TRANSFORMING SCIENCE and CAREER

FREE, Online-only professional development
for K-12 public school teachers of science

Let us support your science teaching with focuses on:
Inquiry   Nature of Science   Science Career Development

- A series of 4 online modules through Kent State University (Oct. '18-Mar. '19)
    - Introducing Science & Career Development
    - Science Inquiry & Exploring Your Career Path
    - Teacher Questioning & Student Career Development Exploration
    - Nature of Science & Career Development
- Short interaction with resources
  (e.g., short videos, mini-lectures, readings, discussion prompts, practice strategies in classes and share what happened)
- Individualized support as you practice PD-related strategies in your classes
  (consultation sessions; subset of teachers also will receive two free onsite visits for additional implementation support)
- 4 Continuing Education Units (CEUs) available for purchase ($25)
- Developed & facilitated by Drs. Cassie Storlie and Bridget Mulvey

Projected outcomes:
- Access to supportive teacher, student resources and career assessments
- Connections to scientists at various career levels
- Improve your teacher questioning
- Enrich existing lessons to include thought-provoking, transformational teaching approaches
- Reflect on the richness of varied perspectives in Science to support students considering future career opportunities
- Explore career beliefs held by students from underrepresented backgrounds to help open doors to science, from the early years on up through high school.

Rolling admissions until all slots are filled.
