HIGH SCHOOL CHOICES

A complete guide to CMSD high school options
ChooseCMSD.org

The first step in MAKING YOUR DREAMS COME TRUE IS CHOOSING YOUR HIGH SCHOOL

As you prepare to enter high school, you have many choices to make. Perhaps your most important decision is selecting a high school that is right for you.

We know that one size doesn't fit all, especially when it comes to high schools. It is important that you attend a high school that helps you pursue your dreams and positions you for success beyond high school. At CMSD we give you a choice in selecting from among our 30 high schools to find the school the best match for your interests and passions.

Now is the time for you to imagine the future and realize that anything is possible. Your decision is an important one, and we are here to help. Besides reviewing this guide, you can explore your options in other ways, such as visiting school open houses or going to Choice Fairs where you can meet with staff from all our schools.

CHOOSING A SCHOOL THAT HELPS YOU SHINE THE BRIGHTEST

MYCHOICE
**Chef Jonathan
Gardner**

Culinary Instructor
East Tech High School
2018 CMSD Graduate

MYCHOICE
Nariel Rahmon

Senior
John Marshall
High School of
Information Technology

This guide showcases CMSD's wide range of high schools to help you envision your future and the learning environment that will help you shine the brightest during the next four years. Many of our high schools offer a variety of programs focusing on special career and educational interests (see page 7).

Carefully review the schools listed in the guide and the programs they offer and think about which school will best prepare you for the colleges and careers that await you after graduation. Make plans to attend one of our High School Choice Fairs, where you can get more details on each school, ask questions and meet some of the school's faculty.

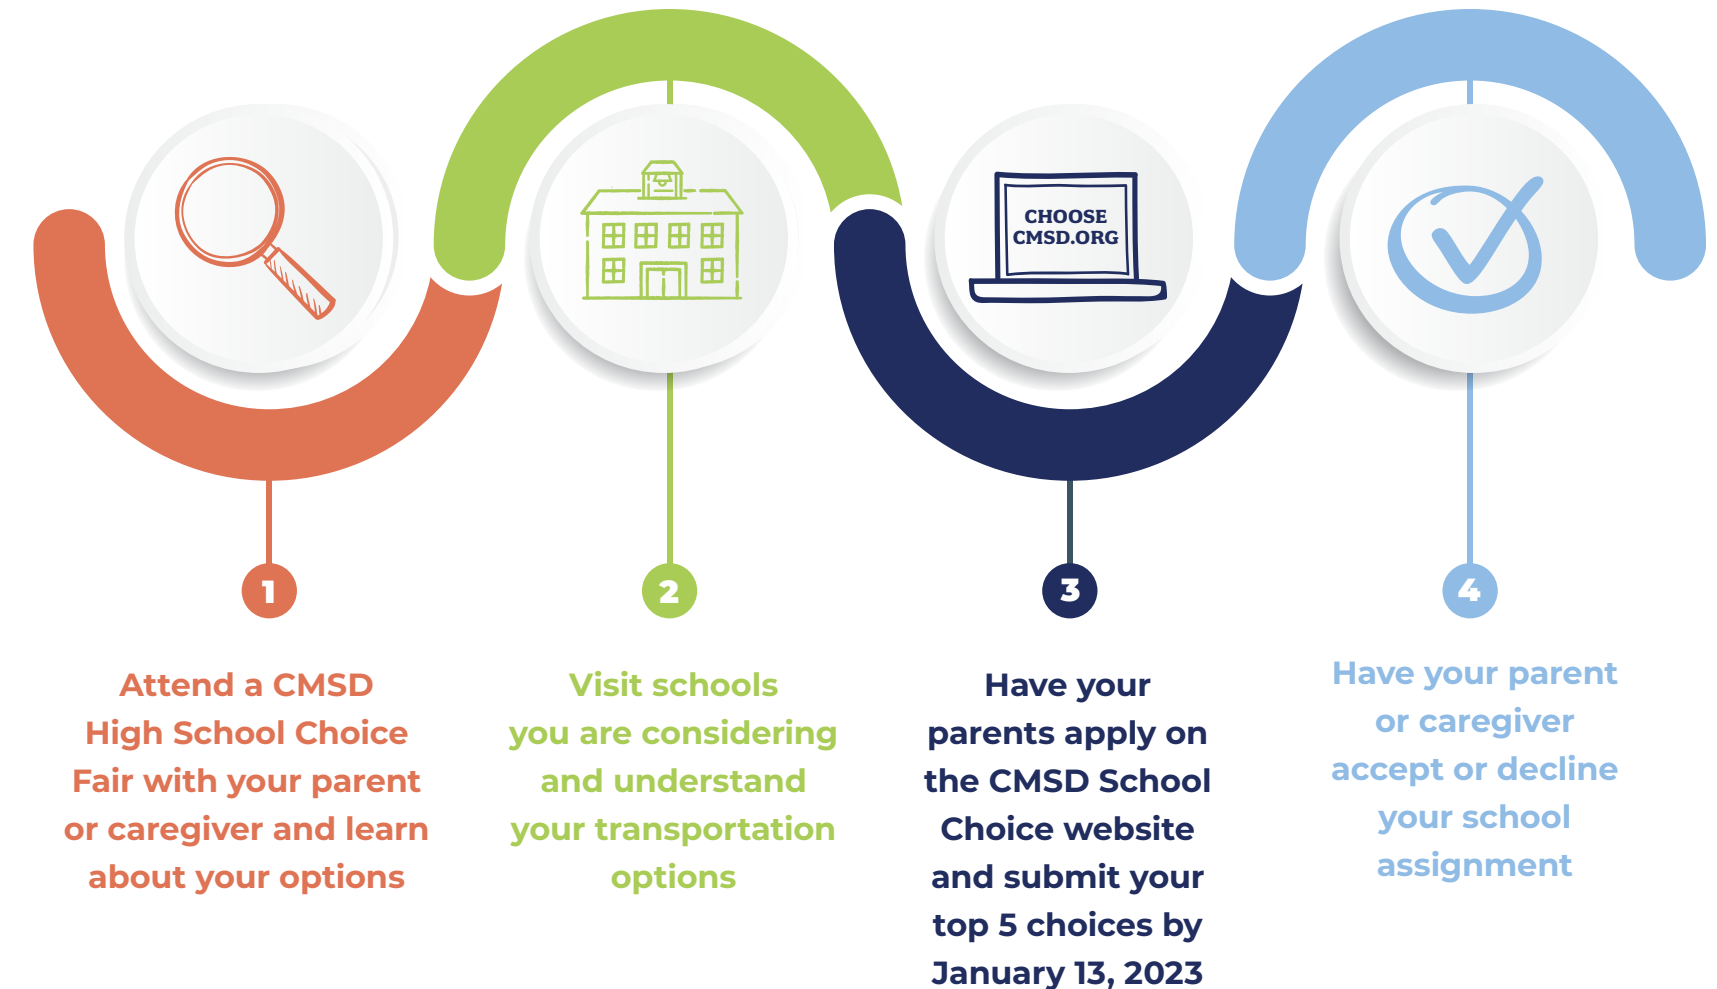

I'd known I wanted to go into the culinary industry since I was younger, and to find out there was a school where I could get training was a big plus. I enjoyed every moment of my experience. All my teachers were wonderful, especially my culinary chefs.

I chose to go to the John Marshall School of Information Technology because of the many opportunities and programs this school has to offer, including our robotics teams and summer IT Internships. I was able to find an interest in a broad field and now plan on going to college to pursue a computer engineering degree. I like the fact that there are a lot of high school options to choose from.

Entering one of CMSD's high schools at the start of ninth grade means a Say Yes tuition scholarship to a college or a trade school awaits you if you stay with CMSD and live in the City of Cleveland or the District through graduation.

Steps to **ENROLLMENT**

Choosing the **RIGHT** high school is the most important decision you and your parents can make as you begin your journey to college or a career after graduation.

Note: some high schools may have additional admission requirements such as an audition, essays, testing or interviews

CAREER INTERESTS

Choosing the RIGHT high school is the most important decision you can make to springboard your way to college or a career after graduation. CMSD high schools offer a variety of programs that will help prepare every student for life after high school no matter which path you take.

To help make this decision, complete the worksheet below with your parents or caregivers and then review the list of career and academic interests on the next page to see what each school has to offer.

CHOOSING THE RIGHT SCHOOL

Dream Jobs When you imagine going to work every day, what kind of place excites you most?	
Joyful Learning What subjects come easy to you — what learning excites you and makes you want to excel in or master it?	
Skills & Interests What skills and abilities do you have now that will help you succeed in coursework and training for your dream job?	
Special Supports What services or accommodations would you like to continue receiving or seek while in high school?

Requirements for GRADUATION

OVERALL REQUIREMENTS

Graduation requirements for the classes of 2023 and beyond include three components: curriculum, competency and readiness.

Curriculum

Ohio requires students to take and complete a minimum of 22 credits.

English Language Arts	4.0 units
Health	0.5 units
Mathematics	4.0 units
Physical Education	0.5 units
Science	3.0 units
Social Studies	3.0 units
Economics and Financial Literacy	0.5 units
Senior Seminar	0.5 units
World Language	1.0 units
Fine Arts	1.0 units
Electives	4.0 units

Competency

Earn a competency score on the Algebra I and English Language Arts II Ohio State Tests.

Readiness

Earn two of the following diploma seals:

- OhioMeansJobs Readiness
- Industry-Recognized Credential
- College-Ready
- Military Enlistment
- Citizenship
- Science
- Honors Diploma
- Seal of Biliteracy
- Technology
- Community Service
- Fine and Performing Arts
- Student Engagement

PROFILE OF A CMSD GRADUATE

SAY YES CLEVELAND

Scholarships

Choosing CMSD for your child's high school experience also brings a big bonus with it. Every student who is continuously enrolled in a CMSD high school and lives in the City of Cleveland or District from ninth grade through graduation will receive a Say Yes Cleveland tuition scholarship.

The Say Yes scholarship can be used toward career training or for college. The scholarship covers up to the full value of tuition, minus federal and state aid, to all public colleges, universities and Pell-eligible training programs in Ohio and more than 100 private colleges and universities across the country.

Support Services

Say Yes also has placed a family support specialist in every building to organize services, tailored to individual school needs, that help families overcome barriers to success. Services include mental health counseling, legal assistance and more.

For more information on the program, go to **SayYesCleveland.org**

PACE = PLANNING AND CAREER EXPLORATION

PACE helps all students chart a course to living wage jobs. It is a new way of thinking that shifts the conversation adults have with scholars from "Will you attend college or go straight into a career?" to "What is your career goal? Here are multiple ways you can get there."

FOR THE FUTURE

Community, college and career planning centers are operating in 19 high schools.

ClevelandMetroSchools.org/Bard

School Overview

Bard High School Early College Cleveland is a partnership between Bard College and the Cleveland Metropolitan School District. Students can earn an Associate of Arts degree from Bard College concurrently with a high school diploma.

BHSEC provides a rigorous course of study that emphasizes critical thinking through writing, discussion and inquiry. The school seeks to intellectually engage a diverse group of motivated high school students and prepare them for success in college and beyond.

- Students earn up to 60 transferable college credits, tuition-free.
- BHSEC offers a rigorous academic program that is taught by college professors, most of whom have advanced degrees in their fields.
- The curriculum in the 9th and 10th grade is an accelerated platform that allows students to complete high school and transition to college level courses in 11th and 12th grade.
- In addition to the Liberal Arts degree program, BHSEC offers an array of arts courses such as two- and three-dimensional art, dance and orchestra.
- BHSEC Cleveland has a partnership with Esperanza

BHSEC Cleveland benefits from Bard College's 20 years of experience running successful early colleges in partnership with public school districts. Bard is a selective criteria school with an admissions process.

Campus International High School

Campus
International
High School
growing citizens of the world

School Overview

Campus International High School is CMSD's only International Baccalaureate high school. All students take a full college-level course load in the humanities, science and the arts as they work toward earning an IB diploma.

Our school is located on the Cleveland State University campus and has a formal partnership with the university.

Our students:

- learn by doing, as they become engaged in projects and service learning.
- take four years of a world language.
- engage annually in a significant independent research project on a topic of community need or personal interest.

The level of classes that students take as juniors and seniors is equivalent to college-level coursework. At the conclusion of all IB courses, students sit for an exam that, in addition to helping them earn the IB diploma, can gain them college credit with qualifying scores.

Campus International High School is committed to the development of students according to the IB Learner Profile. The profile aims to develop learners who are:

- | | |
|--------------|-----------------|
| • Inquirers | • Knowledgeable |
| • Thinkers | • Communicators |
| • Principled | • Open-minded |
| • Caring | • Risk-takers |
| • Balanced | • Reflective |

School Overview

Ranked by Newsweek as one of the top schools in the nation, this premier college prep high school attracts high-achieving, college-bound students from throughout Cuyahoga County and prepares them to compete in a global society.

Academic highlights include:

- Top performing school in district 2021-2022
- 100% graduation rate 2021-22
- 75% of students complete college courses before graduation
- 98% college acceptance rate
- Highest passage rate of AP exams in the District
- Well over \$1 million in scholarships awarded to graduates yearly
- Graduates of CECHS have been accepted to top universities such as Harvard, Yale, NYU, Howard University, USC and Princeton.
- CECHS has produced several QuestBridge and SCS Noonan Scholars, now known as Thrive Scholars

Scholars are provided opportunities to visit prestigious colleges and universities across the country and scholars have had access to competitive summer opportunities at schools such as Harvard, Stanford, University of Massachusetts at Amherst, Miami University, and University of Southern California at Berkeley.

Cleveland High School for Digital Arts

School Overview

Cleveland High School for Digital Arts is a first-of-its-kind in Cleveland for high school students interested in pursuing careers as designers, entrepreneurs and innovators who are ready to succeed in today's digital world.

In an atmosphere of trust, innovation and creativity, Digital Arts students master skills in collaboration, critical thinking, communication and computer technology in a school where learning is interactive and fun every day. Digital Arts is a college prep, project-based learning school with a year-round and extended-day model.

Real-world learning is made possible through partnerships with:

- Center for Arts-Inspired Learning
- Cleveland Institute of Art
- Rock and Roll Hall of Fame
- University School's Young Entrepreneur Institute
- Greater Cleveland Film Commission

Cleveland School of Science & Medicine

School Overview

Cleveland School of Science & Medicine is a nationally accredited biomedical science program and has been rated as one of America's best high schools by U.S. News & World Report.

Our students benefit from partnerships with the Cleveland Clinic, University Hospitals and medical and science museums near our University Circle campus and take part in semester-long research projects alongside college students at Case Western Reserve University.

CSSM students can participate in unique experiences through:

- afterschool programs, internships and research options, such as our Research-Intensive Summer Experience (RISE), coordinated through the Cleveland Clinic's Lerner Research Institute.
- the Speech-Language Pathology Program Pipeline, coordinated through Kent State University.
- the Health Professions Pipeline Program (H3P), coordinated through the Robbins Bridge Program at Case Western Reserve University.
- Advanced Placement courses for students interested in the science and medical fields.
- acceptance into nationally acclaimed summer programs at institutions that include Massachusetts Institute of Technology, Johns Hopkins, Harvard, Kenyon College and NASA's Glenn Research Center.

Applicants must meet the following criteria for admissions: 3.0 GPA or higher and a ranking of Proficient on their Ohio State Test scores.

Collinwood High School

School Overview

At Collinwood High School, students partner with the community to reinvigorate the neighborhood.

Collinwood High School offers students and families a community-based/project-based learning atmosphere for students to engage in real-world experiences.

Collinwood's approach to preparing students for college and career helps them learn who they are and how to be successful in school and in life through:

- a foundation of trust, respect and responsibility.
- classes where students use knowledge from across content areas to solve complex real-world problems.
- a culture of collaboration where students hold themselves and each other accountable for success.
- a sense of ownership on the part of each student for setting and meeting high expectations throughout their high school experience.

SCHOOL
WEBSITE

ClevelandMetroSchools.org/Davis

School Overview

Davis Aerospace & Maritime High School offers a cutting-edge STEM curriculum for college and career readiness. With a focus on real-world experiences, students can:

- engineer, build and operate boats.
- fix and fly airplanes.
- learn engineering and manufacturing skills, including 3D computer modeling, computer programming and drone engineering.
- take AP, honors and career technical courses.

Argonaut, a Cleveland nonprofit, provides ongoing support to Davis through thematic curriculum development, real-world experiences and paid job opportunities. United Airlines has partnered with Davis, investing in initial pilot training programs and paid internships with United Airlines.

Davis graduates are prepared for college and careers -- from four-year universities, pilot training programs with United Airlines and certificate programs to high-skill, in-demand jobs in the workforce.

Davis has high academic standards and all students are encouraged to participate in the school's extensive after school programming options

Extracurricular Activities

East Tech High School

School Overview

East Tech is a CTE powerhouse, with courses in culinary arts, horticulture, animal science, urban agriculture and hospitality. Our school also is a member of the New Tech Network, with a focus on project-based and problem-based learning.

Our school features:

- a state-of-the-art culinary arts center, with a student-run restaurant, the Executive Grille, that is open to the public.
- Project Lead the Way (Engineering).
- robotics.
- Air Force JROTC.
- Closing the Achievement Gap.
- a Boys & Girls Club in the building.
- other partners, including City Year, Afterschool All-Stars, Tri-C, Friendly Inn and Youth Opportunities Unlimited.

Students personalize their high school education through capstone projects, early college experiences and professional fieldwork.

As students progress through the New Tech model, key benchmarks or capstones often mark the way, allowing them to celebrate their growth and gather feedback about potential next steps in their academic and professional careers.

John Marshall School of Engineering

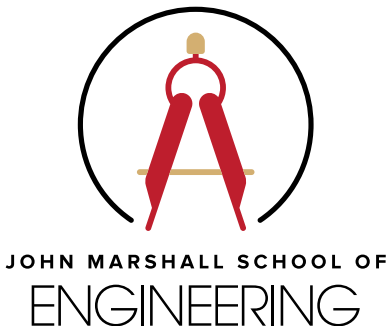

School Overview

John Marshall School of Engineering is an intense pre-engineering (Project Lead the Way) focused high school that prepares students for career pathways in engineering, manufacturing and robotics. Students are encouraged to be innovative thinkers who contribute to technological advancements locally and globally.

Our school offers:

- partnerships with community organizations.
- MAGNET's Early College, Early Career program, which introduces students to career pathways in manufacturing in conjunction with Tri-C and local manufacturing companies.
- afterschool tutoring with Esperanza, Youth Opportunities Unlimited, College Now Greater Cleveland, EXPLORER and Upward Bound.
- English language arts tutoring with English education majors from Case Western Reserve University.

John Marshall School of Engineering faculty and staff are caring, compassionate and invested in their students' futures. We want students to feel safe and secure and be able to learn in an atmosphere that is fun and conducive to their learning styles.

- Unified Olympics

School Overview

Our mission is to prepare adolescents to become knowledgeable, empathetic and principled adults who think critically and act creatively on issues of local and global significance to build a just, sustainable, and peaceful world. We aim to create a school that gets all students out into our local community — and beyond — so they can begin to envision a place for their future selves in the world.

Experiential Learning

- Anchor Performance Tasks, designed to give students experience with skills needed to succeed in college and the workplace
- Exhibitions of Learning
- Service Learning Projects
- Expeditions, or student learning trips
- College & Career Connections, trips and experiences that expose students to college and workplace environments

College and Career Readiness

- ACE Programming (Architecture, Construction and Engineering)
- PACE Programming
- MAGNET
- Tri-C TRIO Talent Search
- Jobs for Ohio Graduates
- Youth Opportunities Unlimited
- NVET career exploration program
- SheDig

Lincoln-West School of Science & Health

**Transform Yourself.
Transform Your Community.**

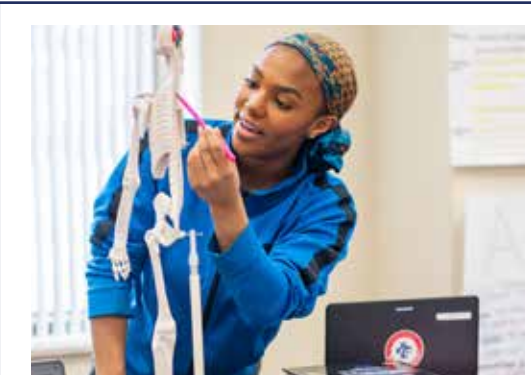

School Overview

Students at Lincoln-West School of Science & Health receive a mastery-based education that includes project-based learning and a college-based biomedical curriculum through Project Lead the Way. Pathways are designed to help advance healthcare in the community in partnership with the MetroHealth System.

Our students:

- have classrooms at the MetroHealth main campus, where they explore fields in healthcare and support operations — for example, technology, communications and marketing.
- receive mentoring from MetroHealth professionals.
- get opportunities for internships and networking.
- can earn certification in CPR and as State Tested Nursing Assistants.
- after graduation, may serve internships or work at MetroHealth while attending college.

Graduates of Lincoln-West School of Science & Health are known for demonstrating a true sense of purpose and a passion for improving the health and vitality of their community.

Max S. Hayes High School

School Overview

Our school offers seven career technical education programs. Those pathways include:

MANUFACTURING AND ENGINEERING

- Computer Numeric Control (CNC)
- Welding
- Computer-Aided Drafting & Design (CADD)

BUILDING AND CONSTRUCTION TECHNOLOGY

- Building and Property Maintenance

AUTOMOTIVE TECHNOLOGY

- Automotive Technology
- Automotive Collision Repair
- Diesel Technology Repair

During senior year, our students can participate in pre-apprenticeship and internship programs that align with the CTE program they were in as sophomores and juniors.

Max Hayes is a high-demand school, and that generally results in a lottery to select students who will be offered an assignment. We encourage interested students to apply by the January 13, 2023, first-round application deadline to ensure that they are in the pool for the lottery.

MC²STEM

School Overview

MC² STEM High School delivers a rigorous, mastery-based STEM education in a non-traditional environment, through the integration of subjects, hands-on projects and community partnerships.

Students develop critical thinking and problem-solving skills, empowering them to achieve their personal, academic and community goals.

Our students:

- demonstrate their learning and achievement in capstone projects, locally and abroad, organized around solving a problem.
- participate in workshops based on a specific skill and/or content area.
- explore who they are, who they want to become and how to get there. They get individualized support to ensure they have a plan and the assistance they need to be successful.
- are immersed in field experiences, internships and volunteerism.

Rhodes School of Environmental Studies

School Overview

Our students develop respect and compassion for others while cultivating awareness of their own strengths and passions. They also become community-minded explorers with creative problem-solving skills. We offer personalized instruction through a mastery-based system and provide experiential learning opportunities.

Community Partners

- Cleveland Metroparks Zoo (including 3 elective courses that are offered only to our students)
- Cuyahoga Valley National Park & Environmental Education Center
- Cuyahoga Water & Soil Conservation District

Our blended learning curriculum is self-directed and project based with a focus on real-life learning that prepares students for all fields of study.

Students who attend Rhodes School of Environmental Studies can earn honors credits, take Advanced Placement courses and participate in College Credit Plus.

The School of One

School Overview

The School of One provides a personalized online educational experience embedded with academic, social and emotional services to ensure college and career readiness.

The School of One operates as a single CMSD high school with nine sites across Cleveland. Students attend one site, each having a flexible schedule with no more than 20 students per session.

Our staff works with students to identify academic needs, areas of interest and barriers to success. Teachers and students develop an educational plan. Flexible scheduling allows students to take college courses through Tri-C. Formal graduation takes place three times a year, allowing students to immediately begin their path to college and career.

Sites

- Collinwood High School
- East Tech High School
- Glenville High School
- James F. Rhodes Campus
- John Adams Campus
- Bard High School Early College
- MCPc STAD, which provides students the opportunity to learn to row and sail and includes employment opportunities in the field of technology
- LGBT Community Center at Gordon Square
- City Life Center

Community Partners

- The Foundry
- MCPc STAD
- LGBT Community Center
- City Life Center
- Cuyahoga Community College
- Youth Opportunities Unlimited

Note: The School of One requires a separate application process.

Nontraditional Choices

CLEVELAND METROPOLITAN REMOTE SCHOOL

Our staff engages with our scholars on meaningful, rigorous tasks and teaches our students how to use technology tools to assist with explaining, solving, and presenting their solutions.

Our students:

- receive live online instruction.
- can take electives such as business foundations, marketing principles, studio art, and family and consumer science.
- may earn college credit through College Credit Plus.
- join a Civics 2.0 Club.
- may participate in extracurricular activities
- receive a Chromebook and school supply starter kit.

Special Programs

- Weekly Wednesday morning information sessions for students and families
- Students and families have opportunities for one-on-one meeting times with staff each Wednesday
- We encourage self-advocacy and participation for all students and families
- We encourage family and student engagement
- Monthly engagement activities and sessions for parents and caregivers

Nontraditional Choices

HOME SCHOOLING

Home schooling is a right of parents under state law. Notification of a parent's intent to home-school their child can be completed online at the District website.

- Families must provide resources and a curriculum that prepares students to meet the same academic criteria as students who attend traditional schools.
- Parents must provide 900 hours of instruction and notify the CEO each year that their child is home-schooled. If a parent decides to return their child to public school, they must identify the most recent grade reached, and the school will decide on placement.
- Parents are required to provide an assessment document at the completion of each year.
- All information is directed to the CEO for processing.

VIRTUAL ACADEMY

Virtual Academy is an online curriculum provided by Edgenuity and accommodates students in grades K-12. Courses are aligned with District Scope and Sequence and state Common Core Standards. Virtual 'live' teacher support is available by CMSD-certified instructors, and laptops are provided to all enrolled students.

Students participating in the Virtual Academy may also participate in CMSD athletics, afterschool programs and other events at their registered home school.

- This independent, self-guided instructional pathway allows for diverse young adult lifestyles.
- Programming is available to students 7 days a week, 24 hours a day.
- A resource coordinator works with families to minimize barriers to student success.
- Students are assigned to take District-mandated assessment tests at the East Professional Center.
- Graduation ceremonies are held at the student's registered home school.
- Students are invited and encourage to participate in all senior events for which they are qualified.

SCHOOL SAFETY

At a time when school safety is in the national spotlight, CMSD continues to outpace other districts in the proactive measures we take to keep students safe every day.

- Metal detectors at the entrance of every building and X-ray machines in our high schools have proven successful in keeping weapons out of our schools
- Security officers are trained in the nation's best practices in crisis prevention, social and emotional learning and crisis response.
- School-based security officers, investigator counselors and mobile patrol officers monitor our school grounds every day.

Safety and Security Dispatch | **216.838.7777** | ClevelandMetroSchools.org/SafetySecurity

SAFE & MODERN BUILDINGS

51 new and renovated buildings; 3 more projects getting under way.
\$1.6 million spent this year for security improvements.

SUPPORT SERVICES

SUPPORT FOR CHILDREN WITH SPECIAL NEEDS

All CMSD schools provide access to specially designed instruction, related services and accommodations for students with Individualized Education Plans (IEPs). We encourage students with special needs and their families to consider every available school option, including our criteria schools.

If your preferred school does not offer your child's specialized program or services, contact us, and a CMSD enrollment specialist will follow up with you to discuss your school options.

Placement of students in programs designed around their special needs is tentative until the student's Individual Education Plan (IEP) reviews are complete.

Call the Special Education Office at **216.838.7733** for assistance.

FREE TRANSPORTATION ACROSS THE DISTRICT

To help students reach high schools across the District, the Board of Education provides free transportation through the Greater Cleveland Regional Transit Authority. Students who live at least two miles from school can ride RTA with an identification card issued by the District. The cards may be used from 5:30 am to 8 pm on school days only.

MULTILINGUAL MULTICULTURAL EDUCATION

Multilingual Multicultural Education is aligned with state and District standards. Second language learners are held to the same high expectations established for all students.

A focus on academic language development will advance literacy and proficiency in the native language and the second language in listening, speaking, reading and writing. Students who speak a language other than English or live in a household where another language is spoken must register at the Multilingual Multicultural Welcome Center at 3145 West 46th St, Cleveland, 44102.

Call **216.838.0140** or visit **ClevelandMetroSchools.org/Multilingual** to learn more.

Visit each school's website for a complete list of their sports and extracurricular activities.

ALL-CITY ARTS, AFTERSCHOOL DISTRICTWIDE

All-City Arts provides free afterschool music and dance training to high school students districtwide. This is available free of charge at Glenville, Garrett Morgan and the John Marshall Campus. Transportation is provided. In addition to learning from industry professionals, all participants have multiple opportunities to perform at a variety of venues throughout the county.

INTERSCHOLASTIC ATHLETIC & ACTIVITIES – STUDENT ELIGIBILITY

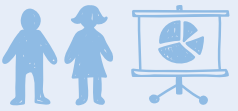

Participation in interscholastic and extracurricular activities has a direct, positive impact on a student's academic performance, attendance, and personal and social development.

High school students must received passing grades in a minimum of five one-credit courses, or the equivalent, in the immediately preceding grading period to participate.

OPPORTUNITIES IN STEM EDUCATION

To fully prepare them for the 21st Century workforce, CMSD encourages all English Learner (EL) students to explore how studies in STEM (Science, Technology, Engineering and Mathematics) can position them for success. EL students who attend STEM schools are provided additional assistance by bilingual staff.

HANDS-ON PROJECTS WITH STUDENTS IN CONTROL OF THEIR OWN LEARNING

Students present demonstrations of learning each quarter.

INNOVATIVE TECHNOLOGY

Over 1,000 Clevertouch screens throughout the district.

PROJECT ACT

Project ACT provides direct instructional and support services to children and youth residing in temporary emergency shelters or transitional housing and students staying with other families due to loss of housing, economic hardship or similar situations.

Parents, Set Your Child's Future in Motion

HOW TO ENROLL USING THE CMSD SCHOOL CHOICE WEBSITE

After reviewing the High School Choice Guide and attending Choice Fairs or open houses, parents or caregivers need to submit thier child's top 5 high school choices on the CMSD School Choice website. Parents or caregivers will also need to accept or decline their child's assigned high school.

1

Go to the CMSD School Choice website

Go to ChooseCMSD.org and select Enter the School Choice Portal. If you already have a username and password, enter the information, and click Ready, Set, Go! If you are new to CMSD, click SIGN UP.

2

Review information about your children

Once you sign in, you'll see a list of all the children in your family and their current schools. If you need to add a student who is currently not in the system, click ADD another STUDENT. To begin the process, click MAKE SCHOOL CHOICE next to your child's name.

3

Enter your child's top 5 Choices

Verify each child's current information before selecting their school choices. After reviewing each school's information, you can select up to 5 schools that meet your child's needs.

4

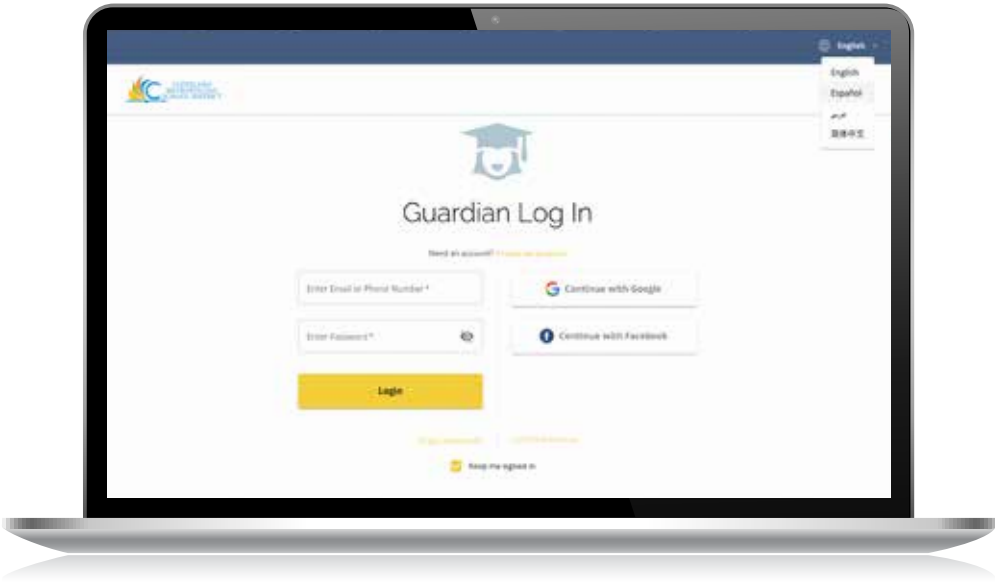

Be sure to prioritize their school choices

Once you have made your school choices, prioritize your child's top choice in slot #1. This does not necessarily mean you will get a spot at that school. A lottery will be run for schools that have more applications than seats available.

5

Review, submit & confirm choices

Review, submit and confirm your choices for that child. You will then return to the Student Dashboard, where you can make choices for your other children.
