INTRODUCTION

The Cleveland Metropolitan School District (CMSD) is a portfolio school district, committed to the goal of ensuring that all students in Cleveland have the opportunity to attend a high-quality public school. Integral to the portfolio strategy is an understanding of and support for the valuable role public charter schools (also referred to as community schools) can play in educating students. CMSD is committed to helping support and expand high-quality charter schools. There are three distinct ways in which CMSD works with charters—as a sponsor, as a partner, and through the District/Charter Compact. A brief description of these relationships is provided below; more information is at <http://ClevelandMetroSchools.org/Charters>.

How CMSD works with public charter schools:

1) As a Charter School Sponsor

CMSD sponsored eleven public charter schools during the 2018-19 year. A summary of their academic, organizational, and financial performance is detailed in this report. CMSD earned an overall grade of Effective on the state's sponsor evaluation. CMSD recently revised its performance standards, which went into effect for the 2017–18 year.

2) As a Charter School Partner

The Cleveland Plan, signed into law in 2012, created a unique way that charter schools and CMSD could work together more collaboratively. Known as partnership, and defined in Ohio law in Section 3311.86 of the Revised Code, this relationship allows CMSD to share a portion of the proceeds of the local education levy approved by Cleveland voters in 2012. All CMSD-sponsored schools are partners. Additionally, charters not sponsored by CMSD can apply for partnership. In 2018-19, CMSD partnered with 19 charters, which included our eleven sponsored schools along with The Intergenerational School, Lakeshore Intergenerational School, Village Preparatory School-Woodland Hills, Northeast Ohio College Preparatory School, Cleveland College Preparatory School, Stepstone Academy, Horizon Science Academy Cleveland, and Menlo Park Academy.

3) Through the Gates District/Charter Compact

The Bill and Melinda B. Gates Foundation announced a District-Charter Collaboration Compact initiative in December 2010 to encourage and support collaboration in major metropolitan areas across the country. Since then, more than a dozen cities have signed Compact agreements detailing the ways in which districts and charters would work together for the benefit of all children in the city. Cleveland was awarded a district/charter planning grant in 2014 and finalized its district-charter Compact agreement in December of 2015. The Compact work is underway, with subcommittees comprised of district and charter staff working in areas including policy, enrollment, and special education.

DESCRIPTION OF PERFORMANCE STANDARDS

Ohio law requires sponsors to submit an annual report evaluating and summarizing the compliance of each school they sponsor in the areas of academic performance, fiscal performance, organization and operation, and legal compliance. CMSD sponsored eleven schools during the 2018-19 year. For academic, fiscal, and organizational and operational performance, sponsors are to identify whether a school met, exceeded, or did not meet the expected performance level. For legal compliance, sponsors must identify whether the category was met or not met.

CMSD defines performance expectations for each sponsored school in its charter contract. Descriptions of CMSD's performance expectations for each category, and methodology, appear in the appendices to this report. [Appendix A](#) contains the academic performance expectations. [Appendix B](#) contains the financial performance expectations. [Appendix C](#) contains both the organizational and operational expectations and the expectations for legal compliance.

All CMSD-sponsored schools adhere to the same financial and organizational performance expectations. The academic expectations are the same for all brick and mortar schools serving any grade between third and eighth in the 2018-19 year. Promise Academy is a dropout recovery high school and thus has its own academic expectations.

Please also note that because CMSD's performance frameworks do not directly correspond to the requirements of ODE's annual report, modifications have been made accordingly.

An overall summary of each school's rating in each of the four performance areas required by ODE appears on the next page, along with a description of how CMSD defines the four components required. Additional information on indicators and methodology can be found elsewhere in the report and in the appendices.

Description of Overall Ratings:

Academic

A school exceeded expectations if it had an overall report card grade of A or better. It met expectations if it had an overall report card grade of B or C.

If it did not achieve an overall report card grade of C or better, it may still have met expectations. Please see [Appendix A](#) for a description of the decision tree for schools that did not meet the overall report card grade. A school exceeded overall expectations if it met the attendance indicator and exceeded on the other primary indicators (value add and performance index). A school met expectations if it met attendance and met a primary or secondary indicator for both value add and performance index. Otherwise, a school did not meet expectations.

Promise Academy: The school met expectations if it met all of the indicators. Otherwise, it did not meet expectations.

Financial

A school exceeded overall expectations if it met all seven indicators. A school met expectations if it met five or six indicators. A school did not meet expectations if it did not meet at least five applicable indicators.

Organizational and Operational:

A school exceeds expectations if it scored 90 percent or more on the organizational framework. It met expectations if it scored 80–89 percent. It did not meet expectations if it scored below 80 percent.

Legal

A school met expectations if its compliance rating from Epicenter was at least 85 percent.

DETAILED ACADEMIC PERFORMANCE SUMMARY

The following table provides a summary of how each non-dropout recovery, CMSD-sponsored charter school did on the applicable 2018-19 report card measures. Please note that none of these schools serve any grade higher than eight. For more information on CMSD’s academic performance standards, please see [Appendix A](#).

INDIVIDUAL SCHOOL PROFILES
2018-19

Citizens Academy (133520)

10118 Hampden Avenue, Cleveland, OH 44108
 (216) 791-4195
<http://citizensacademy.org>

Mission: To produce learners who exemplify academic excellence and responsible citizenship.

2018-19 Highlights:

CA celebrated our culture of peace and nonviolence at the “Unity in the Community” celebration. In attendance were the Bafna family and friends, who collectively helped make the Mahatma Gandhi campus possible.

Throughout the year, our 4th graders taught Onaway Elementary 1st graders how to build, program, and race Lego robots. The collaboration involved online and in person meetings and caught the attention of LEGO Education North America, who visited in April.

Academic Rating: Did Not Meet Expectations

Citizens Academy met on a secondary indicator for the performance index but did not meet the value add or attendance indicators.

Financial Rating: Exceeded Expectations

Measure	Metric	Outcome	Score
Days Cash on Hand	Total cash divided by (total budgeted expenditures – depreciation)/365	131.85	Meets Standard
Current Ratio	Current assets divided by current liabilities	4.57	Meets Standard
Enrollment	Actual FTEs divided by budgeted FTEs	97%	Meets Standard
Surplus/(Deficit)	Change in net assets	701,964	Meets Standard

Increase/(Decrease) in Cash	Change in cash position as compared to prior year	200,656	Meets Standard
Debt to Assets Ratio	Total liabilities divided by total revenue	0.21	Meets Standard

Organizational and Operational: Exceeded Expectations

Citizens Academy scored over 90% on the Organizational Framework, which includes board training requirements, the annual audit, site visits, and others. CMSD’s site visits and data collection confirm that the school is complying with its education program and other requirements as defined in its charter contract.

Legal: Met Expectations

Citizens Academy successfully completed and submitted 100 percent of required compliance items.

Citizens Academy

Historical Performance and Prospect for Renewal

This section summarizes the school’s performance over the current contract term.

Citizens Academy’s current charter contract began on July 1, 2015 and expires on June 30, 2020.

Stonebrook Montessori (015239)

975 East Boulevard, Cleveland, OH 44108
(216) 644-3012
<http://stonebrookmontessori.org>

Mission: Stonebrook Montessori serves the individual needs of Cleveland’s urban children in Montessori classroom environments that meet the highest standards and through regular interactions with nature and the neighborhood. Ours is a thriving community of children who are joyful, engaged learners, acquiring confidence in their personal and academic skills in preparation for lifelong success as capable, responsible citizens.

2018-19 Highlights:

The school partnered with the University of Chicago’s Literacy Organization Capacity Initiative (LOCI) for a multi-year engagement to support professional development for administrators and teachers.

An equally important undertaking has also been the partnership with World Peace Teachings. With over three decades of experience in trauma-informed practices in education, the WPT team has led in-depth professional development for teachers, helped create an in-school center for re-establishing self-regulation for students, and coached in classes.

APPENDICES

APPENDIX A: ACADEMIC PERFORMANCE

A. For all schools except Promise Academy

Pursuant to the Sponsorship Contract, the Accountability Frameworks include the agreed-upon goals that the Governing Authority and Sponsor will use to evaluate the performance of the Community School during the term of this contract.

Guiding Principles of the Framework

1. The framework meets state expectations for how authorizers/sponsors hold their schools accountable:
 - a. The framework considers all report card measures and subgroup performance by including the summative Academic Performance grade a school receives.
 - b. The framework considers in particular student performance, student growth, and attendance. These measures provide a sense of proficiency, growth, and school culture respectively.
 - c. The Gap Closing measure from the report card is used to set specific proficiency targets for subgroups.
 - d. The framework compares the performance of schools to state standards as well as to schools serving similar student populations (based on mobility rates, percent of special education students, and percent of limited English proficiency students).
2. The framework recognizes schools that exceed or meet standards, while also fairly evaluating and taking account of progress made by schools that do not meet standards.
3. The framework provides a dashboard of information that provides information on how schools are performing during the term of their contract.
4. The same framework can be applied to multiple schools allowing for an even playing field.

Framework Indicators

In order to meet guiding principles outlined, the framework looks at the same indicators in multiple ways. It is tiered, looking at an overall report card indicator, primary indicators of performance and secondary indicators of performance.

To be considered for contract renewal, the Governing Authority is expected to have met or exceeded the either the report card indicator or the primary academic indicators, as specified herein. Secondary indicators will be considered as well, but performance on the report card and primary indicators will factor more heavily into decisions about renewal or non-renewal, as well as decisions regarding probation, suspension, and termination.

Any school that meets the report card or primary indicators will be considered to be meeting the minimum academic expectations of the sponsor with regards to academic performance.

The decision tree below shows a high-level view of how the framework operates.

1. Consider a school's summative Academic Performance score (the Report Card Indicator).
 - a. If a school meets or exceeds the overall Report Card indicator, STOP. The school's score is based on the Report Card indicator.
 - b. If a school receives a 'does not meet', continue with the decision tree.
2. Consider school performance along all three primary indicators.
 - a. If a school 'exceeds' or 'meets' the primary indicator for a particular metric, STOP. The school's score will be based on the primary indicator.
 - b. If a school receives a 'does not meet' or 'falls far below' for a particular metric, continue with the decision tree.

3. Consider the school’s target for the particular metric.
 - a. If a school equals or exceeds the target, STOP. The school receives a rating of ‘meets’ for this metric.
 - b. If the school does not equal or exceed the target, continue with the decision tree.
4. Consider the school’s performance on the metric compared to similar schools.
 - a. The school receives a final score based on how far above average they are on this metric, when compared to other similar schools.
 - i. Schools far above average ‘exceed’ the standard
 - ii. Schools above average ‘meet’ the standard
 - iii. Schools below average ‘do not meet’ the standard
 - iv. Schools far below average ‘fall far below’ the standard

Ratings on all of the indicators will be provided to a school every year. While the primary and secondary indicators may not be used to evaluate a school, depending on their performance on the report card indicator, the primary and secondary indicators provide useful information that contextualizes a school’s information. This data can be used in conversations between the sponsor and school to monitor progress and help ensure all schools are on track to meet or exceeds standards at the time of contract renewal.

Report Card Indicator

Complete details of this indicator can be found in the Technical Documentation for Community School Sponsor Evaluation. A summary is provided below.

A school receives a weighted points total based on the grade a school received on the report card component and the weight given to that component. The Total Weighted Points will be converted to a 0 to 4 scale (this scale is the equivalent of the A–F report card grade, which will be published for each school), as provided in the following table:

Overall Academic Performance Score

Total Weighted Points	Report Card Grade Equivalent
4.125–5.000	4 (A)
3.125–4.124	3 (B)
2.125–3.124	2 (C)
1.125–2.124	1 (D)
0–1.124	0 (F)

Schools receiving a report card equivalent grade of A are considered to be **Exceeding Standards**.
 Schools receiving a report card equivalent grade of B or C are considered to be **Meeting Standards**.
 Schools receiving a report card equivalent grade of D are considered to be **Not Meeting Standards**.
 Schools receiving a report card equivalent grade of F are considered to be **Falling Far Below Standards**.

Primary Indicators

Four primary indicators are utilized: one year value-add, performance index, gap closing, and attendance rates. The cut points for ratings on these indicators are determined based on state grading standards. One-year value-add is used rather than the three year average to provide a more real-time view of how a school performed in a given year.

	Exceeds	Meets	Does Not Meet	Falls Far Below
Value-Add	A	B or C	D	F
Performance Index	A or B	C	D	F
Gap Closing	A or B	C	D	F
Attendance*	94% or above	93% to 93.99%	90% to 92.99%	Below 90%

*In addition to an overall rate of at least 93%, the school must have a gap of less than 3.2% between their overall rate and any subgroup's rate.

Secondary Indicators

The secondary indicators compare the performance indicator and one-year value-add score for each CMSD-sponsored school to a comparison group of Ohio charter schools. Each CMSD-sponsored school has been placed in a peer group with no more than 10 other Ohio charter schools that are similar to the school in terms of percentage of special education students, economically disadvantaged students, and mobile students. CMSD expects all of its schools to work toward continual improvement, even if they are already meeting state standards. Thus, for schools that are meeting the report card indicator or primary indicators in value-add and performance index, these secondary indicators will set reasonable targets based upon comparable schools to monitor continuous improvement. While these targets will not always be used in an evaluation of a school, depending on if a school meets standards according to the primary indicators, they can provide schools with information on what their overtime trends are. For schools that are not meeting or exceed the primary indicators, these secondary indicators will help the Sponsor and the Governing Authority gauge progression toward those state goals.

Each year, CMSD and the Governing Authority will meet to discuss performance on the Academic Framework. The comparison schools and the goals will be adjusted accordingly, based on the most recent data from the state report cards.

The goals for secondary indicators for each non-dropout recovery, CMSD-sponsored school are set forth on the following page. Targets are created using the previous year data, so that schools know ahead of time what they should aim for in the coming year. Targets work by first identifying how much a measure varies within a peer group of schools. Targets are then derived by taking a school's performance and adding 0.5 of a standard deviation. Statistical convention has shown that movements of 0.5 standard deviations or more are substantively large. Generally, depending on where a school sits compared to its peer group, there will also be evidence that other schools performed at this level.

In some cases, a school will be the highest performer among its peers and also at an absolute level. In such cases, it is both unlikely and unreasonable to expect a school to grow more. For example, a school with a value-add score of 5.3 is far above expectations from an absolute standpoint and it is potentially difficult to meet a target set above this value. In cases where schools do not meet their target, the sponsor will consider how far above the average a school is compared to their peers. In this way, the framework ensures that schools that might not meet their targets are not penalized if they are among the best performers on that indicator, when compared to similar schools. The formula for calculating this score is (School Performance – Peer Average Performance) / Peer Standard Deviation.

- Greater than .68** – Exceeds Standard
- Between 0 and 0.68** – Meets Standard
- Between 0 and -0.68** – Does not Meet Standard
- Less than -0.68** – Falls far below Standard

These cut points roughly divide the distribution into quartiles, so that schools in the top 50% are meeting the standard.

Debt Covenants	Met covenants	Met covenants		Did not meet covenants
Debt Payments	Timeliness of debt payments	No late debt payments		Late debt payments
Debt Default	Loan default	No default		Loan in default

APPENDIX C: ORGANIZATIONAL AND OPERATIONAL PERFORMANCE AND LEGAL COMPLIANCE

These frameworks are the same for each school. CMSD includes legal compliance within its organizational performance framework but has separated this into a separate component for the purposes of this annual report. CMSD collects governing authority requirements through Epicenter, which it also uses for compliance items for each school. Thus all of the requirements related to meeting and training are included in legal compliance.
