

# Learners, Leaders, Citizens of the World

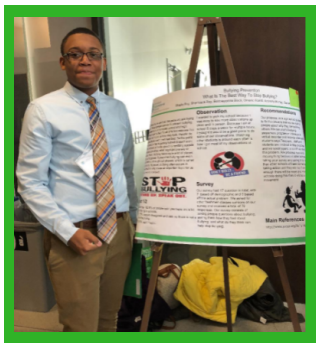

## An International Baccalaureate (IB) Education

Campus International High School is an International Baccalaureate (IB) World School authorized for both the Middle Years Programme (MYP) and Diploma Programme (DP). The IB program is recognized around the world as one of the highest standards of rigor in university preparatory education. Teachers are specially trained for presenting a curriculum focused on:

- international mindedness
- critical thinking
- inquiry-based learning
- conceptual understanding
- encouraging lifelong learning

Studies show that students who graduate from an IB program are more likely to attend college, attend selective colleges and to persist in college.

## The IB Core

Through the IB Core, students are guided through four different research opportunities: the 9th grade Youth Participatory Action Research project, the 10th grade Personal Project, the 11th grade Theory Of Knowledge Exhibition, and the 12th grade Extended Essay. At each level students are given the opportunity to embrace a topic that ignites their passion in experiential learning and prepares them not only for higher education, but also for a lifetime of critical thinking and inquiry.

## Opportunities to Explore Passions

Within the IB framework, the Arts are an integral part of the curriculum all four years. In addition, Creativity, Activity, and Service (CAS) are not just opportunities, but expectations. Students are overwhelmingly encouraged to participate in groups that excite their passions outside of the classroom. At CIHS we have a robust OHSAAs athletics program as well as a variety of student-initiated clubs and organizations. We work with CIHS staff, CSU faculty and students, and community organizations to offer students as many opportunities as they can envision.

# Learn by doing and experiencing!

## Amazing Classmates

Our students are the heartbeat of CIHS. They come from all over Northeast Ohio and a multitude of cultural heritages. Over and above the opportunity to earn their IB Diploma, students are well-prepared to embark on their post-secondary plans. In our first two graduating classes, students have enrolled in institutions like Cleveland State University, Case Western Reserve University, New York University, The Ohio State University, Bowling Green State University, Chatham University, and University of Minnesota, among others. Others have pursued passions in the skilled trades and the military.

## An Exciting Location

Our location on the campus of Cleveland State University allows for so many opportunities to interact with college students and professors as well as to participate in programs and College Credit Plus courses. CSU is also the host of our annual Campus Conference highlighting the research our students do in their IB Core classes. In addition, our proximity to downtown and the Health Line affords us a front row seat for all that is happening in Cleveland and the University Circle neighborhood.

*The city is our campus!*

## A Multilingual Future

Students at Campus International are expected to take four years of the same world language giving them time to truly acquire the language as well as opportunities to use it both in and out of the classroom. Students understand the value of learning a second (or third!) language and are primed with a multicultural outlook on the world.
