

Exact Path contains individualized lessons and practice skills in math and reading so that students are able to get the most out of remote and live classroom instruction.

Expectations are that every student completed 30 minutes of work in Reading AND 30 minutes of work in Math inside of Exact Path each and every day.

School-wide Exact Path time on Wednesdays will be from 1:00-2:00. It is our expectation that ALL student log into Exact Path at that time each Wednesday to complete 30 minutes of Reading and 30 minutes of Math. We will identify one student each week who meets this expectation to win a prize!

Click on the Exact Path icon for an information sheet and the Video icon for an introduction video.
