# **Overview**

The purpose of the organizational performance framework is to establish and communicate the compliance-related standards by which CMSD will monitor and evaluate its sponsored schools. The items included in the framework come from Ohio Department of Education requirements, contract requirements, and state law. When a number is listed in the Item column, it refers to the number from ODE's School Compliance worksheet, available online and updated annually. CMSD staff consulted with all of its sponsored schools to prioritize and organize these items. Items are weighted according to their importance and are organized into nine categories: Access and Student Rights, Health and Safety, Human Capital, Governance, Admissions, Educational Program, Fiscal, Site Visit, and Other.

CMSD aims to maximize school operational autonomy by articulating the base set of state and federal laws, rules, regulations, and contractual obligations that apply to its sponsored schools.

CMSD will primarily use Epicenter to track compliance. Items not submitted by Epicenter deadlines will result in lost points for those items. Policies/compliance items will be reviewed on due dates.

Some compliance-related requirements cannot be assessed via Epicenter. CMSD will also conduct fall and spring site visits, as required by law. CMSD will provide schools with advance notice of site visits. Please review the CMSD Comprehensive Site Visits: Purpose and Protocol document for detailed information on site visits. The bulk of Epicenter due dates are aligned with the fall and spring site visits. For example, CMSD will review all special education policies in the fall and all admission policies in the spring.
