MONTHLY FINANCIAL STATUS REPORT

## Expenditure Summary

For FY2022 the Board passed a full appropriation of $\$ 605,879,190$. This budget, coupled with carryover encumbrances of $\$ 12,982,836$, resulted in a $\$ 618,862,026$ appropriation for FY2022. The following information is a financial update of the status of this appropriation through May 31, 2022.

Through May 31, 2022 the District has expended $\$ 565,853,114$ which reflects $91.00 \%$ of the District's total appropriation (see Exhibit A). The District also has outstanding encumbrances of $\$ 23,576,834$. A statistical spending range for the District is based on two analyses: first, time elapsed is eleven months, or $91.67 \%$, of the fiscal year. Secondly, 46 of the 50 , or $92.00 \%$, of the total pay periods have passed. Figure 3 illustrates these points.

Figure 3: Expenditure Level Through May

Overall, the District's expenditure level through May is below target based on the above analysis. As an examination of the categories of expenditures is performed, cyclical variances are noted between categories which related specifically to school opening activities.

Figure 4 compares the various expenditure categories to the expected level and to the prior two years. Figure 5 provides the year to date expenditure level by category for the current year as well as the prior two. The three years of data is beneficial for trend analysis performed throughout the year. Further discussion of these two figures is included on the following page.

## CLEVELAND METROPOLITAN SCHOOL DISTRICT

As Figures 4 and 5 illustrate, overall salaries and fringe benefits are higher than prior years. The trend line in Figure 4 is based on the time elapsed for the year. Health care costs are forecasted to increase 6.5\% in FY 22 from FY 21.

Purchased Services and Materials are, collectively, below budget year-to-date.
General Fund Capital expenditures are above budget because the General Fund was used to pay for 1:1 devices that will be reimbursed through a pandemic-related eRate program. The majority of other devices purchases and on-going construction projects are accounted for in other funds and therefore not reflected in the encumbrances/expenditures above.

Finally, the debt service and other objects category of encumbrance / expenditures, which mainly reflects the payment of treasurer and auditor fees and the transfer of monies to other District funds (as required by State regulations), is as expected yeartoday. Debt payments occur in July and April while the transfer of monies to other District funds will occur in June.
