Let's Keep It

REAL

REAL, which stands for Recognize Education And Learning, is a service meant to influence and acknowledge the importance of education. REAL intends to increase the appeal of education with a unique approach and style of delivery. We serve schools and students of all ages, along with sport teams with the approach of applying positive athletic concepts to the classroom. REAL hosts workshops and events catered to educational success with the purpose of creating positive awareness about education as well. We intend to build a culture that embraces educational prosperity. Check out our website at REALest2020.com and on **Twitter** and **Instagram** for more information including Blog Posts, REAL Recognize REAL Students of the Month and more! Our newest book, **Let's Keep It REAL**, is also available on Amazon!

The Founder of REAL, Dr. Devon Carter, is originally from Cleveland, Ohio and attended John Hay (Architecture and Design) High School. As a top 50 shooting guard in the country ranked by ESPN, he, then, received a basketball scholarship at Lehigh University in Bethlehem, Pennsylvania. As a two-time captain of the basketball team, he ultimately earned both a Bachelors of Arts ('16) and, continuing his education while on the team, a Masters of Science ('18) in Social Psychology. After earning his PhD in Special Education ('22) from Lehigh, he earned a position as Professor and Intervention Specialist at the University of Akron. His motivation behind REAL comes from his passion to contribute a positive and unique perspective of education that students can apply internally to understand why education is so important.

“I want to begin by thanking you, whether you are a student, parent, teacher, staff member or anyone who is a part of the village it takes to produce future leaders. I appreciate you and want you to know that your hard work and relentless dedication is something that I do not take for granted. With that being said, I want to share a vision of mine that is, like yours, motivated in guiding our future. My family and I started this movement because we initially just wanted to figure out a way to help. We wanted to help students create a new, positive perspective and culture around the idea of education. We believe with a positive perspective of education and what it can provide, students will benefit from understanding why they need to educate themselves. We also want to help teachers, staff, etc. by creating a positive culture around education from the students’ perspective, which establishes a cohesive environment among your students. This serves to benefit students, teachers, staff members and the entire culture of inspired positivity regarding education.”

Thank you for your time and for the opportunity to positively impact our future leaders. We looking forward to serving you! Please feel free to email us at **RecognizeEducationAndLearn@gmail.com.**

Keep it REAL.
