| <b>K-8 Enrollment</b><br>(SY 24-25)                     | 213                             | <p>K-8 school enrollment ranges from 143 to 695, with the middle point across all schools (median) at 312.</p> <p>A school with around 450 students — about two full classes at every grade level from Kindergarten through 8th grade — can offer more opportunities for students.</p>                                                                                                                                |
| <b>Enrollment Trend</b><br>(2019-2025)                  | -26%                            | <p>The enrollment trend across all of our K-8 schools ranged from a 44% loss to a 24% gain. The median change across schools was a drop of 12%.</p> <p>Independent enrollment studies predict that the total number of students will keep going down over the next several years, mainly because fewer children are being born.</p>                                                                                   |
| <b>Building Condition Score</b>                         | 60                              | <p>K-8 school building condition scores range from 46 to “newly built,” which is the same as a perfect score of 100. The middle point score across all schools (median) is 84.</p> <p>Our long-term goal is to keep every school building at a score of 80 or higher.</p>                                                                                                                                             |
| <b>Building Planning Capacity</b>                       | 705                             | <p>The vast majority of our K-8 buildings are large enough to hold at least 450 students. Buildings with a capacity lower than this may have to make tradeoffs that can limit student opportunities and access.</p> <p>When student enrollment is significantly lower than a building's capacity, the district must spend resources to maintain unused space, which means fewer resources for students and staff.</p> |

#### DEFINITIONS OF KEY TERMS

**K-8 Enrollment** is the end-of-year enrollment in grades Kindergarten through 8th grade, as reported by the Ohio Department of Education for all schools in the state.

**Enrollment trend** shows how the number of students at a school has changed by comparing the most recent end-of-year enrollment to previous years.

**Building condition score** shows how much maintenance a building needs in its main systems, like A/C, plumbing, roofs, and windows. Lower scores mean more repairs are needed. This score is a snapshot in time as of Spring 2025.

**Building planning capacity** is the potential number of students a building could hold for future state planning purposes.

**Ohio State Report Card Star Rating** can range from 1 to 5 stars, with more stars meaning stronger performance on state measures like student achievement, progress, and graduation. Star ratings for SY 24-25 will be issued by the Ohio Department of Education this fall.
