

EDUCATIONAL PHILOSOPHY

The Board is committed to providing a program of education which is consistent with the following vision as set forth in the Cleveland Municipal School District's Educating Cleveland's Children Strategic Initiatives:

Each student in the Cleveland Municipal School District will be successful in a rigorous instructional program, and our teachers, principals and administrative staff will be valued, will hold themselves responsible and accountable, and will be rewarded for their professionalism.

Periodically, the Board and the Chief Executive Officer shall re-evaluate the District's philosophy of education. Suggestions from both staff and the community should be considered.

All building and course of study philosophies should reflect and extend the District's philosophy. The Chief Executive Officer for the District shall disseminate the District's philosophy of education to all staff members and direct that it be published in all handbooks.
