| Anya Kulcsar       | 7201 franklin blvd                       | Anya.kulcsar@gmail.com         |  | I appreciate how much thought and effort has gone into the site plan to maximize multiple uses. Excited to see how the traffic improves with the addition of the dedicated drive. Thank you for preserving the field for its ability to host all different types of activities for  | I love the addition of bold colors. It is a place for children and I think deserves to be a fun place to be. I think the use of the existing overhang is nice and brings energy to the space | Adding color to the stair towers is great! Great way to bring interest to nice architectural element. | Same comments on all facades. Personally like the bold primary colors |  | Great improvements on the building! Think the changes will age well and I love the boldness.   |
| Jason Buitrago     | 1686 W. 69th Street, Cleveland, OH 44102 | jason.buitrago@gmail.com       | 7186197002   | I really like the site plan and proposed improvements. Of most recent note, I like the exterior proposal too!   | Great! More lively entrance. Good choices of blue. Nice big lettering.   | I really like the red theme and additional parking for staff. Signage looks great too.                | Awesome! Love the green. Nice fence. Great playground.                | Doesn't seem to be too much change here (unless I'm mistaken), but overall excited for the entire project. | The only piece of feedback for consideration is lighting during the night. Currently, and even during the normal academic year, nights were very dark at Gallagher. Some good uplighting/lights to highlight the new colors and building, and just having more lights at night would really make the building and the grounds appear safer in the community. Thanks for the consideration! Also - I am assuming there will be external garbage bins too correct? |
| Marissa Harrison   | 1666 W 69th St                           | Marissatweedharrison@gmail.com | 18134946507<br>(providing if needed, not expecting a call) | Really like the colors, addition of windows in the brick, additional parking, and playground and public green space. Grateful trees are being preserved. Doesn't look so institutional anymore, looks more welcoming and alive.<br><br>We live on 69th street, directly behind the school. Wondering what traffic will be like on this road, especially when school is dismissed. Also, will the sidewalk and street be repaired/renewed too, or is |  | 1666 W 69th St  |   |  | Thank you for the creativity and thoughtful planning with this. Love the exterior design! Bright and cheerful, a great design for the school.  |
| Mark McDermott     | 6810 Franklin Blvd                       | mcdwizard@gmail.com            |  |   | I fully support the proposed North elevation. The horizontal striping adds so much, including the very top. I also like the consolidation to a single entrance bay with the outcrop cover.   |   |   |  | I live on Franklin directly across the street from the school and I fully support the updated design presented on February 8. The four colors are an awesome idea and they are designed well. Please make it happen.   |
| Michele Sommerfelt | 6722 Franklin Blvd                       | msommerfelt@wrobradio.com      | 2165597560   | I love these mock ups of all the long, long discussions that have netted this terrific use of space. I think there will need to be some more conversations about one way traffic on W 69 and Bridge Ave during dismissal to make the implementation work smoothly   | I love the use of color on all four sides.   |   |   |  |  |
