## Cleveland Schools Progress

## The Cleveland Metropolitan School District is significantly improving under The Cleveland Plan.

Graduation Rates Increased 17\%

## Introductory Section

Message from CMSD Leadership

December 9, 2016
We are pleased to present the 2016-2017 budget for the Cleveland Metropolitan School District's (CMSD). Our budget supports sound financial management and long-term planning while reflecting our values and investments aligned to the key strategies articulated in The Cleveland Plan, which include:

1. Growing the number of high-performing District and charter schools in Cleveland and closing and replacing failing schools;
2. Focusing District's central office on key supports and governance roles and transferring authority and resources to schools;
3. Investing and phasing in high-leverage system reforms across all schools from preschool to college and career; and
4. Creating the Cleveland Transformation Alliance to ensure accountability for all public schools in the city.

This budget document is a comprehensive source of information for parents, educators, students, and community members to obtain a better understanding of the financial plan and health of the District. It also enables stakeholders to see investments related to the academic improvement strategies described in The Cleveland Plan.

In 2016-2017, we are estimating revenues of $\$ 1.16$ billion from local, state, and federal sources with $\$ 701.25$ million from general operating revenue sources. We are also projecting expenses of $\$ 1.19$ billion across all funds (e.g., general operating, debt, capital projects, grants, etc.) with $\$ 734.89$ million projected in general operating fund expenses. The budget document explains the comprehensive information about our budget process, timeline, and assumptions as well as detailed revenue and expenditure information by funding, by funding sources, and by school and department. This budget was developed with the best and most recent information available to District administrators. Anticipated expenditures and revenue are estimated based on this information and revisions may be made during the fiscal year to reflect new or changing information or unforeseen circumstances.

The information presented is structured to meet the requirements of the Meritorious Budget Award established by the Association of School Business Officials (ASBO), which is the highest form of recognition in budgeting for school entities. Award attainment represents a significant accomplishment by a school entity and its management. To receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, an operations guide, a financial plan, and as a communications medium. This Budget Book represents CMSD's first submission for the Meritorious Budget Award.

The preparation of this budget document could not have been accomplished without the diligent and dedicated services of the Finance department and the District schools and departments involved in the budgeting processes. We express our appreciation and gratitude to the administrators striving to maintain a tradition of educational excellence in a fiscally responsible manner and our Board of Education and
community for providing the fiscal support needed to develop, implement, and maintain the high quality of educational programs that allows CMSD to focus on fulfilling the academic and operational outcomes detailed in The Cleveland Plan. This support was evident on November 8, 2016 when Cleveland voters overwhelming voted with a $68 \%$ approval rate to support Issue 108 to renew the 4 -year, 15 -mill levy used to support The Cleveland Plan. We intend to maintain that trust with targeted, intentional investments and accurate, detailed, and transparent reporting of those investments.

We are proud of this budget book, which provides information that allows the reader to understand the District's financial operations as well as its goals and objectives and how they relate to our education programs and services for the 2016-2017 fiscal year and beyond.

Respectfully submitted,

Eric S. Gordon
Chief Executive Officer

John W. Scanlan Chief Financial and Administrative Officer

## Executive Summary

## Budget Development Process

As required by Ohio law, the District prepares an estimated tax budget for the fiscal year. The tax budget is prepared using the budget template received from the County Budget Commission. The District conducts a public hearing on the proposed tax budget prior to submission to the County Budget Commission. After the public hearing, the Board of Education approves the proposed tax budget through enactment of a resolution. The tax budget package is then forwarded to the County Budget Commission, who certifies its receipt.

Using estimated revenues, existing cash balances, and fund balance targets as guides, the District begins developing an annual general operating budget and budgets for grant funds. Developing the general operating budget is comprised of two work streams. The first, which begins in January, involves schools developing budget proposals based on an allocation generated primarily through a student-based budgeting (SBB) formula. The SBB formula allocates resources based on unique student characteristics and projected enrollment and includes both general funds, some Title IA funds, and Title IIA funds. The school-developed budget proposals are a reflection of their strategic school designs and academic achievement plans.

The second work stream involves central office administrative and support departments developing budget proposals aligned to schools' plans, expenditure targets, strategic plans, and other investments. These budgets are reviewed by department leaders and then merged and iterated upon until the budget target is reached. These activities enable the District to develop a unified budget to foster alignment among schools, central office, and between different funding sources.

There were no significant changes to our budget process or budget policies from last year.

## District Goals and Strategies

The budget development process is the annual vehicle to align the District's financial and human resources with the goals and strategies associated with The Cleveland Plan, which are enumerated below.

## Cleveland Plan Goals

- By 2018-19, triple the number of High Performing Seats (from 3,568 to 10,704).
- By 2018-19, triple the number of High/Mid Performing Seats (from 8857 to 26,571).
- By 2018-19, eliminate all failing schools (from 41 to 0 ).
- By 2016-17, increase city-wide pre-school enrollment by 2,000 seats (from 1,200 to 3,200).
- Annually, reduce by $20 \%$ the percent of students who failed to meet the Third Grade Reading Guarantee (from 85\% to 88\%).
- Annually, increase the high school graduation rate by $4 \%$ (from $64.3 \%$ to $68.3 \%$ ).
- By 2016-17, increase the District high school graduation rate to $71 \%$ (from $52.2 \%$ to $71.0 \%$ ).
- By 2016-17, increase college enrollment within one year's time to $66 \%$ (from $61 \%$ to $66 \%$ ).
- By October 2016, present a 5-year financial forecast with a positive ending cash balance through December 2020, including levy renewal.
- By 2019-2020, complete Issue 4 construction and remodeling projects.
- By 2016-17, maintain or exceed enrollment of 37,879 students.
- Annually, increase parent engagement as measured by HB 525 by $7.5 \%$ (from $80 \%$ to $87.5 \%$ ).
- Annually, reduce by $10 \%$ the percentage of students who are chronically absent ( $10+$ days) over the prior three-year average (from $57 \%$ to $51.3 \%$ ).

## Cleveland Plan Strategies

The Cleveland Plan was grounded in an emerging national approach known as the "portfolio strategy," which showed promising results in cities such as Baltimore, Denver, and New York. The focus of this work to significantly increase the number of high-performing schools and reduce and eventually eliminate low performing schools. To do this, the School District has employed four distinct strategies:

1. Promote, expand, and replicate existing high-performing District and charter school. Effective schools, measured by a consistent standard of quality now have full autonomy over school budgets, staff selection and assignment, academic and student support programs, school calendar and school schedules in exchange for high accountability standards and access to financial and other resources.
2. Start new schools. The School District continues to attract best national education models, invent schools that are unique to the City and encourage local community partners and teachers within the School District to co-create new and innovative school models.
3. Refocus and strengthen mid-performing schools. For those schools that met minimum state standards and have some critical academic and social conditions in place, the School District has employed precise, customized and differentiated interventions and investments and grant some levels of autonomy.
4. Repurpose and address low-performing schools. The lowest performing schools were targeted for immediate and dramatic action, including closure and reassignment of student to better schools, closure and start-up of a new school, phase-in of a new program and phase-out of the old program, or turning the school over to a capable charter operator.

## Student-Based Budgeting (SBB)

In May 2013, CMSD principals worked with District leaders to design a set of budgeting rules and procedures that would support building-level autonomy as outlined in The Cleveland Plan. Since then, Network Leaders and School Design coaches have implemented CMSD's Portfolio Strategy, the centerpiece of The Cleveland Plan. Their support for principals in academic goal setting, strategic school design and resource reallocation is an integral part of the work. Together, principals and their academic teams are now able to craft academic achievement plans and budgets suited to the unique needs of their students.

Under the previous budget process:

- There was significant unplanned variation among different schools' per pupil levels of funding.
- Small schools received more (per pupil) than large schools.
- Underutilized schools tended to receive more than those filled to capacity.
- Some schools simply received more because of years-old staffing decisions.
- Schools with higher student need did not necessarily receive more (excluding temporary SIG grants).

Under the student-based budgeting (SBB) process,

- A more equitable distribution of resources results in all schools funded at a more similar level to one another (per pupil), and remaining differences will be directly tied to student need.
- A more equitable distribution means that some schools receive more than they did in prior years, while others receive less.
- Money follows the student, based on the individual student's need.
- Principals have autonomy to build increasingly diverse and customized budget plans.
- Budget plans are designed to support and reflect that building's academic plan.
- Dollars (rather than staff) are allocated to schools, based on the number of students enrolled.

The fiscal year 2016-17 SBB distributes resources via a base weight, which all students receive, servicebased weights for students identified as special education and English language learners, performancebased weights for students who are advanced and students who score below proficient, and needs-based social emotional weights for chronically absent and highly mobile students.

## Board of Education

Cleveland's current school governance structure was created by Ohio House Bill 269 in 1997, and took effect September 9, 1998. The Board of Education is made up of nine voting members appointed by the Mayor of Cleveland from a slate of nominees selected by a local nominating panel, established under State law. At least four of the nine members must have significant expertise in either education, finance, or business management. Board members must be residents of the School District, and at least one of the nine members must reside in that part of the School District that is outside the City of Cleveland (Bratenahl, Linndale, Newburgh Heights, and parts of Brook Park and Garfield Heights). State law also provides that the presidents of Cleveland State University and Cuyahoga Community College serve as nonvoting ex officio members of the Board.

## District Leadership and Administration

The Board of Education employees a Chief Executive Officer (CEO) to lead the day-to-day operations of the District. Eric Gordon has been the CEO since 2011.

## Student Enrollment

CMSD is the second largest school District in Ohio, educating scholars in Cleveland as well as the surrounding suburbs of Bratenahl, Linndale, Newburgh Heights and parts of Garfield Heights and Brook

Park. In 2016-17, the District expects to serve approximately 39,000 scholars. Our budget includes passthrough revenue for another 16,000 Cleveland students served by community schools (charters) and students served at private schools and special education schools through voucher programs. We forecast no material changes in enrollment over the next few years.

CMSD educates a very diverse population, including scholars from over 50 countries speaking more than 30 different languages.

## Student Demographics

## Personnel Allocations

CMSD employees a broad range of different professionals to provide educational services to students, supports to educators, and administrative and operational services. Generally speaking, changes in staffing is tied closely with enrollment fluctuation. The increase in teachers from FY13 to FY14 is due to being able to restore some positions because of the passage of an operating levy in November 2012.

| IDEA Preschool Grant for the Handicapped (587) | 263,724 | 186,519 | 430,198 | 412,712 | 996,027 |
| Improving Teacher Quality (590) | 6,525,828 | 5,986,074 | 5,567,409 | 6,015,712 | 4,733,551 |
| Miscellaneous Federal Grants (599) | 983,582 | 259,602 | 679,070 | 617,845 | 1,000,000 |
| Total Expenditures | \$ 966,323,275 | \$ 1,002,801,877 | \$ 1,025,182,301 | \$ 982,175,849 | \$ 1,096,550,824 |

Note: The self-insurance expenses reflected in Fund 024 are double-counted in other funds. For example, some employer-related medical expenses are attributed to Fund 001 (general operating) and paid (and reflected) through Fund 024, hence the double-counting.

## Per Pupil Expenditures

As the primary local education authority in Cleveland, CMSD receives pass-through revenue (and matched expenditures) for approximately 16,000 students served by charter, private, and special education schools. Except for the table in this sub-section about per pupil expenditures, the preceding tables and all remaining tables and figures in this budget book include these pass-through revenues and associated expenses.

This table reflects only those expenditures associated with students enrolled in CMSD schools.

|  | FY 2013 Actual | FY 2014 Actual | FY 2015 Actual | FY 2016 Actual | FY 2017 Budget |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Total Expenditures | \$ 723,952,814 | \$ 742,722,596 | \$ 757,357,038 | \$ 718,156,624 | \$ 820,684,544 |
| Students | 38,717 | 37,969 | 38,558 | 39,128 | 38,471 |
| Per Pupil Expenditures | \$ 18,699 | \$ 19,561 | \$ 19,642 | \$ 18,354 | \$ 21,333 |

Determining the total expenditures for only the $\sim 39,000$ CMSD schools involves "backing out" certain expenditures groups:

- All expenditures in objects 470-479 in the General Operating Fund because they represent the pass-through revenue to charter and special education schools.
- All of Fund 24. This is excluded because the self-insurance expenses are double-counted in other Funds.
- All of Funds 19, 36, and 401 because they represents expenses and pass-through revenue associated with charter and private schools.
- The portion of federal grants allocated to private schools in Funds 516 and 572.

It is possible some additional minor and miscellaneous non-CMSD expenditures are reflected in other Funds, but this reflects a fairly precise estimate.

## Trends, Events, Initiatives, and Financial Changes

The following assumptions were used in preparing the District's FY17 budget and five-year forecast.

## Revenue Assumptions

- Cuyahoga County completed its triennial update in 2015. All property tax estimates use current valuation figures.
- On 11/6/12 residents passed a 4 year 15 mill levy with collection beginning January 2013. The levy was re-approved in November 2016 and is included in the operating budget.
- State Funding - House Bill 64, Ohio’s Biennial Budget, was signed into law by Governor Kasich on June 30, 2015. The forecast is using the most recent state budget formula for FY17-21.
- Enrollment - The current enrollment is 54,857 , which include CMSD students as well as charter and voucher students. Charter and voucher payments pass through CMSD. The forecast assumes no change from this enrollment for FY17-FY21.

## Expenditure Assumptions

- $60 \%$ of eligible employees will move annually on the differentiated compensation system.
- $2 \%$ increase in wages in FY17 and $0 \%$ in FY18-FY20.
- 230 teacher separations in FY17-20.
- Healthcare rates are forecasted to increase an average of $10.2 \%$ in FY17-FY20.
- $\$ 3.6$ million of strategic investments per year.
- $\$ 8.5$ million in additional dollars for academic programming at new schools and school improvement strategies.
- $\$ 16.0$ million of continued aggressive fiscal management to gain efficiencies per year in FY17-20.
- No change in charter enrollment for FY17-FY20.

Capital Project initiatives are reflected in the Permanent Improvement Fund and Classroom Facilities Fund. They account for and report financial resources that are restricted, committed, or assigned to capital outlay expenditure. The District strives to continually improve schools and facilities for the betterment of the educators and students.

Segments 1-5 of the current Capital Projects program have been substantially completed; segments 6 and 7 are estimated to complete before December 31, 2017. Segments 8 and 9 have no accurate estimated completion date at this time. More detail about the construction segments, including the schools impacted and actual or estimated costs are available in the Financial Section.

## Budget Forecast

The following tables include forecasts of revenue and expenditures by Fund for the next three fiscal years. The General Fund (001) includes estimated revenues from the successful levy passage on November 8, 2016.

## Forecasted Revenue

| Revenue | FY 2018 <br> Forecast | FY 2019 <br> Forecast | FY 2020 <br> Forecast |

## Debt Changes

Over the past years, the District's changes in debt have primarily been in the issuance of School Improvement Bonds. The District did not issue/refund any debt in fiscal year 2016, but did so in the following instances over recent years:

- On June 10, 2015, the School District issued $\$ 200,000,000$ of General Obligation School Improvement Bonds consisting of $\$ 150,800,000$ of Tax Exempt School Improvement Bonds, Series 2015A and \$49,200,000 of Federally Taxable Qualified School Construction Bonds, Series 2015B bearing interest at the rate of $2.00 \%-5.02 \%$ per annum. The premium received on this bond issue was $\$ 9,277,561$ and after deducting the bond issuance costs, $\$ 8,500,106$ was transferred to the Debt Service Fund. Issue 4, which was approved by voters on November 4, 2014, will allow for construction of 20-22 new schools and the refurbishing of 20-23 schools. This debt will be retired from the Debt Service Fund.
- On January 9, 2014, the School District issued $\$ 10,525,000$ of School Improvement Refunding Bonds, Series 2014, at a true interest cost of approximately 3\%. Proceeds of this bond issue (including a portion of the original issue premium), together with $\$ 6,124,354$ of cash on hand in the District's bond retirement fund, for a total of $\$ 16,913,400$ was deposited in an escrow fund that is being used ultimately to pay principal of and interest on $\$ 10,789,045$ in aggregate principal amount of certain of the District's School Improvement Bonds, Series 2004, through June 1, 2014, the date of optional early redemption of those series 2004 Bonds. As a result, those Series 2004 bonds were defeased and considered no longer outstanding for purposes of the School District's direct debt limitations. This refunding transaction resulted in a reduction in future debt of $\$ 7,643,843$, equivalent to then-present values savings (at the time of sale of the Refunding Bonds) of $\$ 7,175,176$, which, after deducting contributions to the escrow fund from sources other than the proceeds of the Refunding Bonds, yielded net present value savings of approximately $\$ 1,050,822$.
- On January 29, 2013, the School District issued $\$ 45,600,000$ of School Improvement Refunding Bonds, Series 2013, at a true interest cost of approximately $3 \%$. Proceeds of this bond issue (including a portion of the original issue premium), together with $\$ 12,000,000$ of cash on hand in the District's bond retirement fund, for a total of $\$ 63,366,472.36$, was deposited in an escrow fund that is being used ultimately to pay principal of and interest on $\$ 59,020,000$ in aggregate principal amount of certain of the District's School Improvement Bonds, Series 2004, through June 1, 2014, the date of optional early redemption of those Series 2004 Bonds. As a result, those Series 2004 Bonds were defeased and considered no longer outstanding for purposes of the District's direct debt limitations.

## Current Debt Obligation by Fund

|  | General Fund |  |  | Bond Retirement |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Fiscal Year | Principal | Interest | Total | Principal | Interest | Total |
| 2017 | \$3,093,641 | 199,922 | 3,393,563 | 8,436,176 | 13,557,956 | \$21,994,132 |
| 2018 | \$2,580,991 | 143,009 | 2,724,000 | 8,593,823 | 13,404,681 | \$21,998,504 |
| 2019 | \$2,624,182 | 99,818 | 2,724,000 | 8,856,470 | 13,233,406 | \$22,089,876 |
| 2020 | \$2,668,096 | 55,904 | 2,724,000 | 9,049,118 | 13,013,781 | \$22,062,899 |
| 2021 | \$1,350,745 | 11,255 | 1,362,000 | 9,286,765 | 12,732,306 | \$22,019,071 |

A more in-depth analysis of debt changes can be found under Debt Obligations in the Financial Section.

## Tax Base

The School District's property tax base is broken down into three main categories, Class I Real Estate, Class II Real Estate and Tangible Personal Property.

## Class I Real Estate Property

- Agricultural Property - Land and improvements used for agricultural purposes.
- Residential Property - Land used and occupied by one, two, or three families.

## Class II Real Estate Property

- Commercial Property - The land and improvements to land which are owned or occupied for general commercial and income producing purposes and where production of income is a factor to be considered in arriving at true value, including, but not limited to, apartment houses, hotels, motels theaters, office buildings, warehouses, retail and wholesale stores, bank buildings, commercial garages, commercial parking lots, and shopping centers.
- Mineral Property - Land, and the buildings and improvements thereon, used for mining coal and other minerals as well as the production of oil and gas including the rights to mine and producing such minerals whether separated from the fee or not.
- Industrial Property - The land and improvements to land used for manufacturing, processing, or refining foods and materials, and warehouses used in connection therewith.

## Tangible Personal Property and Public Utility

- Tangible Personal Property - Prior to calendar year (CY) 2009, all machinery, inventory, furniture, fixtures and other equipment used in the course of conducting business was classified as Tangible Personal Property, included in the school District's assessed values and taxed accordingly. The tax rate for this type of property has been reduced over the years from a high of $88 \%$ in the 1960 's to $23 \%$ in CY05. House Bill (H.B.) 66 dramatically changed the phase-out of inventory taxes by reducing the tangible property tax assessment rate to $18.75 \%$ in CY06, $12.50 \%$ in CY07, $6.25 \%$ in CY08 and down to zero in CY09. H.B. 66 completely phased out tangible taxes on machinery, equipment, furniture and fixtures by the same rates used for the inventory phase-out, which prior to H.B. 66 were not scheduled to be reduced. The telephone tangible personal property tax assessment rate was reduced by $20 \%$ in CY07 and 5\% each additional year until it was eliminated in CY11.
- Public Utility - Personal Property - Public utility companies, including electric, natural gas, pipelines, water works, water transportation, heating and telegraph companies are taxed (with a few exceptions) on all tangible personal property. The percent of true value at which this type of property is taxed varies according to the type of public utility. This taxable property is called public utility-personal property. This is now the only type of personal property that remains subject to taxation.

Total and Effective Tax Rates

| Tax Year | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 3}$ | $\mathbf{2 0 1 4}$ | $\mathbf{2 0 1 5}$ |

## About CMSD

The District currently provides approximately 39,000 Cleveland area students a public school education, whereby each child has access to programs and services that are appropriate to his or her needs. In addition to regular educational programs for Pre-K through $12^{\text {th }}$ grade students, the District also offers comprehensive vocational education, special education, and bilingual education programs. In 2016-17, the District will offer 66 K-8 and Pre-K-8 schools, 34 high schools, one K-12 school, and one school serving 3-12 grades. In addition, classes will be provided in four residential school programs.

The School District is an independent municipal school District and is not a component unit of another government.

## Governance Structure

Cleveland's current school governance structure was created by Ohio House Bill 269 in 1997, and took effect September 9, 1998. The Board of Education is made up of nine voting members appointed by the Mayor of Cleveland from a slate of nominees selected by a local nominating panel, established under State law. At least four of the nine members must have significant expertise in either education, finance, or business management. Board members must be residents of the School District, and at least one of the nine members must reside in that part of the School District that is outside the City of Cleveland (Bratenahl, Linndale, Newburgh Heights, and parts of Brook Park and Garfield Heights). State law also provides that the presidents of Cleveland State University and Cuyahoga Community College serve as nonvoting ex officio members of the Board.

The Board of Education functions as the governing body of the School District. Board responsibilities include: hiring the School District Chief Executive Officer (with the concurrence of the Mayor); setting School District policy; approving the School District budget; establishing goals and accountability standards; and promoting parent, family, and community involvement in the schools.

The Board of Education meetings are held on two Tuesdays each month at $6: 30 \mathrm{pm}$. The first meeting of each month is a work session, held at the Board of Education Administration Building, 1111 Superior Avenue E, Cleveland, and devoted primarily to information gathering, discussion and deliberation on issues or topics for future Board business meetings. The second meeting of each month is a business meeting, held at various schools throughout the School District, and devoted primarily with the consideration of and voting on Board resolutions.

Parents and the community are encouraged to attend Board meetings. In addition to conducting the business of the School District at these meetings, the Board also provides for public participation (at Board business meetings) in order to hear community concerns, and recognizes the achievements of our students and staff, and the contributions of our community partners. The Board also holds a number of Community Forums throughout the year on policy issues of interest to the community.

## Board of Education Members

The following identifies each Board member, the year they began service, and the year their present term expires (on June $30^{\text {th }}$ of that year). There is presently one vacancy on the Board.

Denise W. Link Board Chair 2007-2019

Anne E. Bingham 2014-2017

Robert M. Heard, Sr. 2004-2017

Justin L. Monday, Esq. 2015-2019

Ronald M. Berkman
Ex Officio

Louise P. Dempsey, Esq. Board Vice Chair 1998-2019

Willetta A. Milam
2003-2017

Lisa Thomas, Ph.D. 2011-2017

Alex Johnson, Ph.D. Ex Officio

Shaletha T. Mitchell 2011-2019

## District Leadership and Administration

The Board of Education employees a Chief Executive Officer (CEO) to lead the day-to-day operations of the District. Eric Gordon has been the CEO since 2011.

## CMSD Mission and Goals

## Vision / Mission Statement

Vision: The Cleveland Metropolitan School District envisions 21st Century Schools of Choice where students will be challenged with a rigorous curriculum that considers the individual learning styles, program preferences and academic capabilities of each student, while utilizing the highest quality professional educators, administrators and support staff available.

Mission: The Cleveland Metropolitan School District will strive for nothing less than a school District of premier status that will be emulated for its best practices in the areas of academics, buildings and facilities, customer service, safety and security, and student services purposefully designed to produce graduates prepared to assume leadership roles as students in colleges and universities, as professionals in their chosen careers and as citizens in a global society.

## The Cleveland Plan

Our goal is to ensure that every child in Cleveland attends a high-quality school and that every neighborhood has a multitude of great schools from which families can choose. To do this, Cleveland must transition from a traditional, single-source school District to a new system of District and charter schools that are held to the highest standards and work in partnership to create dramatic student achievement gains for every child. The plan is built upon growing the number of excellent schools in Cleveland, regardless of provider, and giving these schools autonomy over staff and budgets in exchange for high accountability for performance. We will create an environment that empowers and values principals and teachers as professionals and makes certain that our students are held to the highest expectation

## Two equally compelling dynamics:

First, we are driven by a fierce sense of urgency. We know that students in Cleveland must have the knowledge, skills and attributes that position them to be successful and competitive in the 21st century global economy. We know that we must re-establish public trust and confidence in our schools and reverse the District's steep drop in enrollment over the last decade. And we must position the District on a path toward financial sustainability so to avoid draconian cuts in services that result in more and more students and families leaving the District and the city.

Second, we are driven by an informed sense of hope, as Cleveland has already started this journey to transformation. The last several years have shown investments in new and redesigned schools, partnerships between the District and high-performing charter schools, differentiated investments in schools, a robust teacher support and evaluation system, and more. Cleveland already has innovative options that are achieving noteworthy results for many of our students. But it won't be enough until every student is in a
great school. We must work toward a new vision of education that will inspire and convince the public that our city and our schools are worthy of the investment of their children and dollars.

## Cleveland Plan Strategies

The Plan was grounded in an emerging national approach known as the "portfolio strategy," which showed promising results in cities such as Baltimore, Denver, and New York. The focus of this work to significantly increase the number of high-performing schools and reduce and eventually eliminate low performing schools. To do this, the School District has employed four distinct strategies:

1. Promote, expand, and replicate existing high-performing District and charter school. Effective schools, measured by a consistent standard of quality now have full autonomy over school budgets, staff selection and assignment, academic and student support programs, school calendar and school schedules in exchange for high accountability standards and access to financial and other resources.
2. Start new schools. The School District continues to attract best national education models, invent schools that are unique to the City and encourage local community partners and teachers within the School District to co-create new and innovative school models.
3. Refocus and strengthen mid-performing schools. For those schools that met minimum state standards and have some critical academic and social conditions in place, the School District has employed precise, customized and differentiated interventions and investments and grant some levels of autonomy.
4. Repurpose and address low-performing schools. The lowest performing schools were targeted for immediate and dramatic action, including closure and reassignment of student to better schools, closure and start-up of a new school, phase-in of a new program and phase-out of the old program, or turning the school over to a capable charter operator.

## In addition, organizational roles and relationships have changed under the Cleveland Plan in four fundamental ways:

1. Central office oversees the portfolio of schools to ensure continuous improvement, provide system coordination for essential functions (enrollment, data systems, etc.) and provide some targeted services directly to schools.
2. Schools have varying levels of autonomy based on their level of performance and are accountable for delivering an excellent education.
3. All schools now have to abide by certain state and federal requirements, such as state testing and serving students with disabilities and English language learners, among others.
4. School District has shifted from traditional budgeting to a weighted per-pupil funding system for all schools and has transferred a majority of spending control to schools based on the number and needs of the students they enroll. This includes the transfer of some locally generated tax revenues to high-performing charter schools that are sponsored by or have agreements with the School District.

## District Goals

- By 2018-19, triple the number of High Performing Seats (from 3,568 to 10,704).
- By 2018-19, triple the number of High/Mid Performing Seats (from 8857 to 26,571).
- By 2018-19, eliminate all failing schools (from 41 to 0 ).
- By 2016-17, increase city-wide pre-school enrollment by 2000 seats (from 1,200 to 3,200 ).
- Annually, reduce by $20 \%$ the percent of students who failed to meet the Third Grade Reading Guarantee (from $85 \%$ to $88 \%$ ).
- Annually, increase the high school graduation rate by $4 \%$ (from $64.3 \%$ to $68.3 \%$ ).
- By 2016-17, increase the District high school graduation rate to $71 \%$ (from $52.2 \%$ to $71.0 \%$ ).
- By 2016-17, increase college enrollment within one year's time to $66 \%$ (from $61 \%$ to $66 \%$ ).
- By October 2016, present a 5 -year financial forecast with a positive ending cash balance through December 2020, including levy renewal.
- By 2019-2020, complete Issue 4 construction and remodeling projects.
- By 2016-17, maintain or exceed enrollment of 37,879 students.
- Annually, increase parent engagement as measured by HB 525 by $7.5 \%$ (from $80 \%$ to $87.5 \%$ ).
- Annually, reduce by $10 \%$ the percentage of students who are chronically absent ( $10+$ days) over the prior three-year average (from 57\% to 51.3\%).

## Budget and Financial Items That Impact Our District

CMSD codes financial transactions in accordance with the Uniform School Accounting System (USAS) developed and maintained by the Ohio Auditor of State. The USAS is based upon the use of a combination of dimensions (different sets of codes, each of which supplies different elements of information). By selecting the most appropriate code within each required dimension, each financial transaction of the school district will be adequately identified.

The use of certain dimensions to identify each type of financial transaction is the responsibility of management of the school district. The determination should consider the informational needs of the school district, the Ohio Department of Education, and other regulatory agencies. For various reasons, certain financial transactions should be coded in more detail than others.

The most recent version of the USAS User Manual can found on the Ohio Auditor of State's website: https://ohioauditor.gov/publications/uniform school accounting system user manual.pdf

## Funds and Fund Types

The School District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a selfbalancing set of accounts. The various funds of the School District are grouped into the categories of governmental, proprietary, and fiduciary. Each fund also has an associated fund number; for example, the General Fund is 001 .

## Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

## General Fund 001

The general fund is used to account for all financial resources, except those required to be accounted for in another fund. The general fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

## Debt Service Fund 002

The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

## Capital Projects Funds

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

## Permanent Improvement 003

A fund provided to account for all transactions related to the acquiring, constructing, or improving of such permanent improvements

## Classroom Facilities 010

A fund provided to account for monies received and expended in connection with contracts entered into by the school District and the Ohio School Facilities Commission for the building and equipping of classroom facilities.

## Classroom Facilities Maintenance 034

A fund used to account for the proceeds of a levy for the maintenance of facilities. The classroom facilities fund is used to account for monies received and expended in connection with contracts entered into by the School District for the construction or renovation to classroom facilities.

## Proprietary Funds

Proprietary funds focus on the determination of operating income, changes in net position, financial position and cash flows and are classified as either enterprise or internal service. The School District only has internal service funds.

## Food Services 006

This fund is used to record financial transactions related to food service operations.

## Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

## Special Trust 007

The special trust fund may be classified as a special revenue, permanent, or a private purpose trust fund. A special revenue fund should be used if the original contributions can be expended for school District programs. A permanent fund should be used if the only the earnings on the original proceeds can be expended and not the principal. If the original contribution, whether required to be kept intact or not, and
the earnings do not support the school District's programs, then the fund will be classified as a private purpose trust fund.

## Public School Support 018

A fund provided to account for specific local revenue sources, other than taxes or expendable trusts (i.e. profits from vending machines, sales of pictures, etc.), that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases.

## Other Grants 019

A fund used to account for the proceeds of specific revenue sources, except for State and Federal grants that are legally restricted to expenditures for specified purposes. The purpose of this grant is to fund Promise Academy.

## District Managed Student Activity 300

A fund provided to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities

## Auxiliary Services 401

A fund used to account for monies which provide services and materials to pupils attending non-public schools within the school District.

## Management Information System 432

A fund provided for hardware and software development, or other costs associated with the requirements of the management information system.
Public School Preschool 439
A fund to assist school Districts in paying the cost of preschool programs for three and four year olds.

## Data Communications 451

A fund provided to account for money appropriated for Ohio Educational Computer Network Connections.

## School Net Professional Development 452

A fund provided to account for a limited number of professional development subsidy grants.

## Vocational Education Enhancement 461

A fund used to account for Vocational Education Enhancements that: 1) expand the number of students enrolled in tech prep programs, 2) enable students to develop career plans, to identify initial educational and career goals, and to develop a career passport which provides a clear understanding of the student's knowledge, skills, and credentials to present to future employers, universities, and other training institutes and 3) replace or update equipment essential for the instruction of students in job skills taught as part of a vocational program or programs approved for such instruction by the State Board of Education.

## Alternative Schools 463

A fund used to account for alternative educational programs for existing and new at-risk and delinquent youth. Programs shall be focused on youth in one or more of the following categories: those who have been expelled or suspended, those who have dropped out of school or who are at risk of dropping out of school, those who are habitually truant or disruptive, or those on probation or on parole from a Department of Youth Services' facility.

## Miscellaneous State Grants 499

A fund used to account for various monies received from state agencies which are not classified elsewhere. A separate special cost center must be used for each grant.

## Race to the Top 506

To provide for either a new program or expansion of an existing program to support initiatives in the following areas: Standards and Assessments; Using Data to improve Instruction; Great Teachers and Leaders; and Turning Around the Lowest-Achieving Schools.

## School Maintenance and Operational Assistance (Impact Aid/SAFA) 512

Maintenance and operational funds to school Districts significantly affected (1) by a loss of revenue from taxable real property acquired by the federal government; (2) by provision of public education to children who live on federal property; or (3) by a sudden and substantial increase in school attendance as a result of federal activities.

## IDEA, Part B, Special Education, Education of Handicapped Children 516

Grants to assist states in providing an appropriate public education to all children with disabilities.

## Vocational Education: Carl D. Perkins Vocational Education Act of 1984524

Funds to boards of education, teacher training institutions, and the state administering agency for cooperating in development of vocational education programs in the following categories: secondary, postsecondary, adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, construction of area vocational schools, ancillary services, research, advisory committees, and work-study projects, including sex equity grants.

## Title II D Technology 533

To improve State academic achievement through technology in schools; to assist student in becoming technologically literate by the end of eighth grade, and; to encourage effective integration of technology with teacher training and curriculum development to establish successful research-based instructional methods.

## Title I School Improvement Stimulus A 536

To help schools improve the teaching and learning of children failing, or most at risk of failing to meet challenging State academic achievement standards.

## Title I School Improvement Stimulus G 537

To raise the achievement of students in the lowest-performing schools.

## Nutrition Education and Training Program 542

To encourage the effective dissemination of scientifically valid information to children participating or eligible to participate in the school lunch and related nutrition programs.

## Title III, Limited English Proficiency 551

Funds to develop and carry out elementary and secondary school programs, including activities at the preschool level, to meet the educational needs of children of limited English proficiency. These programs provide structured English language instruction, with respect to the years of study to which the program is applicable, and instruction in the child's native language to the extent necessary to allow a child to achieve competence in English. The instruction must incorporate the cultural heritage of these children and of other children in American society. The instruction must be, to the extent necessary, in all courses or subjects of study which will allow a child to meet grade promotion and graduation standards.

## Refugee Children School Impact Act 571

To provide educational services to meet educational needs of refugee children who are enrolled in public and non-profit private elementary and secondary schools.

Title I, Disadvantaged Children/Targeted Assistance 572
To provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children. Included are the Even Start and Comprehensive School Reform programs.

## IDEA Preschool Grant for the Handicapped 587

The Preschool Grant Program, Section 619 of Public Law $99-457$, addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

## Improving Teacher Quality 590

A fund used to account for monies to hire additional classroom teachers in grades 1 through 3 , so that the number of students per teacher will be reduced.

## Schoolwide Building Program 599

The purpose of this bulletin is to inform you of the creation of a Schoolwide Building Program Fund. The Schoolwide Building Program Fund allows for the pooling of Federal, State, and local funds to be used to upgrade the overall instructional program of a school building where at least 40 percent of children are from low-income families.

## Internal Service Funds

The internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The internal service fund is used to account for and finance its uninsured risks of loss and associated expenses attributable to deductibles and self-insured retention limits for general liability and property damage claim settlements and judgments and self-insurance programs for employee medical benefits.

## Liability Self Insurance 023

This fund should have the self-insurance money deposited in it and all appropriate self-insurance payments made from it. The Self-Insurance Fund may be a fund that serves a pool of participating local governments or a pool of funds within a given local government. The Self-Insurance Fund does not require permission of the Auditor of State for establishment. The Board of Education should establish the fund by resolution.

## Employee Benefits Self Insurance 024

A fund provided to account for monies received from other funds as payment for providing medical, hospitalization, life, dental, vision, or any other similar employee benefits. The Employee Benefits SelfInsurance Fund may make payments for services provided to employees, for reimbursements to employees who have paid providers, to third party administrators for claim payment or administration, for stop-loss coverage or for any other reinsurance or other similar purposes.

## Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District has no trust funds. Agency funds are custodial in
nature (assets equal liabilities) and do not involve measurement of results of operations. The School District has two agency funds, one which accounts for student activities and one which accounts for various payroll withholding items.

## Student Managed Activity Account 200

A fund provided to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

## Classification of Key Revenues and Expenditures

Revenues and expenditures are coded based on the following guidance provided in the USAS User Manual. The detailed revenue and expenditure codes and definitions can be found in the most current USAS User Manual, found here:
https://ohioauditor.gov/publications/uniform_school_accounting_system_user_manual.pdf

## Revenues

All revenues must be attributed to some fund and received from a specified source. Some revenues must also be related to an applicable program (Special Cost Center or Subject). Revenues which are attributed to applicable programs are generally restricted, in that the monies received can only be spent for restricted purposes.

The requirements of revenue accounting and reporting are not as extensive as expenditure accounting and reporting, in terms of number of dimensions and required detail level within the receipt dimension. The dimensions used for revenue accounting are as follows with " $x$ " indicating the number of values.

- Transaction Indicator xx
- Fund xxx
- Receipt xxxx
- Special Cost Center xxxx
- Subject Area/Subject xxxxxx
- Operational Unit xxx

## Expenditures

Expenditure accounting and reporting is based on a multi-dimensional system. A transaction requires the use of several dimensions, each of which has a separate meaning. No single dimension would provide enough information for accountability and responsive management. Objects of expenditure such as salaries, purchased services, supplies, and materials are meaningless unless they are directly related to at least the fund and function dimensions. By relating a specific expenditure to all dimensions, more complete accountability is realized, and more information is available to management.

The Uniform School Accounting System uses nine dimensions in the following sequence:

- Transaction Indicator $x x$
- Fund xxx
- Function xxxx
- Object xxx
- Special Cost Center xxxx
- Subject Area/Subject xxxxxx
- Operational Unit xxx
- Instructional Level xx
- Job Assignment xxx

Reporting requirements determine the dimensions (and the level of detail within those dimensions) that must be used. Local needs determine extended usage of the remaining dimensions and associated levels of detail. CMSD does not presently utilize the Subject Area/Subject, Instructional Level, or Job Assignment dimensions.

## Fund Balance

Fund Balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

## Nonspendable

The nonspendable fund balance category included amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash

## Restricted

Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

## Committed

The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the Board of Education, separate from the authorization to raise the underlying revenue; therefore, compliance with these restraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

## Assigned

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amount represents intended uses established by the Board of Education or the Chief Financial Officer which has been delegated that authority by the CEO.

## Unassigned

Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for a specific purpose for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

There are no policies on any minimum or maximum fund balance; however districts in Ohio cannot submit a five-year forecast to the State of Ohio with a negative fund balance projected in the current fiscal year.

## Basis of Accounting and Budgeting

## Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

## Revenues - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of the fiscal year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 8). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: advance on property taxes, investment income, the State's share of the classroom facility project, tuition, grants and student fees.

## Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding and for pension. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows or resources related to pension are explained in Note 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources
included property taxes, pension, and unavailable revenue. Property Taxes represent amounts for which there is an enforceable legal claim as of June 30, 2015, but which were levied to finance fiscal year 2016 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, intergovernmental grants, and miscellaneous revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net pension.

## Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are also reported as donated commodities revenue.
The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

## Basis of Budgeting

Since the 2014-2015 academic year, the Cleveland Metropolitan School District has adopted the StudentBased Budgeting model. This model budgets funds based upon student enrollment and need to allow greater equity to each scholar, more school autonomy and a portfolio school strategy. Individual funds are separated according to fund source, which Special Cost Centers identify the purpose. Object codes further differentiate spending. The differentiated District budget funds are:

## General Purpose Fund

This is the District's primary operating fund for all financial resources except where otherwise accounted in another fund.

## Federal and State Grant Categorical Funds

These funds are isolated for expenditure of Federal and State grants.

## Special Trust Funds

Both originating from government and private sources, Special Trust Funds are relegated to specific programming or as a supplement to general purpose funds.

Account numbers are made in accordance to the Uniform School Accounting System administered by the Auditor of State.

## Long-Term Financial Planning

The Board of Education has assigned responsibility for annual and long-term financial planning to the Chief Financial Officer/Treasurer. The policies require that the first objective of financial management planning is to provide for the education of the School District's children. We are expected to use the best available techniques for budget development and management, as well as to engage in strategic, longterm financial planning which attempts to forecast the need for future educational and capital expenditures.

The School District prepares a Five Year Forecast along with assumptions prior to October $31^{\text {st }}$ of each fiscal year and updates this forecast between April 1 and May $31^{\text {st }}$ of each fiscal year.

The long-term planning includes consideration of changes in our portfolio of schools, enrollment and demographic patterns as well as potential changes in compensation and fringe benefits.

## Relevant Financial Policies

At the beginning of each fiscal year, the School District adopts either a temporary or permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the School District's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates. All disbursements and transfers of cash between funds require appropriation authority. Budgets are controlled at the fund level. All purchase order requests must be approved by the appropriate levels of authority and certified by the Chief Financial Officer/Treasurer; necessary funds are then encumbered and purchase orders are released to vendors.

The accounting system used by the School District provides interim financial reports which detail year-to date expenditures and encumbrances versus the original appropriation plus and additional appropriations made to date.

Each administrator and school principal has furnished monthly reports showing the status of the budget accounts for which they are responsible. In addition, an on-line inquiry system is available for each cost center site.

The School District pursues an aggressive cash management program by expediting the receipt of revenues and prudently investing and depositing available cash in obligations collateralized by instruments issued by the United States Government, governmental agencies, corporations or the State of Ohio or insured by the Federal Deposit Insurance Corporation (FDIC) and/or the Securities Investor Protection Corporation (SIPC).

Protection of the School District's deposits is provided by the federal deposit insurance corporation and/or by qualified securities pledged by the institution holding the assets. By law, financial institutions may establish a collateral pool to cover all public deposits. The market value of the pooled collateral must equal at least 105 percent of public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and other designated third-party trustees of the financial institutions.

## FY17 Budget Development Process

The District's Budgets and Grants department is comprised of an Executive Director, Directors, Sr. Financial Analysts, and Finance Partners. The Budgets and Grants department is responsible for financial planning, analysis, and ongoing management of District funds.

As required by Ohio law, the District prepares an estimated tax budget for the fiscal year. The tax budget is prepared using the budget template received from the County Budget Commission. The District conducts a public hearing on the proposed tax budget prior to submission to the County Budget Commission. After the public hearing, the Board of Education approves the proposed tax budget through enactment of a resolution. The tax budget package will then be forwarded to the County Budget Commission, who certifies its receipt. The prior year actual ADM, the State biennium budget and estimates from the Dept. of Education are the bases for estimating State Foundation Program revenue.

Using estimated revenues, existing cash balances, and fund balance targets as guides, the District begins developing an annual general operating budget and budgets for grant funds. Developing the general operating budget is comprised of two work streams. The first, which begins in January, involves schools developing budget proposals based on an allocation generated primarily through a student-based budgeting (SBB) formula. The SBB formula, which allocates resources based on unique student characteristics and projected enrollment, includes both general funds, some Title IA funds, and Title IIA funds. The schooldeveloped budget proposals are a reflection of their strategic school designs and academic achievement plans. More information about the SBB formula and process can be found later in this section (may need to change if it is in another section or an Appendix)

The second work stream involves central office administrative and support departments developing budget proposals based on schools' plans, expenditure targets, strategic plans, and investment ideas. These budgets are reviewed by department Chiefs and then merged and iterated upon until the budget target is reached. These activities enable the District to develop a unified budget to foster alignment among schools, central office, and between different funding sources.

The Food Services budget is developed using the same timeline as the general operating budget. For state and federal grants, we develop an estimated appropriation amount based on guidance from the state and federal departments of education, but those budgets are developed on a timeline dictated by the grants. Many of the recurring federal grants, such as Title I, Title II, IDEA, etc. are developed on the same timeline as the general operating budget, though they are amended later in the fiscal year if there is carryover from the prior year.

An FY16-17 appropriation was presented to the Board of Education on June 14, 2016 and approved on June 28, 2016. In between Board meetings, two community events were held to present budget information.

## Student-Based Budgeting

In May 2013, CMSD principals worked with District leaders to design a set of budgeting rules and procedures that would support building-level autonomy as outlined in The Cleveland Plan. Since then, Network Leaders and School Design coaches have implemented CMSD's Portfolio Strategy, the centerpiece of The Cleveland Plan. Their support for principals in academic goal setting, strategic school design and resource reallocation is an integral part of the work. Together, principals and their academic teams are now able to craft academic achievement plans and budgets suited to the unique needs of their students.

CMSD schools now have much larger discretionary budgets - encompassing both General Fund and Titlefunded resources - such that the budgeting endeavor has significantly grown in impact and complexity. School leaders and their administrative teams must familiarize themselves with the SBB guidelines in order to maintain responsibility for autonomous budgeting. Each school's budget partner will be the primary point of contact for helping schools navigate the rules and guidelines that follow. The CMSD Finance Department has developed a set of rules that will help schools spend their discretionary budgets in an effective, responsible and legally compliant manner.

Under the previous budget process:

- There was significant unplanned variation among different schools' per pupil levels of funding.
- Small schools received more (per pupil) than large schools.
- Underutilized schools tended to receive more than those filled to capacity.
- Some schools simply received more because of years-old staffing decisions.
- Schools with higher student need did not necessarily receive more.

Under the student-based budgeting process,

- A more equitable distribution of resources will see all schools funded at a more similar level to one another (per pupil), and remaining differences will be directly tied to student need.
- A more equitable distribution means that some schools will receive more than they did in prior years, while others will receive less.

In Student-Based Budgeting:

- Money follows the student, based on the individual student's need.
- Principals have autonomy to build increasingly diverse and customized budget plans.
- Budget plans are designed to support and reflect that building's academic plan.
- Dollars (rather than staff) are allocated to schools, based on the number of students enrolled.
- Budget needs are weighted using objective, measurable facts about each individual student that are known to drive educational costs.

Essentially, dollars follow the student, based on each student's need.
Weight characteristics and amounts: The previous "one-size-fits-all" approach to school budget allocations has been replaced with the SBB philosophy that it costs a different amount of money to provide an appropriate education for different types of students. Accordingly, schools with the neediest populations are better served with "categorical weights."

The money a school receives on behalf of each student, therefore, is calculated by adding the "base weight" (the amount each student receives) to the "categorical weights" (the special values for which each student qualifies based on his needs):

## Where does the money come from?

Each school will receive the majority of its dollars through Student Based Budgeting and will have discretion to spend those dollars within a set of boundaries. Each school will also receive a small set of non-instructional staff FTEs according to the District's objectives and receive certain grant dollars according to the terms of the grant.

The SBB Pool:

- The total dollar sum that goes directly to schools through the Student Based Budgeting process.
- The sum total of all the resources that schools are responsible for budgeting.

The Non-SBB Pool:

- Money schools continue to receive from state and federal grants.
- Certain staff FTE's according to the District's support plan (staff for which schools are not responsible for budgeting. (Note: Principals still have the ability to interview and staff candidates for some staff positions allocated by central office departments.)

| Type of Resource | In SBB? | Follows the Student? | School Chooses? |  |
| :--- | ---: | ---: | ---: | ---: |
| SBB Pool Dollars |  | Yes | Yes | Yes |
| Grant Dollars | No | Depends on Grant Terms | Sometimes |  |
| Non-SBB Staff Positions |  | No | No | No |

Through investigating multiple years of student achievement data, the SBB Design Team recommended a set of student characteristics that the District should prioritize in directing extra resources to the highest need schools. The Design Team looked for characteristics that were:

- Relevant: The characteristic must represent a real student need that demands more resources to educate.
- Measurable: The characteristic must be indisputably and objectively measurable, so we can all agree on which students qualify for it.
- Student-Based: The characteristic must be linked to an individual student, not a school's decisions, such that any student will trigger the same funding level regardless of which school he or she attends. For this reason, the Design Team chose "incoming" student characteristics (e.g. $8^{\text {th }}$ grade performance for HS students) when possible.

## SY2016-17 SBB Formula

| Student Characteristic | Weight Amount |
| :---: | :---: |
| Foundation Amount for All Students | Unlocked student: \$4,051 <br> Locked student: \$365* |
| Grade Level (K-3 and HS) | $\begin{aligned} & \mathrm{K}-3: \$ 491 \\ & 9-12: \$ 63 \end{aligned}$ |
| Special Education (based on disability type and service model) | CC R/I K8: \$7,959 CC SC K8: $\$ 4,548$ CC R/I HS: $\$ 5,969$ CC SC HS: $\$ 2,558$ |
| ELL (based on LAU code) | LAU A K-8: $\$ 2,314$ <br> LAU A 9-12: \$2,314 <br> LAU B: $\$ 1,928$ <br> LAU B 9-12: \$2,159 <br> LAU C K-8: \$1,542 <br> LAU C 9-12: \$1,928 |
| Below Proficient in Reading (based on 3rd and 8th grade proficiency) | $\begin{aligned} & \text { K8: } \$ 1,500 \\ & \text { HS: } \$ 1,500 \end{aligned}$ |
| Above Proficient in Reading (based on 3rd and 8th grade proficiency) | $\begin{aligned} & \text { K8: } \$ 750 \\ & \text { HS: } \$ 1,500 \end{aligned}$ |
| Attendance (based on students absent $>20 \%$ of days) | HS: \$750 |
| Mobility (based on students who have transferred schools in past year) | K8: \$750 |

*"Locked" refers to students for whom principals do not have discretion over their related resource allocation. These include Pre-K students, students in self-contained gifted and talented settings, and students in low incidence special education classrooms.

## Enrollment Projections \& Fall Adjustments

School-by-school enrollment cannot be measured until the beginning of the school year but budget planning
must begin the previous winter. The District, therefore, relies on projected enrollment figures to apply the aforementioned student weights and generate school budgets and subsequent adjustments once enrollment figures stabilize. Toward that end:

- The District puts a high premium on accurate projection numbers to give schools accurate preliminary budgets and enable targeted planning.
- The District adjusts school budgets in late August/early September in a manner that balances equitable distribution of resources with minimal disruption to existing budgets.
- In November/December of the planning year, the District will calculate estimated enrollment for September of the following school year.
- Enrollment estimates are provided for each school, both in total and for each student subgroup that corresponds to a weighted characteristic (e.g. total students, students by grade, students by Special Education code, etc.).
- The projection method used predicts whether or not a student will remain in a school from one year to the next. It also measures cohort level trends to predict beginning and mid-year entry of students not currently attending a school. These measures are combined to predict the next year's enrollment for each grade in a school.
- This set of raw enrollment projections will be presented to each building principal for review and feedback over a period of 7-10 days. It is each principal's responsibility to suggest revisions to the enrollment projections in order to better estimate the actual enrollment in September of the following year.
- If suggesting revisions, principals must provide justification and documentation for why enrollment will vary from the historical trend. The Academics Office will bear final responsibility for incorporating this feedback into final enrollment projections and ensuring that total projected enrollment is consistent with the District's aggregate growth trajectory and independent third party estimates.
- Once finalized, projected enrollment figures will be used to calculate each school's preliminary budget allocation and will not be changed until September of the following school year.
- The following August/September, the District will generate an enrollment report to assess the actual number of students by school, both in total and for each subgroup included in the SBB formula.
- In pursuit of equity, schools that had been over-projected (i.e., fewer students than projected) will have to reduce their budgets commensurately, which may entail releasing staff positions to necessary transfer.
- Schools in this position will have the flexibility to choose which resources should be removed from the roster (using necessary transfer provisions for staff), pursuant to the autonomy rules outlined in this document.
- Schools that had been under-projected (i.e. more students than projected) will be credited a supplemental budget total and will have the flexibility to choose which resources to purchase, pursuant to the autonomy rules outlined in this document.
- In pursuit of stability, however, school budgets will not necessarily be adjusted to the full extent implied by the difference between projected and actual enrollment. Rather, fall budget adjustments will be capped at $10 \%$ (gain or loss) of a school's initial budget allocation.

## $\underline{\text { Baseline Services and Baseline Supplement }}$

The District is committed to ensuring that schools have enough money to purchase "baseline services" defined as a standard set of resources traditionally present in most CMSD schools. This is the minimum set of services the SBB allocation will provide for all schools, regardless of their size and characteristics. Every school will receive sufficient funds to budget for the following resources. However, principals still have the flexibility to choose how they want to use their budget - they can opt to use it differently than the
baseline definition below.
For K8 schools, a baseline service was defined as follows:

| Category | SY 2016-17 Baseline Policy |
| :---: | :---: |
| Resulting K8 Classroom Teacher Staff Ratio | 26:1 with the following minimums: <br> - 8.0 FTEs if $<275$ students <br> - 11.0 FTEs if 275-300 <br> - 12.0 FTEs if 300-350 <br> - 13.0 FTEs if 350+ |
| K8 Encore Staff Ratio | 5:1 ratio with Classroom Teachers with a minimum of 2.0 FTEs |
| Special Education Teachers | Minimum of 2.0 FTEs |
| Principal | 1.0 FTE |
| School Secretary | 1.0 FTE |
| Instructional Aide, PCIA | 1.0 FTE |
| Supplies, Textbooks, Materials | \$78 per student |
| Subs/Class Coverage | \$2,385 per teacher |
| Class Overage | \$63 per student |
| Differentials <br> (NOW, WAVE, Proficiency Test Consultant) | \$4,280 |

For high schools, a baseline service was defined as follows:

| Category | SY 2016-17 Baseline Policy |
| :--- | :--- |
| HS Teacher Ratio | $26: 1$ ratio; minimum of 13.0 FTEs (unless in a transition status. |
| Principal | 1.0 FTE |
| School Secretary | 1.0 FTE |
| Guidance Counselor | 1.0 FTE |
| Instructional Aide, PCIA | 1.0 FTE |
| Supplies, Textbooks, Materials | $\$ 92$ per student |
| Subs/Class Coverage | $\$ 2,385$ per teacher |
| Class Overage | $\$ 53$ per student |
| Differentials <br> (NOW, WAVE, Proficiency Test Consultant) | $\$ 5,597$ |

Baseline services are provided for all schools, regardless of whether a school's initial SBB allocation (i.e., student enrollment multiplied by student weights) is insufficient to pay for these services. Essentially, the District will add money to the school's allocation, bringing it up to the baseline.

The Finance Department holds a reserve from the SBB Pool sufficient to cover this "baseline supplement", and very small schools are those most likely to fall short of being able to afford "baseline services" on their own. The baseline services listed should therefore be considered appropriate in the context of a small school with 300 students).

## Other Uses of the SBB Pool

The majority of the dollars in the SBB Pool are allocated on a per-pupil basis based on each school's enrollment and student need characteristics and the "baseline supplement" represents one exception to this rule, as some dollars are allocated to small schools in spite of their enrollment and student need
characteristics. A few other small portions of the SBB Pool are reserved for distribution on a different basis:

- Specialty School Allocation: Some schools in CMSD operate unique academic models that are fundamentally more resource-intensive than others. The Portfolio Office makes deliberate choices to offer a diverse array of academic options to all Cleveland students within the practical boundaries of cost and accessibility. A small set of schools in the SY16-17 school year received an allocation of dollars in addition to their SBB allocation to allow the maintenance of these higher-cost academic models, such as Career and Technical Education or Arts programs:

| Model Type | List of Special Purpose Schools |
| :--- | :--- |
| New Tech Models | Collinwood |
|  | New Tech West |
|  | Facing History New Tech |
| CTE <br> Models | MC2STEM |
|  |  |
|  | Cleveland School of the Arts |
|  | Garrett Morgan School of Science |
|  | Jane Addams Business Careers Center |
|  | Washington Park Environmental Studies |
|  | Max S. Hayes High School |
|  | Martin Luther King Jr. Campus |

- New School Transition Funding: On a regular basis, the Portfolio Office introduces new school models to the District. New schools typically require a set of start-up costs different from the operating costs of other schools, such as leadership training, staff professional development, and technology infrastructure investments. Toward this end, the Finance Department will reserve some money based on the approved budgets submitted by each new school. New school transition funding typically spans three or four years, depending on the agreement between the District and the new school's leadership team. The District expects that all new schools will be able to maintain their expenses sustainably on normal SBB dollars after four years of operation. Ten schools will receive new school transition funding next year: Bard High School Early College Cleveland, Cleveland High School for Digital Arts, PACT, E3agle Academy, Cleveland School of the Arts, the three John Marshalls, and two Lincoln Wests.

## The Budget Timeline

The District's fiscal year runs from July to June with the following activities occurring during each fiscal year.

## Fall

- In September, the Ohio Department of Education releases its annual report card data.

## Winter

- All school enrollment projections for the next academic year are released to each school principals by their Financial Partner for the purpose of review, analysis and feedback.
- Following the release of those projections, the Finance, Accountability/Data, Talent and District Communications teams begin the planning process for the following academic year.
- In February, individual school budgets are released to principals and Network Support Team

Leaders for review.

## Spring

- Early March is the start of "Budget Week" with Network Support Team Leaders and principals for Strategic Design Teams and Student-Based Budgeting.
- Final budgets are submitted to the Finance Department.

## Summer

- The Board of Education approves the budget for the next academic year in June.
- End of year data is released to the Finance Department in early July.
- Bi-monthly meetings for enrollment monitoring commence with the Strategic School Design, Student-Based Budgeting and the Talent Division and Accountability/Data Teams.
- The District's year-round schools begin the new academic year on July 25th.
- The Finance Team pulls school enrollment and budget data to review with Network Support Team Leaders.
- In late August, fall adjustment enrollment data is compiled, prorated and adjusted to best meet the needs of all schools to better align with the projected enrollment date of September 30th.

All District purchases are processed through procurement. Purchase orders are created only when funds are available and all authorized approvals are given.

## Budget Management

The Budgets and Grants department provides ongoing budget and expenses management through a team of Finance Partners and Sr. Financial Analysts who are assigned to support individual schools/departments and individual funds, respectively. This matrix team of finance professionals provides ongoing budget-to-actual reporting as well as track personnel expenses, forecast and anticipate school, department, and fund needs, and help resolve issues and concerns.

## Other Sustaining Revenues

The District does not have any other sustaining revenue sources, such as cell towers, partnerships, tuition based programs, alternative schools which generate income, etc.

## Financial Section

This section contains detailed information about past, budgeted, and projected future expenditures. It contains visibility to expenditures at the fund, object, and function level as well as detailed information at the cost center level for the general operating fund budget. There is also a subsection providing greater detail on the capital projects budget.

It is important to note the information contained herein about current and future budgets reflects accurate information known at publication. Individual department budgets will adjust throughout the fiscal year and assumptions about future events will change.

## Major Revenue Sources and Expenditure Drivers

There are certain revenue sources and expenditure drivers that account for a significant portion of District financial activity.

## Revenue

CMSD's revenue derives from a combination of state funds, local sources such as property taxes (and in some cases income taxes) and federal funds. The amount of state funds that CMSD receives is based on a formula that takes into account the student enrollment and the property wealth of the district. The majority of our general operating funds comes from the State of Ohio ( $66 \%$ ). Local sources of revenue account for $32.0 \%$ and other miscellaneous sources (e.g., reimbursements, advances, etc.) account for the balance. State and Federal grants and state construction funding account for the majority of non-general operating revenue.

The Ohio Department of Education's General Revenue Fund budget represents the largest component of CMSD's revenue. These funds, along with profits from the Ohio Lottery are used to fund all of Ohio's 612 public school districts, 49 joint vocational school districts, and approximately 370 public community schools. They also fund the activities of the Ohio Department of Education, including funding for early childhood education, pre-school special education, assessments, and the A-F report card. In addition to state aid through the foundation program, many school districts receive reimbursements payments for lost property tax revenue caused by the phase out of the general business tangible personal property tax (TPP) and the reduction of property tax assessments rates on utility property (KwH). Finally, the state pays $10 \%$ of locally levied property taxes for residential and agricultural real property owners and an additional $2.5 \%$ for homeowners and represents property tax relief to individual property taxpayers in Ohio.

## Expenditures

Across all funds, salary and benefits account for $\sim 50 \%$ of total expenditures with purchased services accounting for another $\sim 33 \%$. Community school (charter) pass-through expenditures and tuition payments to other provides accounts for more than $50 \%$ of the purchased services total, or roughly $18 \%$ of total expenditures. Supplies and materials, capital outlay, and other uses account for the balance.

Excluding pass-through payments to charter schools and other providers, salaries and benefits have historically accounted for $81-85 \%$ of expenditures within the general operating fund over the past few years. As a percent of salaries and wages, fringe benefits costs average around $40 \%$.

## Assumptions Used to Develop Budgets

The following assumptions were used in preparing the District's FY17 budget and five-year forecast.

## Revenue Assumptions

- Cuyahoga County completed its triennial update in 2015. All property tax estimates use current valuation figures.
- On 11/6/12 residents passed a 4 year 15 mill levy with collection beginning January 2013. The levy was re-approved in November 2016 and is included in the operating budget.
- State Funding - House Bill 64, Ohio’s Biennial Budget, was signed into law by Governor Kasich on June 30, 2015. The forecast is using the most recent state budget formula for FY17-21.
- Enrollment - The current enrollment is 54,857, which include CMSD students as well as charter and voucher students. Charter and voucher payments pass through CMSD. The forecast assumes no change from this enrollment for FY17-FY21.

## Expenditure Assumptions

- $60 \%$ of eligible employees will move annually on the differentiated compensation system.
- $2 \%$ increase in wages in FY17 and $0 \%$ in FY18-FY20.
- 230 teacher separations in FY17-20.
- Healthcare rates are forecasted to increase an average of $10.2 \%$ in FY17-FY20.
- $\$ 3.6$ million of strategic investments per year.
- A loss of $\$ 2.5$ million of Title IIA which shifts 27 teachers to the General Fund in FY 16-20
- $\$ 8.5$ million in additional dollars for new schools/school improvements.
- \$16.0 million of continued aggressive fiscal management to gain efficiencies per year in FY16-20.
- No change in charter enrollment for FY17-FY20.

## Changes in Fund Balances

The District has been diligent about monitoring its fund balance. Prior to the levy renewal on November 8, 2016, CMSD was forecasting a negative fund balance in FY2017-18. Following the passage of that levy, CMSD is now projecting a negative fund balance in FY2020-21. We will actively engage district leadership, Board members, and the community in solutions over the coming fiscal years to "right-size" expenses and/or revenue to ensure a healthy fund balance.

## Capital Projects

The capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and
other capital assets.
The individual fund types that make up the capital projects funds are as follows:

- Permanent Improvement Fund
- Classroom Facilities Fund

In 2000, a Facilities Assessment Commission was established to review the condition of the School District's facilities. The Commission recommended that a complete renovation program of all School District facilities be undertaken and that a substantial contribution from the State of Ohio (through the Ohio School Facilities Commission) could be included in the proposed construction and renovation plan by participation in the Classroom Facilities Assistance Program (CFAP).

The approval of a bond issue and tax levy by the voters on May 8, 2001, made the School District eligible for participation in the programs of the Commission. Those programs provide assistance to Ohio school Districts in the assessment of a school District's facilities and funding for a portion of the cost of upgrading school District facilities by renovating or constructing new facilities. Since passage of the bond issue, the School District and the Commission have worked together to create, and the Board and the State have approved, a Master Facilities Plan for the construction, renovation and acquisition of classroom facilities (the Project) currently estimated to cost $\$ 1.2$ billion in the aggregate, not including over $\$ 193$ million of locally funded initiatives (i.e., permanent improvements the costs of which are not matched by State contributions).

The Project is divided into nine overlapping "segments." The cost of each segment is to be borne by the State and District in the same proportion - $68 \%$ by the State and $32 \%$ by the District. Before the State will agree to fund its share of a given segment of the Project, the District must produce its full share of the cost of that segment. Appropriations for the State's share of a given segment of the Project are made on a fiscal biennium basis, with the Commission determining biennial amounts on the basis of the District's estimated construction schedule. The Revised Code and the Commission's regulations require that any increase in costs above the amount agreed to and budgeted be paid first from interest earned and available in the construction fund and then borne by the State and the District in the same proportion as the initial cost.

## Construction Segments

To date, the District has entered into seven segment agreements with the Commission. These seven segments are currently estimated to cost, and to be funded with District and State dollars, as follows:

| Segment | Total Cost | District Share | State Share |
| :--- | ---: | ---: | ---: |
| One | $\$ 218,634,101$ | $\$ 69,962,912$ | $\$ 148,671,189$ |
| Two | $99,998,886$ | $31,999,644$ | $67,999,242$ |
| Three | $132,209,511$ | $42,307,043$ | $89,902,468$ |
| Four | $135,924,569$ | $43,495,862$ | $92,428,707$ |
| Five | $192,775,685$ | $61,688,219$ | $131,087,465$ |
| Six | $32,401,145$ | $10,368,366$ | $22,032,779$ |
| Seven | $184,748,258$ | $59,119,443$ | $125,628,815$ |

The first, second, third, fourth and fifth segments of the Project have been substantially completed, and included the following improvements at the following costs (including, in all cases, both the District's share of the cost and the State's share of the cost), as of June 30, 2016.

## Segment One

| Building(s) | Type of Improvement | Approximate Cost |
| :--- | :--- | ---: |
| Districtwide Buildings | Heating and Safety Repairs | $\$ 53.7$ million |
| Andrew J. Rickoff (K-8) Elementary School | New Construction | 17.5 million |
| East High School; Gymnasium Addition | Addition | 6.3 million |
| John Adams (K-8) Elementary School | New Construction | 16.5 million |
| John Adams High School | New Construction | 37.5 million |
| John Hay High School | Renovation | 35.4 million |
| SuccessTech Academy (9-12) | Renovation | 6.1 million |
| Memorial (K-8) Elementary School | New Construction | 15.0 million |
| Riverside (K-8) Elementary School | New Construction | 12.3 million |
| Warner Road (K-8) Elementary School Site | Abatement/Demolition | 0.3 million |
| Woodhill Quincy Administration Center Site | Abatement/Demolition | 0.7 million |
| Miscellaneous Improvements |  | 15.5 million |
| Security Enhancements |  | 1.8 million |
| Total |  | $\$ 218.6$ million |

## Segment Two

| Building | Type of Improvement | Approximate Cost |
| :--- | :--- | ---: |
| Warner Road (K-8) Elementary School | New Construction | $\$ 15.3$ million |
| Mound (K-8) Elementary School | New Construction | 0.1 million |
| Daniel E. Morgan (K-8) Elementary School | New Construction | 13.1 million |
| Mary B. Martin (K-8) Elementary School | Renovation | 9.0 million |
| Franklin D. Roosevelt (K-8) Elementary School | Renovation | 15.4 million |
| Hanna Gibbons (K-8) Elementary School | New Construction | 10.2 million |
| Mary M. Bethune (K-8) Elementary School | Renovation/Addition | 9.8 million |
| Max S. Hayes Vocational High School | New Construction | 0.8 million |
| Thomas Jefferson (K-8) Elementary School | Swing Space Related to New <br> Construction | 0.2 million |
| Willson (K-8) Elementary School | New Construction | 0.4 million |
| James Ford Rhodes High School | Renovation | 24.8 million |
| Miles Park @ Moses Cleaveland (K-8) <br> Elementary School | New Construction | 0.4 million |
| New West Side High School | Swing Space Related to | 0.5 million |
| Total |  | $\mathbf{\$ 1 0 0}$ million |

## Segment Three

| Building | Type of Improvement | Approximate Cost |
| :--- | :--- | ---: |
| Artemus Ward (K-8) Elementary School | New Construction | \$13.8 million |
| Willson (K-8) Elementary School | New Construction | 14.9 million |
| Harvey Rice (K-8) Elementary School | New Construction | 16.0 million |
| Wade Park (K-8) Elementary School | New Construction | 15.1 million |
| East Clark (K-8) Elementary School | New Construction | 14.2 million |

| Building | Type of Improvement | Approximate Cost |
| :--- | :--- | ---: |
| Patrick Henry (K-8) Elementary School | New Construction | 15.8 million |
| Buhrer (K-8) Elementary School | New Construction | 13.1 million |
| Charles A. Mooney (K-8) Elementary School | New Construction | 0.3 million |
| Garfield (K-8) Elementary School | New Construction | 14.8 million |
| New West Side High School | Architectural Design for New <br> Construction | 0.6 million |
| Robinson G. Jones (K-8) Elementary School | New Construction | 13.6 million |
| Total |  | $\mathbf{\$ 1 3 2 . 2}$ million |

## Segment Four

| Building | Type of Improvement | Approximate Cost |
| :--- | :--- | ---: |
| Adlai Stevenson (K-8) Elementary School | New Construction | \$14.7 million |
| Anton Grdina (K-8) Elementary School | New Construction | 15.9 million |
| Audubon (K-8) Elementary School | New Construction | 0.3 million |
| Charles Dickens (K-8) Elementary School | New Construction | 14.0 million |
| Charles H. Lake (K-8) Elementary School | New Construction | 1.7 million |
| Euclid Park (K-8) Elementary School | New Construction | 13.6 million |
| George W. Carver (K-8) Elementary School | New Construction | 14.4 million |
| Mound (K-8) Elementary School | New Construction | 13.4 million |
| Nathan Hale (K-8) Elementary School | New Construction | 13.1 million |
| Robert H. Jamison (K-8) Elementary School | New Construction | 14.6 million |
| Thomas Jefferson (K-8) Elementary School | New Construction | 18.5 million |
| Corlett Elementary School | Demolition (for the Charles <br> Dickens (K-8) Elementary <br> School) | 0.7 million |
| Moses Cleaveland Elementary School | Demolition (for the Robert H. <br> Jamison (K-8) Elementary <br> School) | 1.0 million |
| Total |  |  |

## Segment Five

| Building | Type of Improvement | Estimated Cost |
| :--- | :--- | ---: |
| Almira (K-8) Elementary School | New Construction | $\$ 15.9$ million |
| Charles Mooney (K-8) Elementary School | New Construction | 0.3 million |
| Forest Hill (K-8) Elementary School | New Construction | 0.6 million |
| John Marshall (9-12) High School | New Construction | 46.3 million |
| Louisa M Alcott (K-8) Elementary School | Renovation | 6.3 million |
| Max Hayes (9-12) High School | New Construction | 38.6 million |
| Miles (K-8) Elementary School | New Construction | 17.3 million |
| Orchard (K-8) Elementary School | New Construction | 16.1 million |
| Paul Dunbar (K-8) Elementary School | New Construction | 15.8 million |
| Cleveland School of the Arts (9-12) High New Construction | 33.5 million |  |
| School |  |  |

| Building | Type of Improvement |  |
| :--- | :--- | ---: |
| West Side Relief High School | New Construction | Estimated Cost |
| Shuler @ Hawthorne | Renovation | 0.6 million |
| AG Bell | Demolition | 1.0 million |
| Total |  | 0.5 million |

The sixth segment was recently amended by the Board of Education and the State of Ohio, and the School District has set aside its share of the cost of that segment. The estimated completion date of this segment is December 2016. The elements of this segment include the following:

## Segment Six

| Building | Type of Improvement | Estimated Cost |
| :--- | :--- | ---: |
| Albert B. Hart (K-8) Elementary School | Demolition | $\$ 0.8$ million |
| Alexander Hamilton (K-8) Elementary School | Demolition | 0.5 million |
| Campus International Elementary School | New Construction | 21.4 million |
| Emile B. DeSuaze Elementary School | Demolition | 1.2 million |
| Giddings Elementary School | Demolition | 1.3 million |
| Gracemount (K-8) Elementary School | Demolition | 0.3 million |
| John Raper (K-8) Elementary School | Demolition | 0.4 million |
| John D. Rockefeller Elementary School | Demolition | 1.1 million |
| Louis Pasteur (K-8) Elementary School | Demolition | 0.4 million |
| Robert Jamison Elementary School | Demolition | 2.7 million |
| Stephen Howe (K-8) Elementary School | Demolition | 0.2 million |
| Union Elementary School | Demolition | 1.3 million |
| William Rainey Harper Elementary School | Demolition | 0.4 million |
| Wilson Middle School | Demolition | 0.4 million |
| Total |  | $\mathbf{\$ 3 2 . 4}$ million |

The seventh segment was recently amended by the Board of Education and the State of Ohio, and the School District has set aside its share of the cost of that segment. The estimated completion date of this segment is December 2017. The elements of this segment include the following:

## Segment Seven

| Building | Type of Improvement | Estimated Cost |
| :--- | :---: | ---: |
| Buckeye-Woodland Elementary School | Demolition | $\$ 0.3$ million |
| Charles Eliot (PreK-8) Elementary School | New Construction | 14.0 million |
| Fullerton (PreK-8) Elementary School | New Construction | 14.0 million |
| H. Barbara Booker (PreK-8) Elementary School | New Construction | 14.3 million |
| Halle Elementary School | Demolition | 0.3 million |
| Henry Longfellow | Demolition | 0.4 million |
| Jessie Owens Elementary School | Demolition | 0.3 million |
| John F. Kennedy High School | New Construction | 35.8 million |
| Max Hayes High School (old site) | Demolition | 2.3 million |
| Mt. Pleasant Elementary School (A.J. Rickoff swing space) | Demolition | 1.3 million |

| Building | Type of Improvement | Estimated Cost |
| :--- | :--- | ---: |
| Oliver Hazard Perry (K-8) Elementary School | Demolition | 0.7 million |
| Oliver Hazard Perry (K-8) Elementary School | New Construction | 14.3 million |
| Paul Revere Elementary School* | Demolition | 0.6 million |
| Skyline (PreK-8) Elementary School | New Construction | 22.6 million |
| Waverly Elementary School | Demolition | 0.5 million |
| Waverly Elementary School | New Construction | 15.5 million |
| West Side High School | New Construction | 32.6 million |
| Whitney Young | Demolition | 0.9 million |
| William Rainey Harper (PreK-8) Elementary School | New Construction | $\mathbf{1 4 . 0}$ million |
| Total |  | $\mathbf{\$ 1 8 4 . 7}$ million(a) |

## Segment Eight

| Building | Type of Improvement | Estimated Cost |
| :--- | :--- | ---: |
| Bolton (PreK-8) Elementary School | New Construction | $\$ 15.0$ million |
| Case (PreK-8) Elementary School | New Construction | 15.0 million |
| Charles Eliot Elementary School | Demolition | 1.2 million |
| Fullerton Elementary School | Demolition | 0.4 million |
| John F. Kennedy High School | Demolition | 2.6 million |
| Lincoln-West High School | New Construction | 44.9 million |
| Marion Sterling (PreK-3) Elementary School | New Construction | 13.0 million |
| Newton D. Baker (PreK-8) Elementary School | New Construction | 16.6 million |
| Oliver Hazard Perry (K-8) Elementary School | Demolition | 0.8 million |
| Sunbeam Elementary School | Demolition | 0.6 million |
| Valley View (PreK-8) Elementary School | New Construction | 15.2 million |
| Whitney Young School | Demolition | 1.0 million |
| Total |  | $\mathbf{\$ 1 2 6 . 3}$ million |

## Segment Nine

| Building | Type of Improvement |  |
| :--- | :--- | ---: |
| Clark (PreK-8) Elementary School | New Construction | \$20.5 million |
| Denison (PreK-8) Elementary School | New Construction | 16.2 million |
| Iowa-Maple (PreK-3) Elementary School | New Construction | 15.9 million |
| Marion C. Seltzer (PreK-3) Elementary School | New Construction | 15.7 million |
| Michael R. White (PreK-8) Elementary School | New Construction | 16.2 million |
| Tremont (PreK-8) Elementary School | New Construction | 19.8 million |
| Various Demolition Projects | Demolition | 0.5 million |
| Total |  | $\mathbf{\$ 1 0 5 . 0}$ million |

In May of each year, the Commission adjusts its construction cost calculator to reflect inflationary growth in Ohio construction for the previous year. Each future segment of the Project will have the construction budget adjusted to reflect inflationary growth.

To date, the District has funded its obligations relating to the Project in large part through the issuance of securities pursuant to the aforementioned voter approval in May 2001 and November 2014. Specifically, the following principal amounts of voter-approved securities have funded the District's obligations with respect to the following segments of the Project, to date:

| Segment 1 | Segment 2 | Segment 3 | Segment 4 | Segment 5 |
| :--- | :--- | :--- | :--- | :--- |

The principal amounts shown above for the first three segments are less than the respective District shares because other available funds were also used. District contributions to segments in excess of ultimately required amounts are returned to the District and applied to future segments or LFIs.
$\$ 127,994,063$ of voter-approved securities (not including any portion of the Bonds) have been allocated to locally funded initiatives (LFIs), which do not qualify for State matching funds. LFIs include real estate acquisition, auditorium improvements, enhanced use of brick and sloped roofs, and additional square footage renovations beyond what the OSFC will co-fund. As mentioned above, completed and currently planned LFIs are expected to ultimately cost more than $\$ 190,000,000$.

## Revenue, Expenditure, and Fund Balance Detail for All Funds

The section contain detailed information about fund-level expenditures, budgets, projections, and fund balances. It begins with the aggregate view of revenue and expenditures, by object and function, for all funds combined. This is followed by a detailed view of all individual funds, beginning with the operating fund and then the other individual funds. This section concludes with the presentation of fund balances by fund. The Appendix contains additional detailed information about individual school and department cost centers within the general operating fund.

All Funds
The following table represents all aggregate revenues \& expenditures of The District from all funds.

|  | FY 2013 Actual | $\text { FY } 2014$ Actual | FY 2015 Actual | $\text { FY } 2016$ Actual | FY 2017 Budget | FY 2018 Forecast | FY 2019 Forecast | FY 2020 Forecast |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Individual Funds

## Bond Retirement Fund (002)

A fund provided for the retirement of serial bonds and short term notes and loans. All revenue derived from general or special levies, either within or exceeding the ten-mill limitation, which is levied for debt charges on bonds, notes, or loans, shall be paid into this fund.

## Building Fund (004)

A fund used to account for the receipts and expenditures related to all special bond funds in the District. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

## Special Trust Fund (007)

The special trust fund may be classified as a special revenue, permanent, or a private purpose trust fund. A special revenue fund should be used if the original contributions can be expended for school district programs. A permanent fund should be used if the only the earnings on the original proceeds can be expended and not the principal. If the original contribution, whether required to be kept intact or not, and the earnings do not support the school District's programs, then the fund will be classified as a private purpose trust fund.

## Public School Support Fund (018)

A fund provided to account for specific local revenue sources, other than taxes or expendable trusts (i.e. profits from vending machines, sales of pictures, etc.), that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases.

## Liability Self-Insurance Fund (023)

This fund should have the self-insurance money deposited in it and all appropriate self-insurance payments made from it. The Self-Insurance Fund may be a fund that serves a pool of participating local governments or a pool of funds within a given local government. The Self-Insurance Fund does not require permission of the Auditor of State for establishment. The Board of Education should establish the fund by resolution.

## Employee Benefits Self-Insurance Fund (024)

A fund provided to account for monies received from other funds as payment for providing medical, hospitalization, life, dental, vision, or any other similar employee benefits. The Employee Benefits Self-Insurance Fund may make payments for services provided to employees, for reimbursements to employees who have paid providers, to third party administrators for claim payment or administration, for stop-loss coverage or for any other reinsurance or other similar purposes.

## Straight A. Earmark Fund (466)

This fund accounts for grant monies received through the Straight A Program. These grant monies are restricted for projects that will provide for advancement in student achievement, achieve spending reductions in the five-year forecast or allow a greater share of resources to be utilized in the classroom.

## Title III - Limited English Proficiency Fund (551)

Funds to develop and carry out elementary and secondary school programs, including activities at pre-school level, to meet the educational needs of children of limited English proficiency. These programs provide structured English language instruction, with respect to the years of study to which the program is applicable, and instruction in the child's native language to the extent necessary to allow a child to achieve competence in English. The instruction must incorporate the cultural heritage of these children and of other children in American society. The instruction must be, to the extent necessary, in all courses or subjects of study which will allow a child to meet grade promotion and graduation standards.

## Fund Balances

The follow table identifies historical and forecasted fund balances by fund. With the exception of the Operation Fund ( 001 ), all of the negative fund balances are attributed to the timing of outstanding receivables. Most grants, funds 400-599, operate on a reimbursement basis so CMSD has expenses and encumbrances during the fiscal year with reimbursement in the next year. The negative fund balance in Fund 19 is because of an outstanding receivable for services provided to a community (charter school).

The forecasted negative fund balance in the general fund will be address through some combination of additional revenue (e.g., a levy) or managed reduction in expenditures. By statutes, CMSD cannot submit a five-year forecast to the State of Ohio with a negative fund balance in the current fiscal year.

## Debt Obligations

The District has issued/refunded the following debt over the past years:

- On June 10, 2015, the School District issued $\$ 200,000,000$ of General Obligation School Improvement Bonds consisting of $\$ 150,800,000$ of Tax Exempt School Improvement Bonds, Series 2015A and $\$ 49,200,000$ of Federally Taxable Qualified School Construction Bonds, Series 2015B bearing interest at the rate of $2.00 \%-5.02 \%$ per annum. The premium received on this bond issue was $\$ 9,277,561$ and after deducting the bond issuance costs, $\$ 8,500,106$ was transferred to the Debt Service Fund. Issue 4, which was approved by voters on November 4, 2014, will allow for construction of 20-22 new schools and the refurbishing of 20-23 schools. This debt will be retired from the Debt Service Fund.
- On January 9, 2014, the School District issued $\$ 10,525,000$ of School Improvement Refunding Bonds, Series 2014, at a true interest cost of approximately 3\%. Proceeds of this bond issue (including a portion of the original issue premium), together with $\$ 6,124,354$ of cash on hand in the District's bond retirement fund, for a total of $\$ 16,913,400$ was deposited in an escrow fund that is being used ultimately to pay principal of and interest on $\$ 10,789,045$ in aggregate principal amount of certain of the District's School Improvement Bonds, Series 2004, through June 1, 2014, the date of optional early redemption of those series 2004 Bonds. As a result, those Series 2004 bonds were defeased and considered no longer outstanding for purposes of the School District's direct debt limitations. This refunding transaction resulted in a reduction in future debt of $\$ 7,643,843$, equivalent to then-present values savings (at the time of sale of the Refunding Bonds) of $\$ 7,175,176$, which, after deducting contributions to the escrow fund from sources other than the proceeds of the Refunding Bonds, yielded net present value savings of approximately $\$ 1,050,822$.
- On January 29, 2013, the School District issued \$45,600,000 of School Improvement Refunding Bonds, Series 2013, at a true interest cost of approximately $3 \%$. Proceeds of this bond issue (including a portion of the original issue premium), together with $\$ 12,000,000$ of cash on hand in the District's bond retirement fund, for a total of $\$ 63,366,472.36$, was deposited in an escrow fund that is being used ultimately to pay principal of and interest on $\$ 59,020,000$ in aggregate principal amount of certain of the District's School Improvement Bonds, Series 2004, through June 1, 2014, the date of optional early redemption of those Series 2004 Bonds. As a result, those Series 2004 Bonds were defeased and considered no longer outstanding for purposes of the District's direct debt limitations.
- On January 11, 2012, the School District issued $\$ 20,855,000$ of School Improvement Refunding Bonds, Series 2012, at a true interest cost of approximately $3 \%$. Proceeds of this bond issue (including a portion of the original issue premium), together with $\$ 8,000,000$ of cash on hand in the District's bond retirement fund, for a total of $\$ 29,998,078$, was deposited in an escrow fund which will be used to pay principal of and interest on $\$ 28,600,000$ in aggregate principal amount of certain of the District's Various Purpose Improvement and Refunding Bonds, Series 2002, through December 1, 2012, the date of optional early redemption of those Series 2002 Bonds. As a result, those Series 2002 Bonds were defeased and considered no longer outstanding for purposes of the District's direct debt limitations.
- On December 21, 2010, the School District utilized cash on hand to defease $\$ 14,675,000$ principal amount of outstanding 2002 School Facilities Improvement Bonds. The School District placed $\$ 15,848,185$ from the debt service fund in an escrow account which was used to pay principal and interest on the defeased bonds. As a result, the bonds are considered defeased and the liability for
those bonds was removed from long-term debt. The defeasance will result in a reduction in future debt service of $\$ 25,172,925$.
- On September 29, 2010, the School District issued $\$ 55,000,000$ of School Improvement Bonds, bearing interest at the rate of $5.20 \%$ per annum. The series 2010 bond issue is the third long term financing bond issue related to the School District's participation in the Ohio School Facilities Assistance Program. The District made mandatory sinking fund payments to an escrow fund, which is part of the District's Bond Retirement Fund, held by The Bank of New York Mellon Trust Company, N.A., as escrow agent, in the amount of $\$ 3,235,294$ on December 1st of each year starting in 2010, reducing the outstanding principal amount of this series of bonds by that aggregate amount pursuant to Sections 133.01 and 133.04 of the Revised Code.
- On July 12, 2001, the School District entered into a 15 -year installment payment agreement with Citicorp North America, Incorporated for $\$ 11,500,000$, bearing interest at the rate of $5.20 \%$ per annum. The proceeds will be used for the purpose of renovating and otherwise improving environmental controls at school facilities. This agreement was made in accordance with Ohio H.B. 264 and is therefore exempt from the debt limit set by Ohio bond statute. This debt will be retired from the General Fund.
- In fiscal year 2014, the School District entered into an agreement to lease 225 buses. The cost of this lease was $\$ 19,068,000$. This agreement is, in substance, a lease purchase (capital lease) and is classified as a long-term lease obligation in the financial statements. $\$ 17,929,613$ was added to vehicles and equipment.

In addition to the Bond Amortization schedule, which identifies bond repayment through the Debt Service fund (002), we also have $\$ 555,250$ budgeted on the General Operation fund ( 001 ) for FY17 to repay bonds and interest expense for projects related to energy conservation.

## Current Debt Obligations

| Fiscal Year | General Fund |  |  | Debt Retirement |  |  |

| 2050 |  |  |  | \$6,315,000 | \$134,194 | \$6,449,194 |

## Debt Levels vs. Legal Debt Limits

Based on the existing debt margins, the existing debt of the District will have little impact on future budgets. There are two different types of debt limits under Ohio Revised Code:

- Voted Debt Limit - may not exceed $9 \%$ of total tax assessed valuation.
- Un-voted Debt Limit - may not exceed $1 / 10$ of $1 \%$ of total tax assessed valuation.

The following calculations identifies the debt limit and debt margin for each type of debt:

| Debt Margins By Debt |  |
| :---: | :---: |
| Voted Debt Margin |  |
| Assessed Valuation (Tax Year 2015) | \$ 4,649,573,350 |
| Rate | 9\% |
| Total Voted Debt Limit | 418,461,601 |
| Less: Amount of Debt Applicable | $(267,828,236)$ |
| Total Voted Debt Leeway within 9\% debt limitation | \$ 150,633,365 |
|  |  |
| Un-voted Debt Margin |  |
| Assessed Valuation (Tax Year 2015) | \$ 4,649,573,350 |
| Rate | 0.10\% |
| Total Un-voted Debt Margin | 4,649,573 |
|  |  |
| Less: Amount of Debt Applicable | - |
| Total Un-voted Debt Leeway within $\mathbf{1 / 1 0}{ }^{\text {th }}$ of $\mathbf{1 \%}$ debt limitation | \$4,649,573 |

## Classification of Fund Balances (GASB 54)

Fund Balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

- Nonspendable: The nonspendable fund balance category included amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.
- Restricted: Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.
- Committed: The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the Board of Education, separate from the authorization to raise the underlying revenue; therefore, compliance with these restraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
- Assigned: Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amount represents intended uses established by the Board of Education or the Chief Financial Officer which has been delegated that authority by the CEO.
- Unassigned: Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for a specific purpose for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

## Informational Section

## Informational Section

## Taxable Property

## Tax Base

Per the Ohio Revised Code, property is grouped into three separate categories and assessed a tax rate based on the grouping. The Ohio Revised Code defines the following classifications:

## Class I Real Estate Property

- Agricultural Property - Land and improvements used for agricultural purposes.
- Residential Property - Land used and occupied by one, two, or three families.

## Class II Real Estate Property

- Commercial Property - The land and improvements to land which are owned or occupied for general commercial and income producing purposes and where production of income is a factor to be considered in arriving at true value, including, but not limited to, apartment houses, hotels, motels theaters, office buildings, warehouses, retail and wholesale stores, bank buildings, commercial garages, commercial parking lots, and shopping centers.
- Mineral Property - Land, and the buildings and improvements thereon, used for mining coal and other minerals as well as the production of oil and gas including the rights to mine and producing such minerals whether separated from the fee or not.
- Industrial Property - The land and improvements to land used for manufacturing, processing, or refining foods and materials, and warehouses used in connection therewith.

## Tangible Personal Property and Public Utility

- Tangible Personal Property - Prior to CY 2009, all machinery, inventory, furniture, fixtures and other equipment used in the course of conducting business was classified as Tangible Personal Property, included in the school District's assessed values and taxed accordingly. The tax rate for this type of property has been reduced over the years from a high of $88 \%$ in the 1960 's to $23 \%$ in CY05. House Bill (H.B.) 66 dramatically changed the phase-out of inventory taxes by reducing the tangible property tax assessment rate to $18.75 \%$ in CY06, $12.50 \%$ in CY07, $6.25 \%$ in CY08 and down to zero in CY09. H.B. 66 completely phased out tangible taxes on machinery, equipment, furniture and fixtures by the same rates used for the inventory phase-out, which prior to H.B. 66 were not scheduled to be reduced. The telephone tangible personal property tax assessment rate was reduced by $20 \%$ in CY07 and $5 \%$ each additional year until it was eliminated in CY11.
- Public Utility - Personal Property - Public utility companies, including electric, natural gas, pipelines, water works, water transportation, heating and telegraph companies are taxed (with a few exceptions) on all tangible personal property. The percent of true value at which this type of property is taxed varies according to the type of public utility. This taxable property is called public utility-personal property. This is now the only type of personal property that remains subject to taxation.

Within the last decade, there has been a substantial change in the District's tax base. As noted above, a large
portion of the tax base, tangible personal property, was eliminated and the recession of 2008 caused a reduction in residential and commercial property values. The illustrations below detail the effect of these factors have had on the District.

## Taxable Value

The taxable value of property is also referred to the assessed valuation of property. This value is derived by taking the $35 \%$ of the market value of the property. The market value of a piece of property is set by the County Auditor and is only adjusted every three years during the County Re-appraisal (occurs once every six years) or Triennial Update (occurs once every six years, three years after re-appraisal).

Tax Years: 2004-2015 Actuals; 2016-2020 Projected
Re-appraisal years: 2006, 2012, 2018
Triennial update years: 2009, 2015
Historic and Projected Assessed Valuations

| Tax Year | Class I | Class II | TPP | P.U. Personal | Total |
| :--- | :--- | :--- | :--- | :--- | :--- |
| 2004 | $\$ 2,759,134,570$ | $\$ 2,248,242,500$ | $\$ 677,486,600$ | $\$ 357,602,410$ | $\$ 6,042,466,080$ |

Property Tax Rates
With the exception of the passage of new levies, the only changes made to the tax rates annually are a result of House Bill 920, which adjusts millage rates to only generate the level of income that was established when the property tax levy was passed. As valuations continue to increase, the County Auditor's office has had to decrease the millage rate to bring in the same level of revenue as the previous year.

Real Estate Property Homestead and Rollback Exemptions - The Ohio Revised Code provides for two tax relief measures known as rollback. The $10 \%$ rollback exemption grants most residential and agricultural property owners to a $10 \%$ reduction credit on their tax bill. The owner occupied rollback is an additional $2.5 \%$ rollback reduction credits on tax bills of owner-occupied properties. In 2013, the state legislature eliminated the homestead and rollback exemption for any levy passed after July 1, 2013. This legislation will not affect any existing levy the District is currently collecting on.

There is also a $\$ 25,000$ Homestead Exemption that is granted to the residential property owners that meets certain age and/or disability requirements. The State of Ohio makes a payment to the school District twice a year to reimburse school Districts for the homestead and rollback credits issued to property owners during the tax year.

Total Rates and Effective Tax Rates

| Tax Year | 2011 | 2012 | 2013 | 2014 | 2015 |

## H.B. 920 Limitations on Tax Collections

In 1976, H.B. 920 was passed into law and later became part of an amendment to Ohio Constitution. Under this law, a property tax levy's millage rate is adjusted so that taxpayers, as a whole, pay no more in taxes for a property levy as they did when it was passed into law. As property values rise, the millage rate for a tax levy is reduced to ensure the levy only collects the amount it did when it was passed by the voters. However, if property values decrease, the millage rate for a property tax levy never be increased to a rate higher than it was when it was voted into law. This is called the voted millage rate. If a property tax levy reaches the voted millage, it will permanently bring in less than the amount when it was passed into law.

Inside Millage is the only type of property tax millage that is exempt from H.B. 920. The State of Ohio's Constitution allows for all local governments within a political subdivision to be allocated 10 mills without a vote of the people. The allocation each local government receives can vary between political subdivisions and is documented in the local government's charter.

Calculation of Property Tax Rates - In Ohio, a school District's property tax rate is computed in mills. One property mill is equal to $1 / 1000$ of a dollar, and therefore a property owner pays $\$ 1.00$ for every $\$ 1,000$ of their property's taxable value. For levies passed prior to July, 1 2013, homeowners get a $10 \%$ credit on residential property and an additional $2.5 \%$ credit for an owner occupied home. The following calculations are examples of school District only related property taxes for an owner-occupied property with a market value of $\$ 100,000$ for tax years 2010 through 2015.

Tax Collection Rates and Delinquent Tax Collections - For Class I - Residential Property, Class II Commercial and Industrial Property and Public Utility the District has had an average collection rate over the last five years of $86.6 \%$. Calendar year 2015 had a collection rate of $86.3 \%$ and is the forecast for the current and projected years.

The actual collection rate for both of these classes of property will not only affect the current year tax revenues, but it will also affect the future year's revenues when the delinquent taxes are collected. The District tracks this information on an annual basis and uses it as a factor when making future year tax projections. Listed in the tables below are the historic and projected collection rates and delinquency collections for the District.

The collection rates in the table above have been adjusted to take into consideration the refund of taxes to property tax owners due to reductions in values granted by the County Board of Revisions or the State Board of Tax Appeals. When refunds are issued to property tax owners, the refund is adjusted against the current tax collections. As a result, without this adjustment the current collection rate could be understood.

## Class I and Class II Real Estate Billed and Collections

| Collection <br> Year | Current <br> Amount <br> Billed | Current <br> Amount <br> Collected | Current <br> Collection <br> Rate | Prior Year <br> Delinquencies <br> Collected | Refunds and <br> Other <br> Adjustments | Total <br> Collected | Gross <br> Collection <br> Rate |

## Student Enrollment

## Enrollment Prediction Model

CMSD utilizes an Enrollment Prediction Model (EPM) for projecting future grade-by-grade enrollment. EPM consists of three distinct parts. The first part captures the idea of student retention. It predicts whether a student in a school returns to that school in the following year. The second part captures the idea of midyear entry. It predicts how many new students that arrive mid-year will stay in a school for the following year. The third and final part predicts the number of students arriving in entry grades (PreK, KG, and $9^{\text {th }}$ grade). The combination of these three parts is the projection of a school's future enrollment.

## Student Retention

The student retention portion rests on the idea that student and school characteristics are related to whether or not a student that begins the year in a school will return to that school in the following year. The types of characteristics EPM considers are:

Student Level Factors:

- Number of transfers
- Attendance rate
- English Language Learner status
- Special Education status

Building Level Factors:

- Percent feeling safe (from previous year CFL)
- Previous year performance index Score
- Number of District and charter schools within 1 mile serving similar grades
- Building age

## Incoming Students

The number of students that arrived mid-year and finish the school year in a building are assumed to return for the following year.

## Entry Grades

The number of students arriving in entry grades (Pre-K, K , and $9^{\text {th }}$ grade) is based on the number of students currently in that grade in a school, in addition to historical trends.

## Staff / Personnel Allocations

CMSD employees a broad range of different professionals to provide educational services to students, supports to educators, and administrative and operational services. Generally speaking, changes in staffing is tied closely with enrollment fluctuation. The increase in teachers from FY13 to FY14 is due to being able to restore some positions because of the passage of an operating levy in November 2012.

Free or Reduce-Price Meals
With a dedicated staff of over 350 , Food and Child Nutrition Services serves approximately 18,670 breakfasts per day and 29,400 lunches per day for a daily total of 48,070 meals per day. For the last several years CMSD has participated in the USDAs Community Eligibility Option. This program allows all students to receive breakfast and lunch at no cost regardless of family size or income.

Graduation Rates and Counts
School Year 2016 graduation rates and counts are not available at the time of publication.

## Glossary of Terms and Acronyms

Actual - The amount spent in the last complete fiscal year.
Agricultural Property - Land and improvements used for agricultural purposes.
Allocation - The process by which staffing and other resources are given to each individual school based upon factors such as enrollment, types of programs, and other identified needs of school.

Appropriation- Authority to spend money within a specified dollar limit for an approved work program during a fiscal year.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amount represents intended uses established by the Board of Education or the Chief Financial Officer which has been delegated that authority by the CEO.

Board of Education - elected board, created according to State law and vested with the responsibilities for educational activities within a geographical area, who establish policies, hires a superintendent and governs the operations of a school District.

Bond - a written promise, generally under seal, to pay a specific sum of money, called the face value, at a fixed time in the future, called the date of maturity and carrying interest at a fixed rate, usually payable periodically.

Budget - A plan of financial operation including an estimate of proposed expenditures for a given period.
Budgeted Funds - The money available to the school included in the operating budget of the system that is component of all fiscal resources.

Capital Budget - A plan of proposed capital expenditures and the means of financing them. The capital budget is usually enacted

Capital Outlay - includes, but not limited to, new and replacement equipment such as furnishing additional classrooms, additional computers, replacement band uniforms, purchase of buses and maintenance of vehicles.

Capital Projects Funds - Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Classification of Property - Per the Ohio Revised Code, property is grouped into three separate categories and assessed a tax rate based on the grouping.

Classified- Support service employees of the public school system (clerical, maintenance, custodial, etc.)
Commercial Property - The land and improvements to land which are owned or occupied for general commercial and income producing purposes and where production of income is a factor to be considered in arriving at true value, including, but not limited to, apartment houses, hotels, motels theaters, office buildings, warehouses, retail and wholesale stores, bank buildings, commercial garages,
commercial parking lots, and shopping centers.
Debt - an obligation resulting from the borrowing of money or from the purchase of goods and services.
Debt Service - expenditures for the retirement of debt and expenditures for the interest on debt.
Enrollment Prediction Model - is a method for projecting future grade by grade enrollment for the Cleveland Metropolitan School District. EPM consists of three distinct parts. The first part captures the idea of student retention. It predicts whether a student in a school returns to that school in the following year. The second part captures the idea of mid-year entry. It predicts how many new students that arrive midyear will stay in a school for the following year. The third and final part predicts the number of students arriving in entry grades (PreK, KG, and $9^{\text {th }}$ grade). The combination of these three parts is the projection of a school's future enrollment.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are also reported as donated commodities revenue.

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, privatepurpose trust and agency funds.

Food Service - an enterprise fund which includes the costs and revenues associated with school cafeterias.
Fund- A group of programs budgeted and paid by one or more revenue sources
Fund Balance - Fund Balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds.

FY- "Fiscal Year" - Any period at the end of which a school District determines its financial position and the results of its operations.

General Fund - The fund which includes most day to day operating expenses of the school system (teacher salaries, school grounds maintenance, administration, etc). The general fund is supported by local, state and other revenues.

Grants Fund - Special purpose grants from the State, Federal government and other sources. These are budgeted separately in the grants fund.

Increment - A salary increase granted to eligible employees (usually each year) based on satisfactory performance. Also known as a step increase.

Industrial Property - The land and improvements to land used for manufacturing, processing, or refining foods and materials, and warehouses used in connection therewith.

Internal Service Fund - are used to account for the costs of maintaining the school systems self-insured programs for health, dental and workers compensation benefits for its employees and to account for the costs of printing, duplicating and data processing services.

Mineral Property - Land, and the buildings and improvements thereon, used for mining coal and other minerals as well as the production of oil and gas including the rights to mine and producing such minerals whether separated from the fee or not.

Non-spendable - The non-spendable fund balance category included amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Object- includes expenditures for certain types of costs, such as salaries, employee benefits, contracted services, supplies and materials, capital outlay and other miscellaneous expenditures.

Ohio Achievement Tests - test given to public school District students to show the grade level attained by the District education.

Ohio Graduation Tests - test given to public school District students, those who pass receive High School Graduation Diplomas.

Operating Budget - The school systems budget for annual operating expenses. By contrast, the Capital Budget includes multi-year construction projects.

Positions - Identified permanent jobs into which persons may be hired on either a full-time or less than full time basis.

Proprietary Funds - Proprietary funds focus on the determination of operating income, changes in net position, financial position and cash flows and are classified as either enterprise or internal service. The School District only has internal service funds.

Race to the top - Incentive program designed by the United States department of education to spur reforms in state and local k-12 education. It is funded by the ED Recovery Act as part of the American Recovery and Reinvestment Act of 2009.

Residential Property - Land used and occupied by one, two, or three families.
Restricted - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

Special Revenue Funds - Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Student Retention - The student retention portion rests on the idea that student and school characteristics are related to whether or not a student that begins the year in a school will return to that school in the following year.

Unassigned - Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for a specific purpose for which amounts had been restricted, committed, or assigned.

## Appendix

## Detailed General Operating Budgets by Cost Center

The Appendix contained detailed information about individual school and department cost centers funded through the general operating budget. There is a page for each school and department cost center.

The prior year's expenditures reflect actual amounts, while the current budget year reflects projected expenses utilizing average position costs and average health care elections. In many cases actual expenses will be higher or lower than reflected in the budget due to the actual, average salaries and health case decision deviating from the average.

## Schools: School-Based Management (0248)

This budget reflects school-based staff, resources, and activities suppoting instruction, academic supports, and social-emotional services. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to indivdual schools. The budget excludes itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## School Support - Academics: Interscholastic Athletics (0397)

This budget reflects the central office staff, resources, and activities suppoting an integrated school-based and districtwide athletic program. The Athletic Office organizes and supervises athletic activities in cooperation with the basic policies of the Board of Education, Ohio High School Athletic Association, and the Senate Athletic Council. The Interscholastic Athletics program provides interscholastic athletic competitions for students, both male and female, in Grades 7-12. The school-based resources associated with extracurricular activities are reflected in the 0389, 0391, and 0516

Total Budget Percent Increase / (Decrease)

## School Support - Operations: Construction Management (0270)

This budget reflects staff, resources, and activities associated with CMSD's construction and capital programs management. The majority of direct construction and capital costs are charged to specific capital improvement funds, specifically Funds 3, 10, and 34.

## School Support - Operations: Grade Restructuring (0505)

This budget reflects staff, resources, and activities to move school inventory in support of a merger, closure, or grade restructuring.

## School Support - Operations: School Transitions (0287)

This budget will not be used in FY17. Expenses related to Grade Restructuring are reflected in the School Transitions (0287) budget center.

## Financial Services: Financial Reporting (0360)

This budget reflects staff, resources, and activities suppoting CMSD's financial reporting requirements.

## Financial Services: Internal Audit (0362)

Internal Audit provides independent, objective audits, risk assessment and consulting services to the Board of Education, Audit Committee and District management while promoting an environment of compliance, sufficient internal controls, and efficient/effective programs. Internal audits will help to improve the District's performance and accountability.

## Financial Services: Community Schools \& Tuition (0370)

This budget reflects projected expenses related to community schools and tuition owed to other school districts and education providers.

## Individual Schools

Operational Units (Location)

## Adlai E. Stevenson (004)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## Anton Grdina (021)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## Charles Dickens (077)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## Clark (088)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## Euclid Park (168)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## Franklin D. Roosevelt (172)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. ## Garfield (188)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## H. Barbara Booker Wraparound (224)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## John F. Kennedy (285)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## Lincoln-West (330)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## Lincoln-West Global Studies (333)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## Mary M. Bethune (350)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## Nathan Hale (411)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## William Cullen Bryant (622)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.

## Ginn Academy (805)

This budget reflects school-based staff, resources, and activities supporting instruction, academic supports, and social-emotional services budgeted using general operating funds. This budget includes most principals, assistant principals, classroom teachers, counselors, secretaries, etc. which are attributed to individual schools. The budget excludes all grants and donations as well as itinerant resources, such as special education related services providers, as well as certain school-based teachers, such as Pre-K and Gifted and Talented teachers.
