

# May

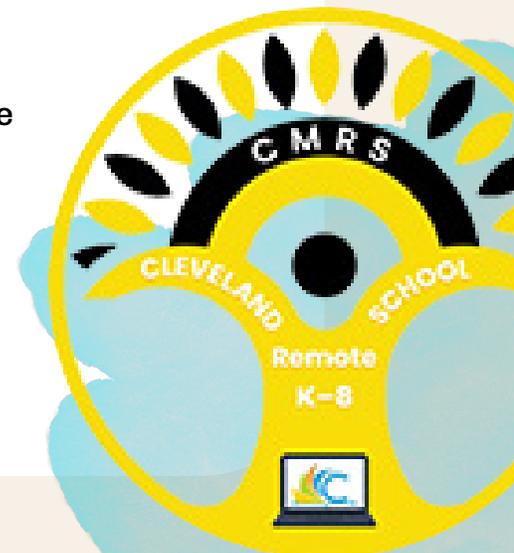

## The Last Month of School.

The last day of school for students is May 29th, 2025. There is still time for students to end the year strong. There is only one week remaining for students to take math and science OST. Again those tests are mandatory and must be done in person. Please call the school immediately at 216-838-7250 for more testing information. Students must complete their tests. The very last day to test is May 9th.

The school will be hosting graduation celebrations for students in kindergarten and grade 8 on May 28th, 2025.

The school carnival is May 19th and there is no school for students on Memorial Day, May 26th.

# CMSD Electronic Gradebook

**There is still time to create your parent PowerSchool account!**

As I have stated in previous newsletters, the electronic grade book for parents and caregivers is district wide initiative. paper progress reports have been discontinued and in order to keep track of your child's grade report and attendance throughout the year, you need this account. As your parent ambassador, I am always available to assist all parents in creating your account.

# Summer Time

## How can parents support learning this summer?

Kids can experience learning loss during long breaks. "The Summer Slide" seems to be the most infamous and troublesome type of learning loss. Teachers worry that when students return from summer break, that they have to spend more time reviewing than digging into new material. This could potentially delay the start of new curriculum.

One way to support your child's learning this summer is to sign them up for the summer learning experience that the district is providing this year. There will 11 learning sites for students in grades K-5, starting June 10th through July 11th. The only offering for middle school students is the marching band camp, starting June 10th through July 11th as well. [Here is the link to register.](#) You will need your child's student ID number.

I have also created a summer activity calendar that will be distributed to families at the school carnival. Each day there is a learning activity for the kids to complete. they will receive a calendar, an activity kit and a reference sheet.

Also, if you are looking for safe and educational experiences for your middle school aged children, kids can visit their nearest Cleveland Public Library branch. Their summer reading program will have activities. Kids can also visit their local recreation center to eat lunch, swim and participate in baseball programming.

## The Parent Advisory Committee

At our final family engagement event this school year, I hope to meet returning parents and caregivers who want to volunteer their time to support our school next year. I have collected enough data and information from families and I believe that we can start taking action towards some of the things parents want to see. I'm available through the school year and this summer via email.
