**Time Tracking:** Enter Class Coverage and Supplemental Time

Workday allows employees to be paid accurately and on a **timely basis**. Substitute Teachers, Paras and Secretaries use SmartFind Express to accept assignments. Assignments are then automatically uploaded from SmartFind into Workday. The integration between SmartFind and Workday auto-populates the Workday web calendars of teachers and paras with the time entered in SmartFind Express.

Supplemental pay options including class coverages and differential positions are tracked in Workday using the Time application. At the end of each pay period Substitute Teachers, Paras and Secretaries use Workday to submit class coverages and supplemental time. Substitutes should review class coverages and supplemental time daily to ensure correct entries. Time is submitted at the end of the pay period for timekeeper validation and manager approval.
