You will lose the community and their trust if you ignore their input. Make sure the programming is fair and equal, meaning offer more on the East side, and the same programming as the West side.</p>
<p>Offer advice on how CMSD could best support the Board of Education in making these hard decisions and best support the community in communicating them.</p>	<p>Consider the community in all decisions. Be honest with ^{the} community. If a decision has already been made, this was all pointless. Offering less access & opportunities, means the scholars suffer. All students deserve an education.</p>
