

# FREE PROFESSIONAL DEVELOPMENT FOR PRESCHOOL, KINDERGARTEN, AND FIRST GRADE APRIL 18<sup>TH</sup> OR APRIL 23<sup>RD</sup> FROM 4:00 - 6:00PM

## All About Birds! By the Nature Center At Shaker Lakes

The Nature Center at Shaker Lakes offers professional development workshops on a variety of environmental education topics. CMSD teachers, pre-k, kindergarten, and 1st grade, are invited to attend a professional development session that is focused about birds. This program will dive into beak adaptations, feathers, migration, bird songs, and bird identification. We will wrap up the program with a hike to find what is out and about this time of year. You will leave this session knowing more about birds and hands-on outdoor learning experiences to take back to your classroom. You will receive a kit of science and observation tools to use throughout the school year. This training will be an indoor and outdoor session, weather permitting. Register online at:
