

ENTRANCE AGE
(Mandatory Kindergarten)

Each child who is five years of age on or before September 30 shall be eligible to enroll in kindergarten. Each child who is six years of age on or before September 30 and who has successfully completed kindergarten shall be eligible to enroll in the first grade.

The District policy requiring successful completion of kindergarten may be waived upon parental request to the pupil personnel services committee. This committee shall be comprised as set forth in the Ohio Revised Code.

When a request for early entrance to kindergarten is received, the building principal interviews the parent(s) and child and arranges for the testing. The child's fifth birthday must fall between October 1 and December 31 of the year requested for early entrance. The testing assists the Chief Executive Officer by measuring the following areas.

1. The child's mental age should be between 14 and 16 months above his/her chronological age (October - 14 months; November - 15 months; December - 16 months) as determined by standardized tests.
2. The child's total I.Q. should be at least 125 on a deviation scale as determined by standardized testing.
3. The child should possess and demonstrate social and emotional characteristics that permit conformity with the pattern of behavior commonly expected of children in kindergarten.
4. Admission of the child is recommended by both the school psychologist and building principal.

[Adoption date: October 4, 2001]
