}{2}$  cup of blue paint.  
How much purple paint did he make?

- 2** Sten mixed  $\frac{3}{8}$  cup of white paint and  $\frac{1}{4}$  cup of green paint.  
How much light green paint did he make?

- 3** Sten had  $\frac{11}{12}$  cup of white paint. He used  $\frac{3}{4}$  cup of the white paint.  
How much white paint is left?

- 4** Chip mixed  $\frac{1}{2}$  cup of red paint and  $\frac{1}{3}$  cup of yellow paint.  
How much orange paint did he make?
