The Artemus Weekly

Together we will make it great!

Staff,

Happy Sunday! What an amazing week last week was. It was inspiring to see so many people come together and support each other. As a staff we continue to adapt to the incredible challenges associated with online learning. While we have a long road to go, I have comfort in knowing that every day I saw advancement and growth. Going into week 2 we are stronger, more knowledgeable, and more technologically sophisticated than we have ever been, and we will continue this trend as we strive towards excellence.

In your mailbox you received an update with supports from Eric Gordon. The list is comprehensive and provides access and information to most of the key components of our online learning plan.

At this time our admin team still does not have access to our school account. I am asking that you add both myself and Mrs. Beets to your Schoology courses as admin members. This is so that we can be on the same page with the pace and content of the online teaching/learning that is taking place in our classrooms. The access we are asking for is not for evaluative purposes and not a part of TDES. If you are not sure how to add us let me know and I can provide a how-to.

Building Level Updates:

- Technology will continue to be distributed throughout the week. If a student or parent requests a computer let them know to call the office an hour in advance of when they would like to pick it up.
- Student Supply Distribution is this Wed. Mrs. Cree needs to know what Eureka modules and books that you would like distributed. She will be sending you a survey shortly. Please be sure to fill it out asap so that we can begin to distribute the materials.
- If you have any handouts, materials, additional resources, how to sheets, or anything else you would like to have distributed to students this Wed., you will need to have the materials prepared and placed by you assigned section in the gym. These materials will have to be ready by early Tuesday afternoon so they can be set up before wed. morning.
- I will be sending an updated email & password along with an updated ELL student list later this evening.
- Earlier in the week I sent instructions on how to see up to 49 students using teams. This is a great feature and will help you better manage your students. Please let me know if you need further support in getting it working.
- Continue to populate and update the engagement documents in the Engagement and Supports Teams folder. Our goal is to attempt to contact non-engaged students at least once per day. We are here to support, but can't unless the document is being populated and updated daily.
- SST team will meet this Wed. an invitation will be forthcoming. After we establish protocols for the upcoming year I will pass them along.
- Admin. morning meetings will not occur this week. We still do not have full access to our admin accounts.
- Attendance: Submit your attendance adjustments to Mrs. Bisaroe (CC Mrs.Funk) on Wed. and Sun. She will make adjustments in 2 day increments.
- I am still seeking answers to some of the technology questions that have been asked. I provided responses to a few of them earlier in the week. I plan on meeting with a Microsoft representative later this week. Please continue to send questions so that when we meet I can ask them.

That's it for now. Have a great week!

-Mr. Myslenski

Instructional Focus Strategies:

- **Gradual Release Model**
- **Discourse:**
- **Feedback**
- **Scaffolding**

Testing Dates

- 9/21 NWEA Reading Grades 1-3
- 9/28 NWEA Math Grades 1-3
- 9/28 NWEA Reading and Math Grades 4-8
- 9/28 AIMSweb Plus Universal Benchmark Screening Grades K-3

Wednesday Schedule

- 11:00-12:40pm - PD
- 1:20-2:10pm - PLCs
